PAIR OFF TESTING AND IMPLEMENTATION

NOVEMBER 22, 2013

PAIR OFF TESTING AND IMPLEMENTATION

Obligation Warehouse purges data every Friday evening after close of business. Current production data is entered into a clean PSE test system for start of day Monday. Output is created for all test data; MQ messages and Obligation Warehouse Web in real-time, Obligation Warehouse Position files both intraday and at the end of day, and Obligation Warehouse Pair off Activity file upon the completion of the Pair off process. The Obligation Warehouse Pair off Activity file should be compared to the file of canned output, located on the DTCC Learning website, using the same participant test script information, except for NSCC firm number.

Instructions for Testing Pair Offs

The following table provides the testing guidelines:

Steps	Required Action	Contact Information	Expected Results
1	Verify Obligation Warehouse Test connectivity --MQ --MRO file output --Obligation Warehouse Web	PIPsetup@dtcc.com RMSupport@dtcc.com	PSE connectivity / subscriptions active --ROM MQ channels --AutoRoute Test Requests ----# 02981967 Obligation Warehouse Pair off Activity ----# 02980703 Obligation Warehouse Position file --Obligation Warehouse Web access to PSE/ Test
2	Read the Obligation Warehouse Pair off Participant Test Scripts	https://dtcclearning.com/products-and-services/equities-clearing/obligation-warehouse.html	Member accesses the DTCC Learning center at Equities Clearance > Obligation Warehouse > Technical Resources to view the Participant Test Script document.
3	Begin Obligation Warehouse Pair off testing with another NSCC Member	Contact a contra to submit the obligations on the test script into Obligation Warehouse.	Obligations bilaterally marked for Pair off are included in the daily process. Results are available from the Obligation Warehouse Web and distributed through MQ messaging in real-time at 17:00 Eastern Time.
4	Obligation Warehouse Pair off with DTCC UAT testing partner	UAT@DTCC.com	Arrange for a Pair off test with DTCC's UAT group.
5	Mark obligations Pair off eligible on RECAPS day in test (January 10 & 30th)	Submit through MQ messages or Obligation Warehouse Web	The Obligation Warehouse Pair off process does not run on RECAPS day. On the day following look at the obligations that had the Pair off indicator set to yes. If an obligation netted, the Pair off indicator reset to the default of no.

Steps	Required Action	Contact Information	Expected Results
6	View Obligation Warehouse Test files through Obligation Warehouse Web	Obligation Warehouse Web	View Obligation Warehouse Web Report Center in Test
7	Member verifies that Obligation Warehouse Pair off testing has completed successfully	RMSupport@dtcc.com	Email the RM Support group to acknowledge that Obligation Warehouse Pair off testing has been completed successfully.* Request Obligation Warehouse output be activated in Production. --AutoRoute Production Requests ----# 02051967 Obligation Warehouse Pair Off Activity ----# 02050703 Obligation Warehouse Position file

* Obligation Warehouse Members using a service bureau are responsible for sending the email acknowledging the completion of testing by the service provider.
