Obligation Warehouse

APPENDIX C: MESSAGE FLOWS

VERSION 8.0

JULY 5, 2016

OBLIGATION WAREHOUSE MESSAGE FLOWS

Title: INST-1
Description: New Obligation from Participant via SWIFT Rejected (due to erroneous Obligation data)
1. Part. A submits a parsable MT515 INST with invalid data (see Appendix A for reject reason codes)

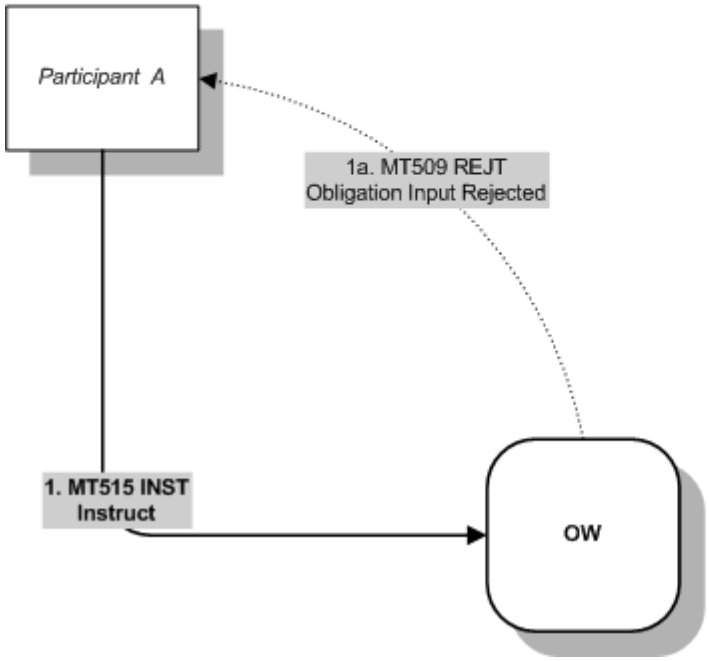

Figure 1: INST-1 New Obligation From Participant Through SWIFT Rejected (due to erroneous Obligation data)

Title: INST-2
Description: New Obligation from Participant via Web Rejected (due to erroneous Obligation data)

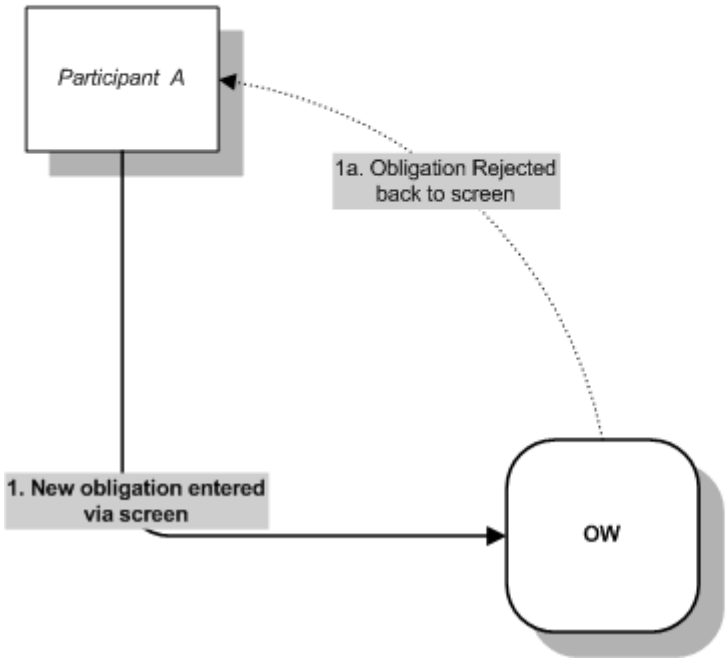

Figure 2: INST-2 New Obligation From Participant Through Web Rejected (due to erroneous Obligation data)

Title: INST-3
Description: New Obligation from Participant via SWIFT Accepted

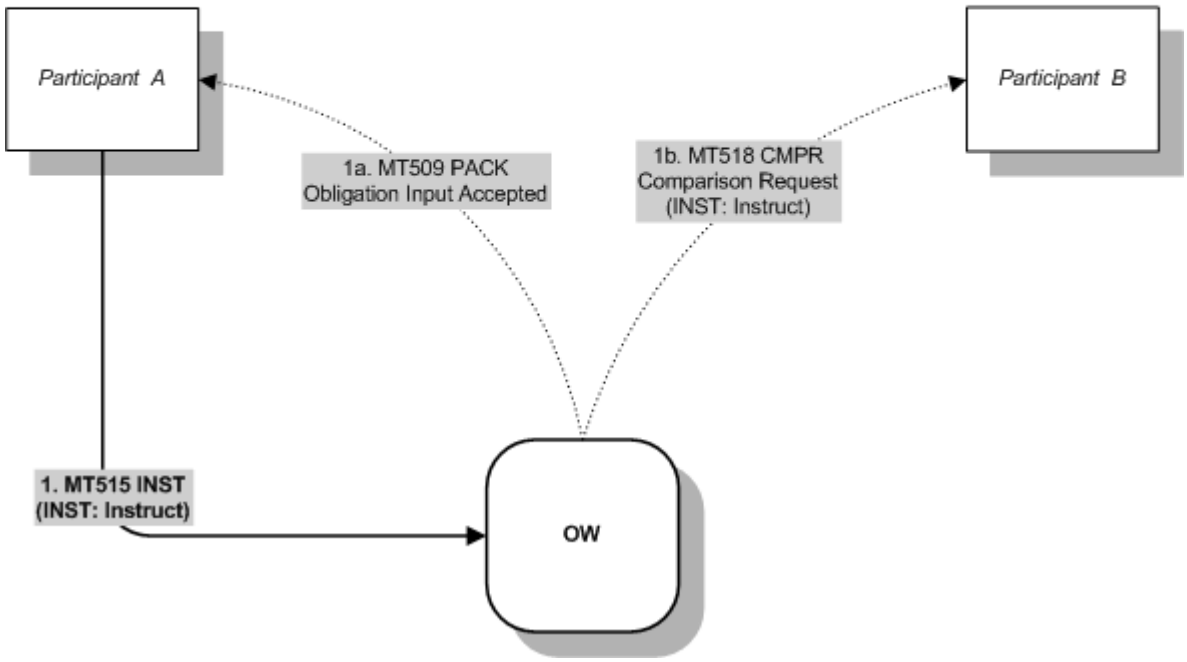

Figure 3: INST-3 New Obligation From Participant Through SWIFT Accepted

Title: INST-4
Description: New Obligation from Participant via Web Accepted

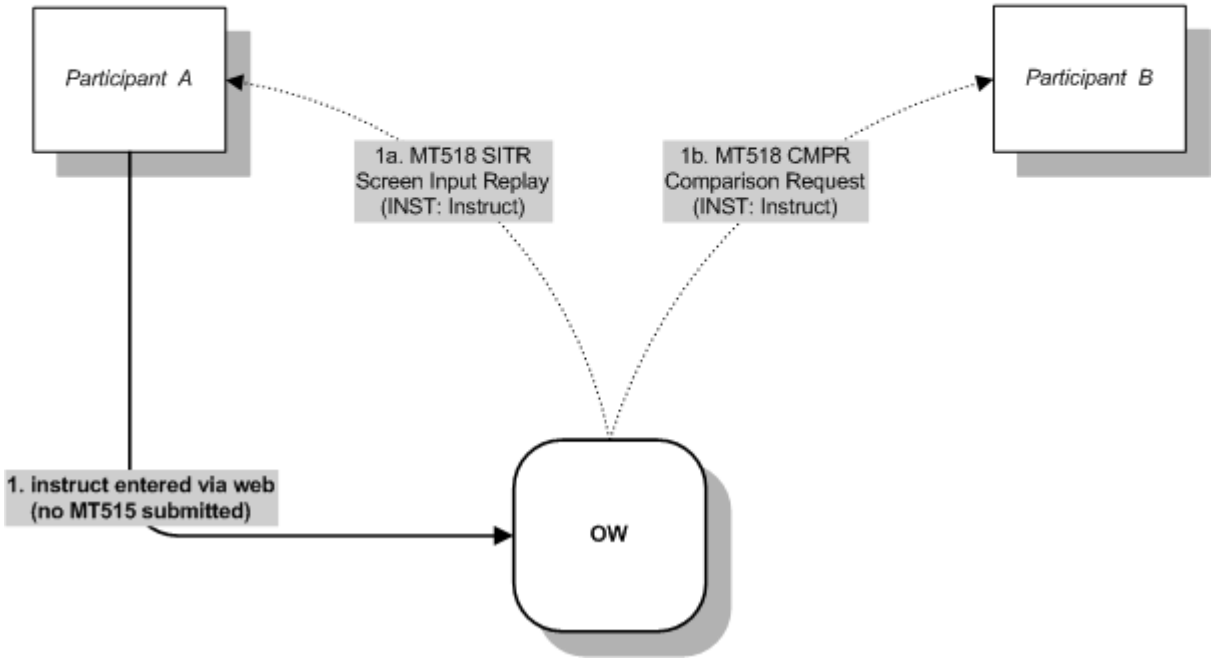

Figure 4: INST-4 New Obligation From Participant Through Web Accepted

Title: INST-5
Description: Instruct from Part. B matches and causes fully delivered obligation to be closed
1. Instruct from Participant A via SWIFT accepted
2. Delivery Notification (full) from Participant A via SWIFT accepted, Uncompared Pending Acceptance status assigned
3. Delivery Notification (full) from Participant B via SWIFT accepted, Uncompared status assigned
4. Instruct from Participant B via SWIFT accepted and matched, obligation closed

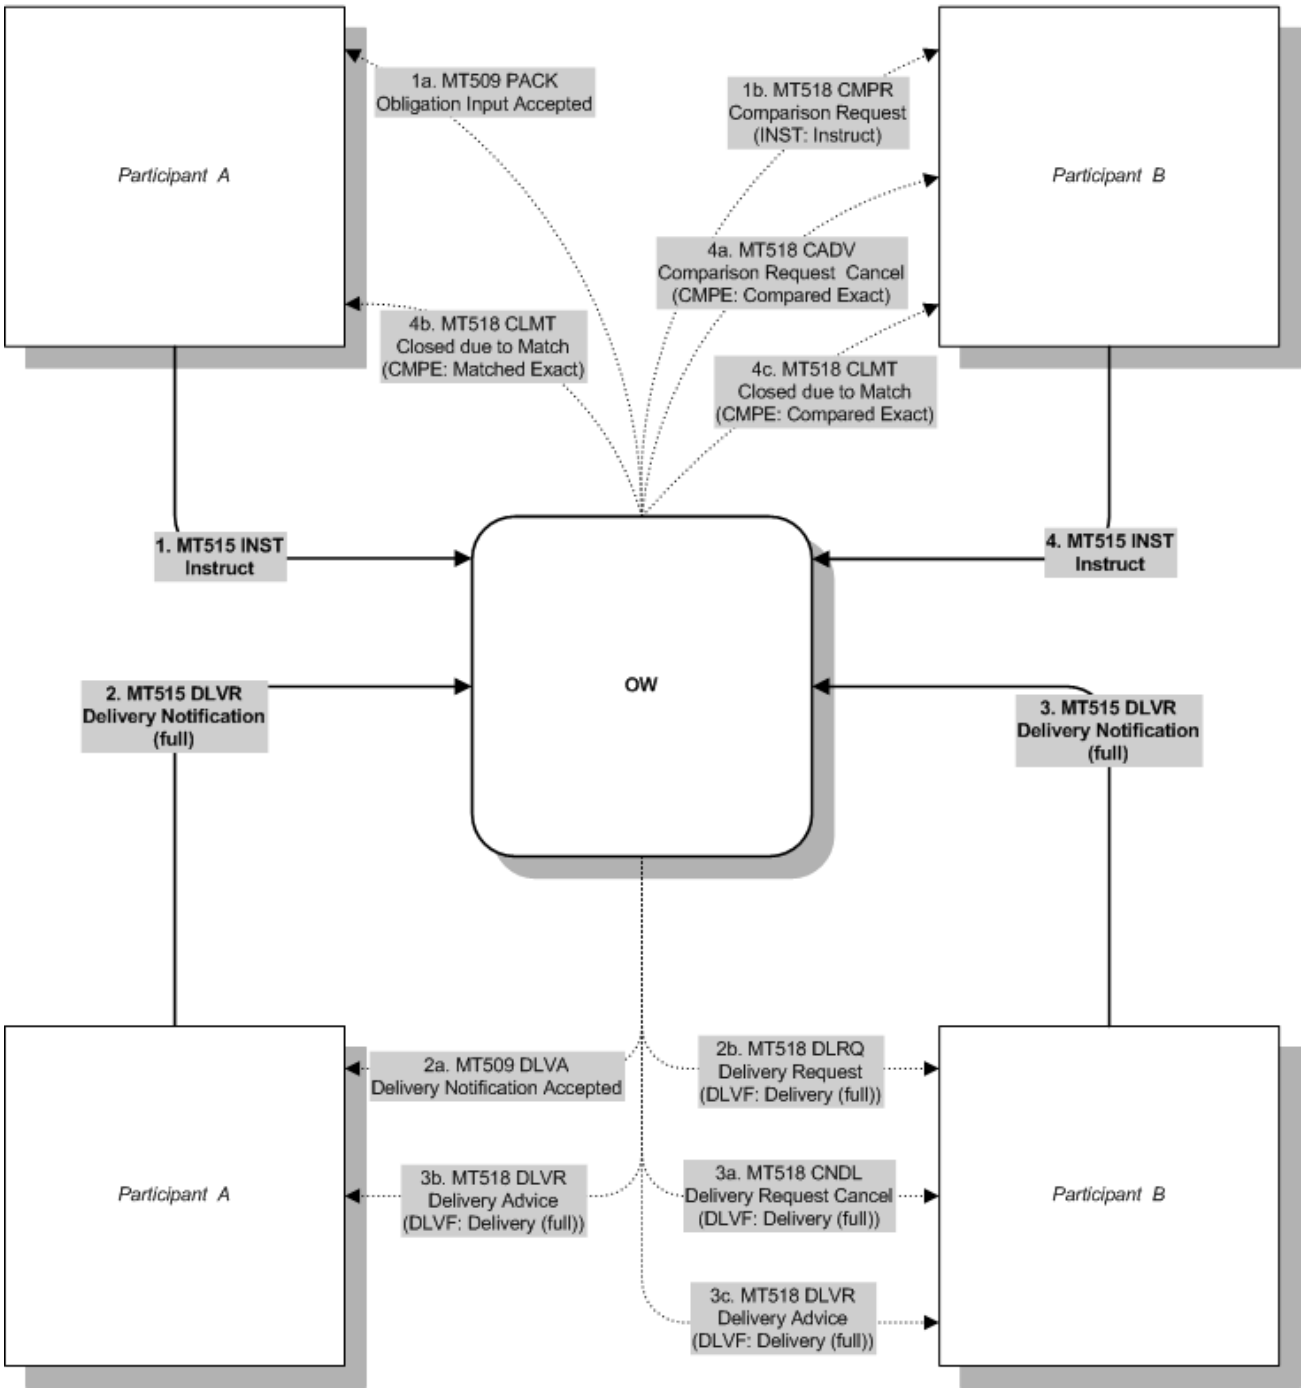

Figure 5: INST-5 Instruct From Part. B matches and causes fully delivered obligation to be closed

Title: INST-6
Description: Part B matches Uncompared, Pending Acceptance and then accepts delivery - Obligation closed, delivery complete
1. Instruct from Participant A via SWIFT accepted
2. Delivery Notification (full) from Participant A via SWIFT accepted - Uncompared Pending Acceptance status assigned
3. Instruct from Participant B via SWIFT accepted and matched - Open Pending Acceptance status assigned
4. Delivery Notification (full) from Participant B via SWIFT accepted - obligation closed, delivery complete

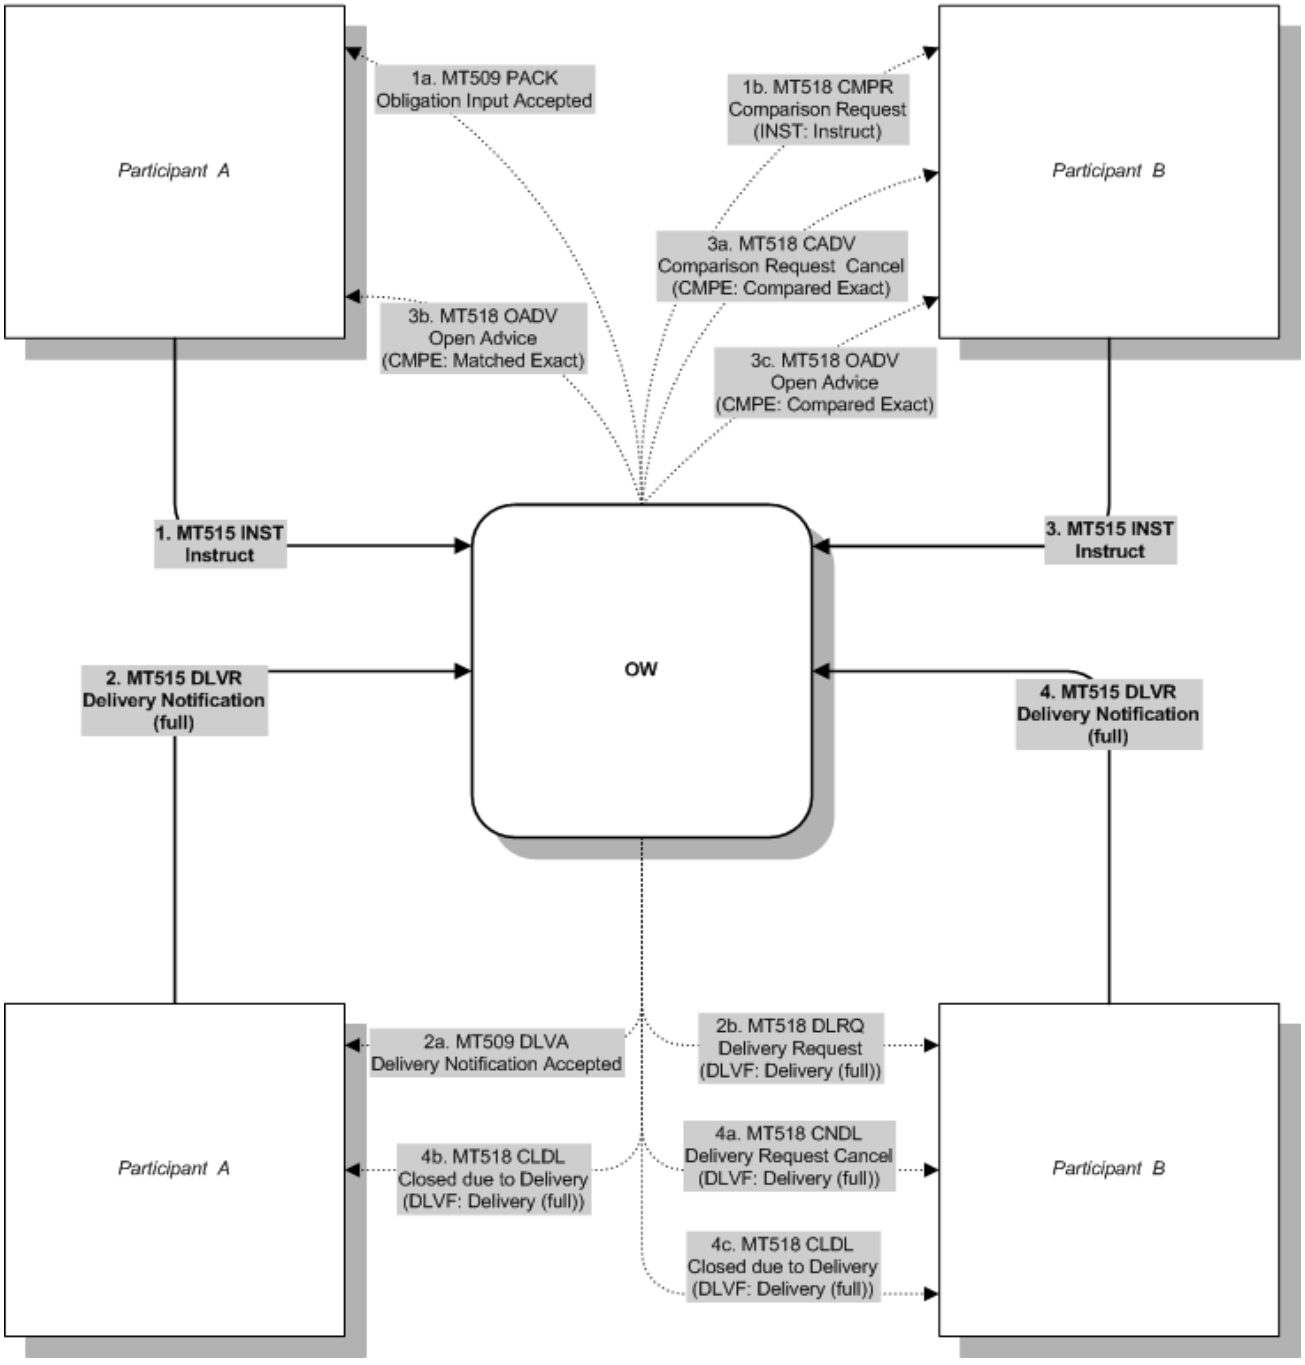

Figure 6: INST-6 Part B matches Uncompared, Pending Acceptance and then accepts delivery - Obligation closed, delivery complete

Title: AFFM-1
Description: Obligation Affirmed by Contra via Web
1. Participant A submits Instruct via SWIFT
2. Participant B affirms via web

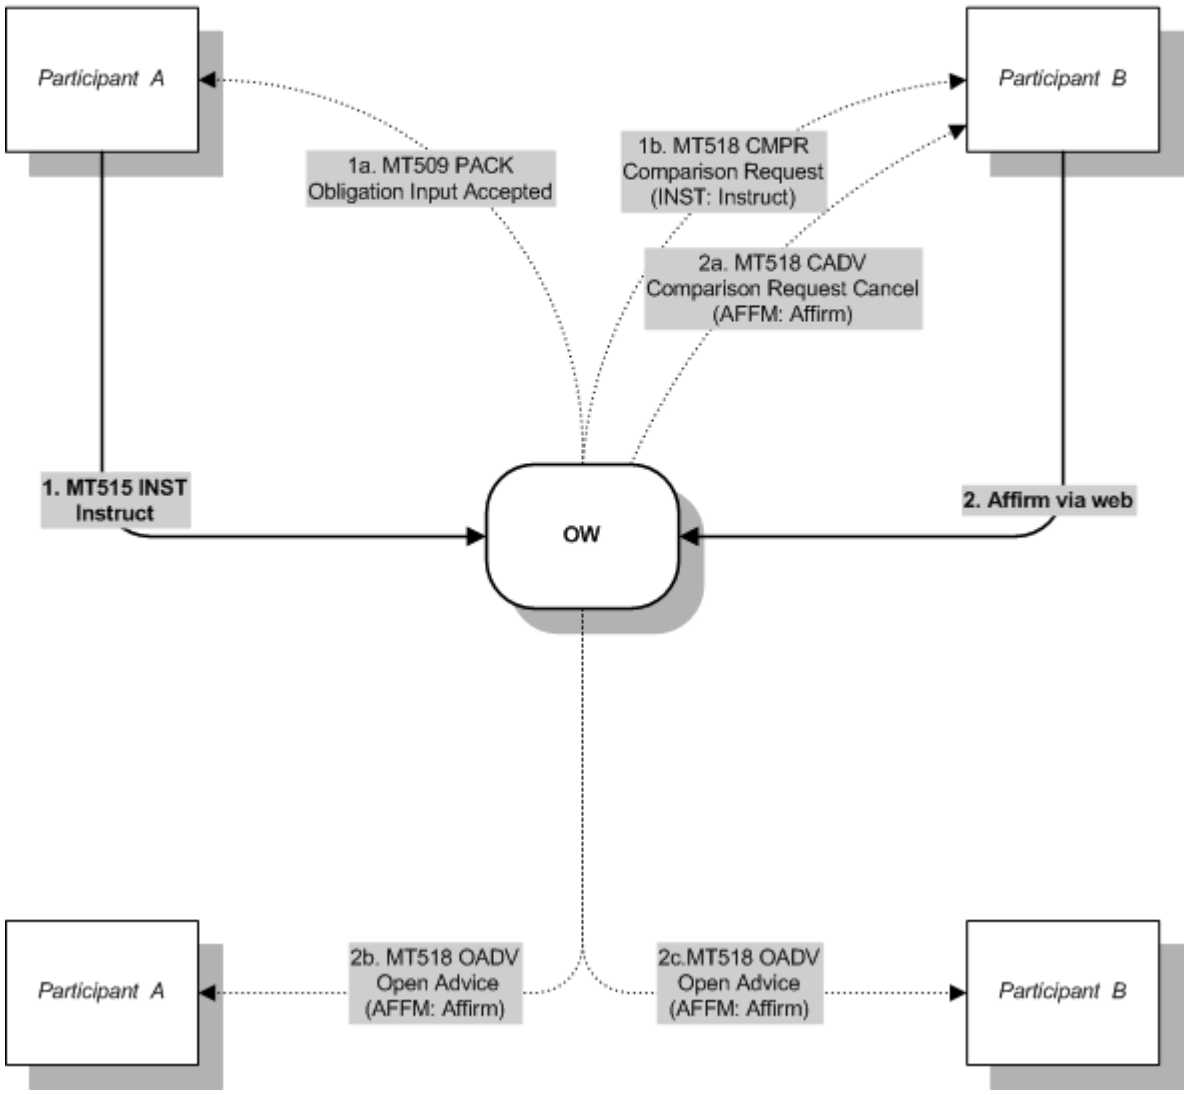

Figure 7: AFFM-1 Obligation Affirmed by Contra Through Web

Title: CANC-1
Description: Uncompared Obligation Cancel via SWIFT Rejected

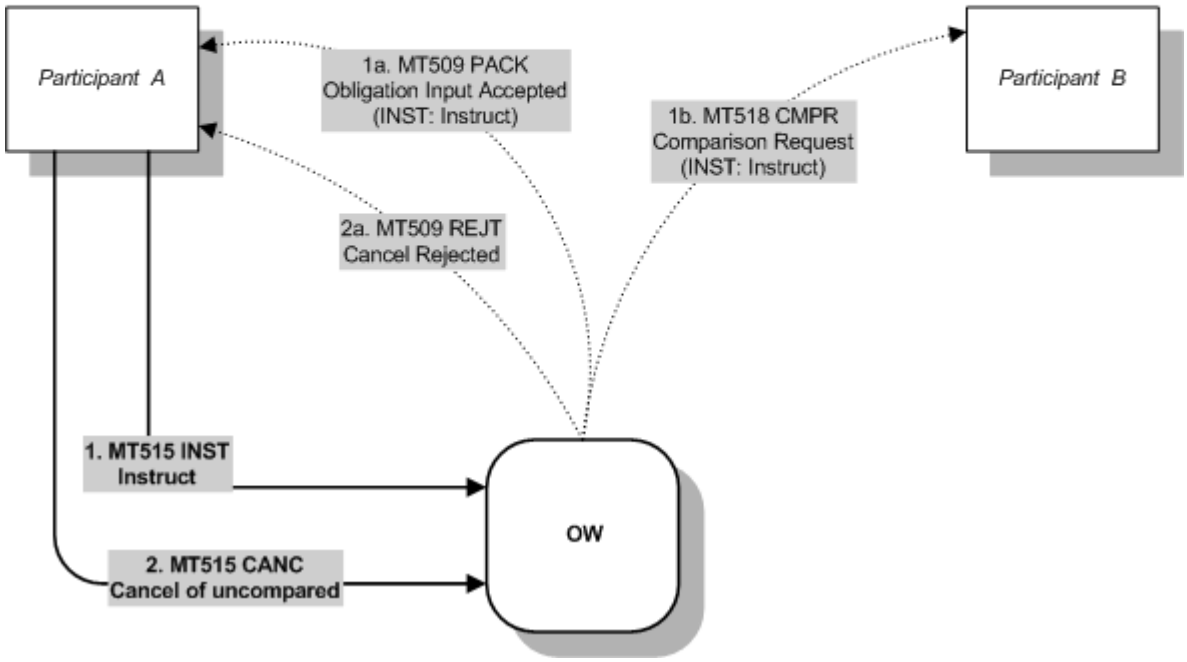

Figure 8: CANC-1 Uncompared Obligation Cancel Through SWIFT Rejected

Title: CANC-2
Description: Uncompared Obligation Cancel via Web Rejected

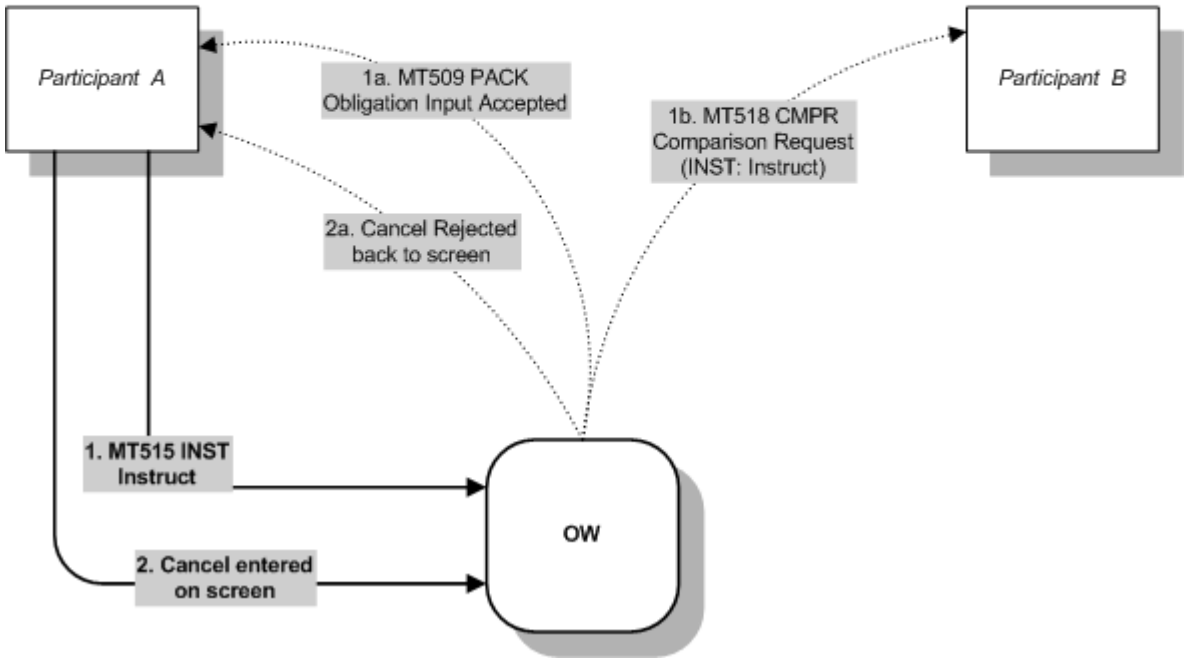

Figure 9: CANC-2 Uncompared Obligation Cancel Through Web Rejected

Title: CANC-3
Description: Uncompared Obligation Cancel via SWIFT Accepted

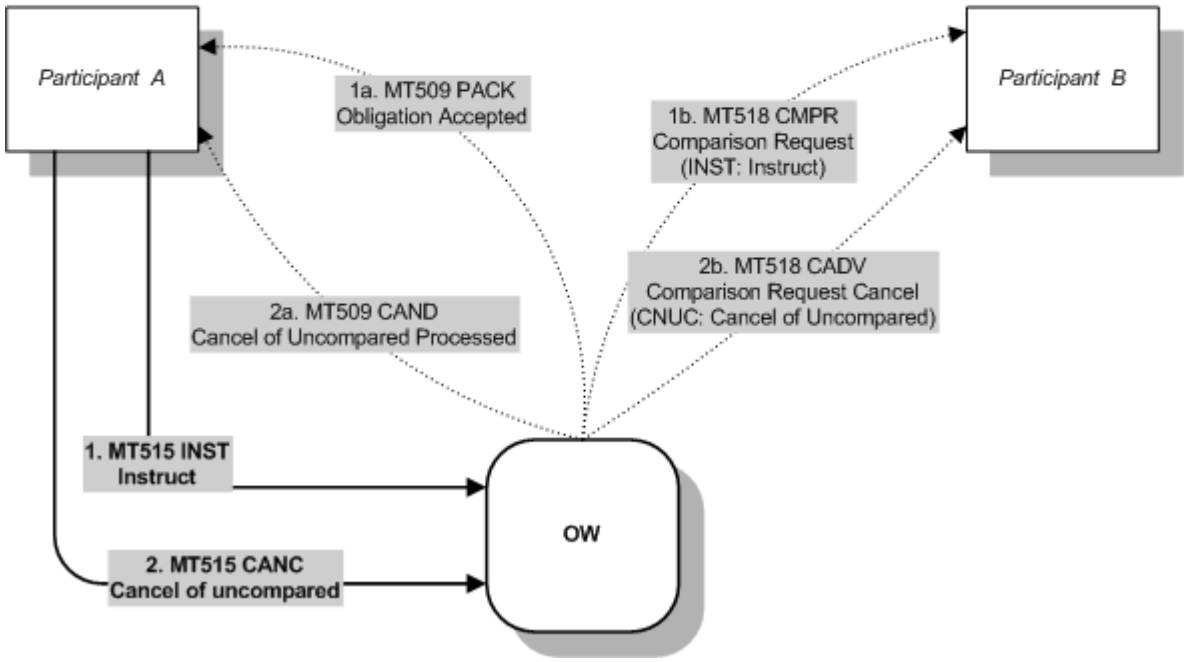

Figure 10: CANC-3 Uncompared Obligation Cancel Through SWIFT Accepted

Title: CANC-4
Description: Uncompared Obligation Cancel via Web Accepted

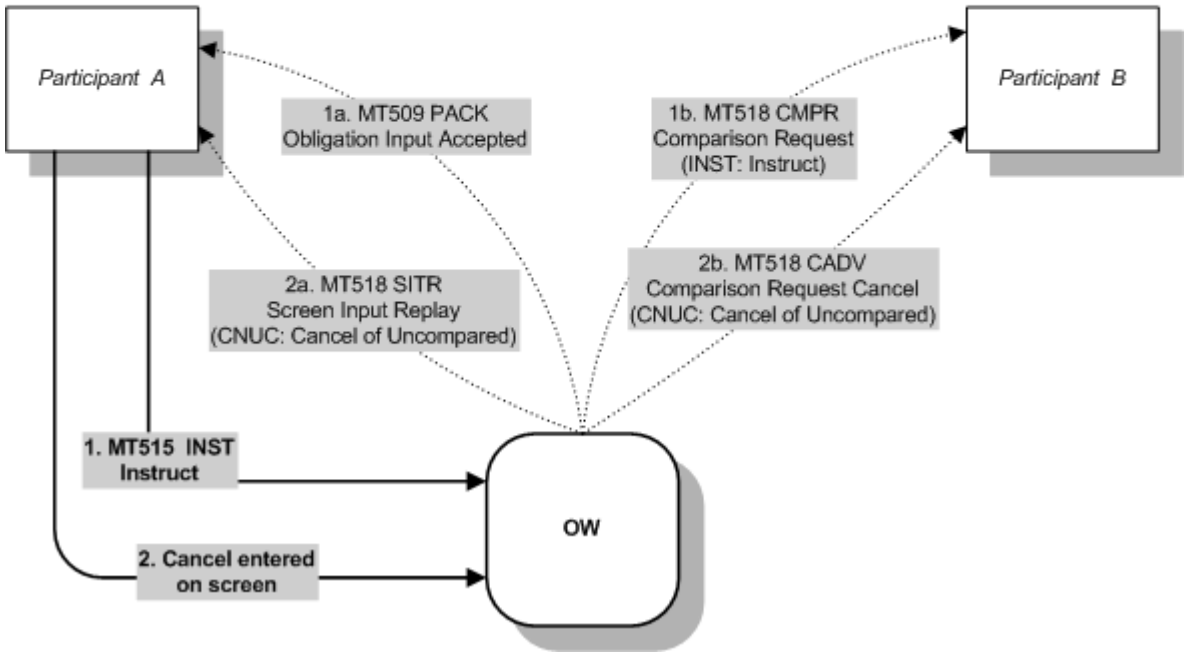

Figure 11: CANC-4 Uncompared Obligation Cancel Through Web Accepted

Title: CANC-5
Description: DKed Obligation Cancel via SWIFT accepted

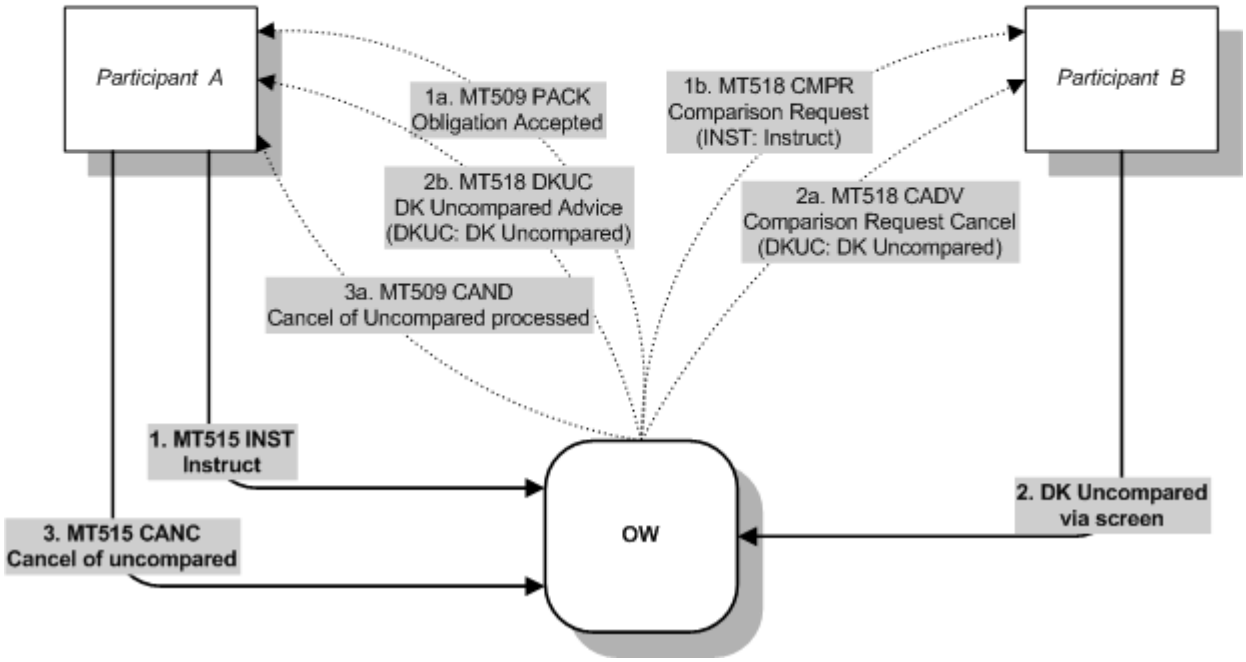

Figure 12: CANC-5 DKed Obligation Cancel Through SWIFT accepted

Title: CANC-6
Description: DKed Obligation Cancel via Web accepted

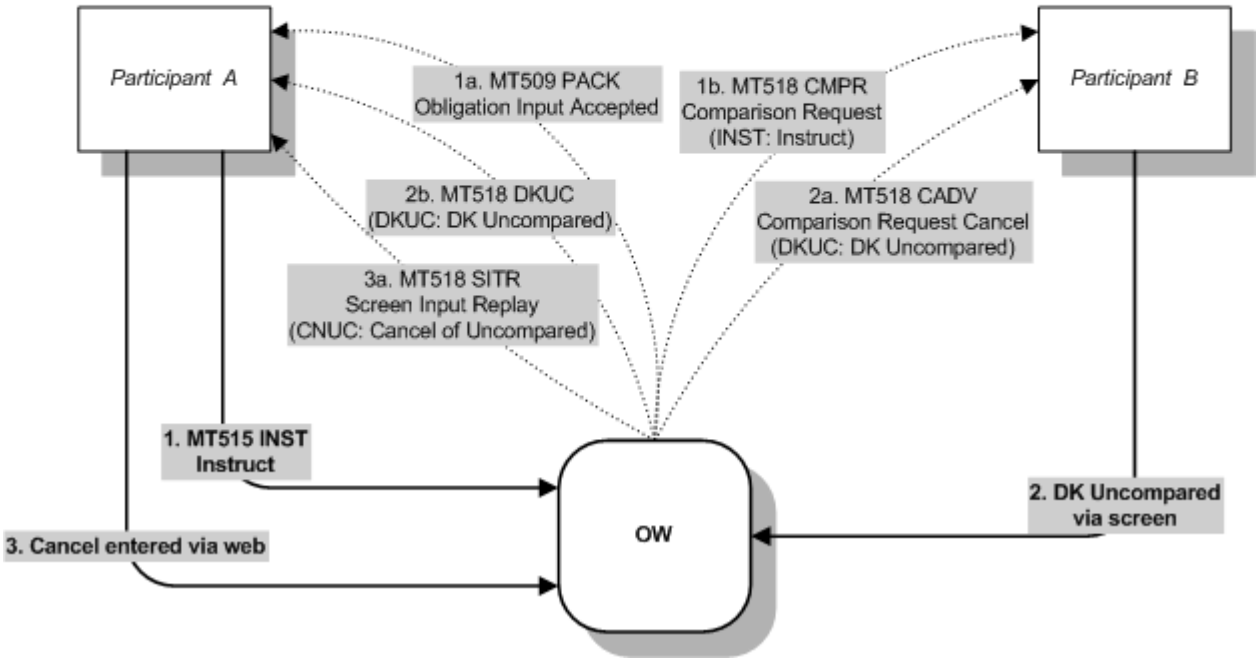

Figure 13: CANC-6 DKed Obligation Cancel Through Web accepted

Title: DKUC-1
Description: Uncompared Obligation DK via SWIFT Rejected

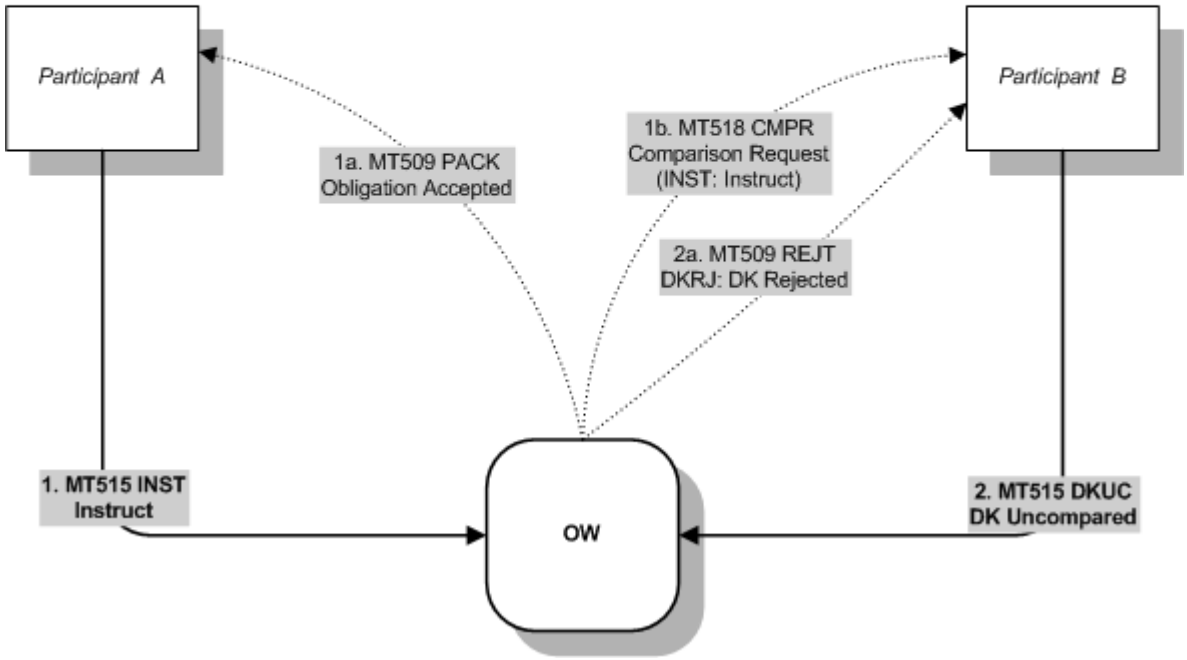

Figure 14: DKUC-1 Uncompared Obligation DK Through SWIFT Rejected

Title: DKUC-2
Description: Uncompared Obligation DK via Web Rejected

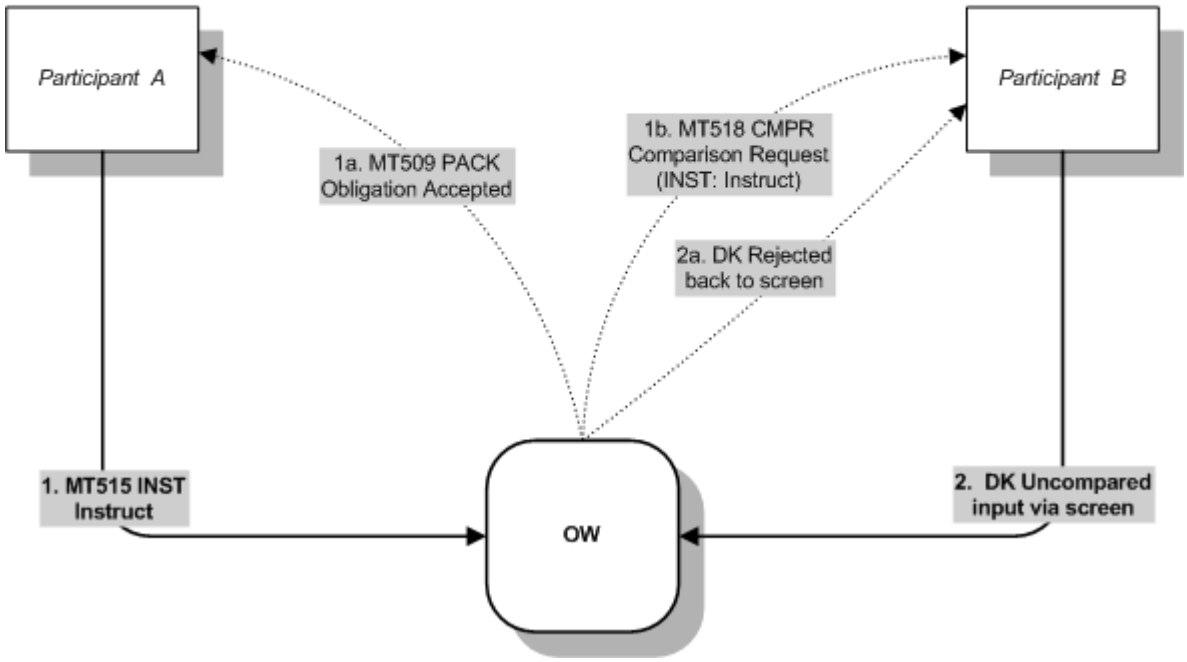

Figure 15: DKUC-2 Uncompared Obligation DK Through Web Rejected

Title: DKUC-3
Description: Uncompared Obligation DK via SWIFT Accepted

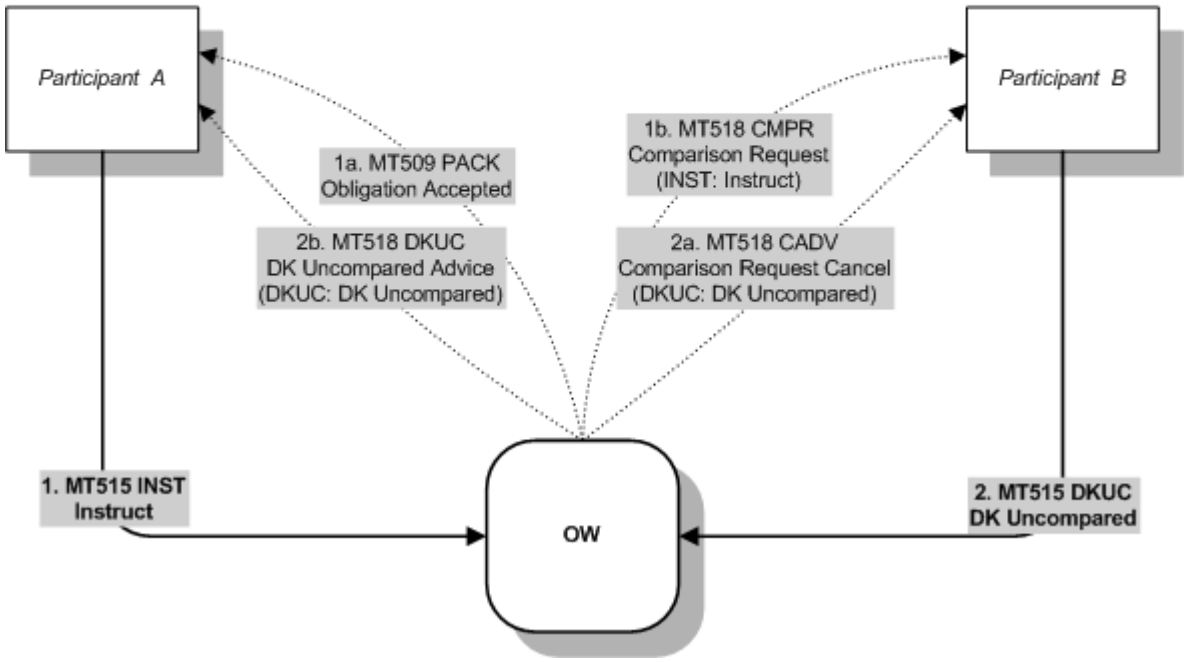

Figure 16: DKUC-3 Uncompared Obligation DK Through SWIFT Accepted

Title: DKUC-4
Description: Uncompared Obligation DK via Web Accepted

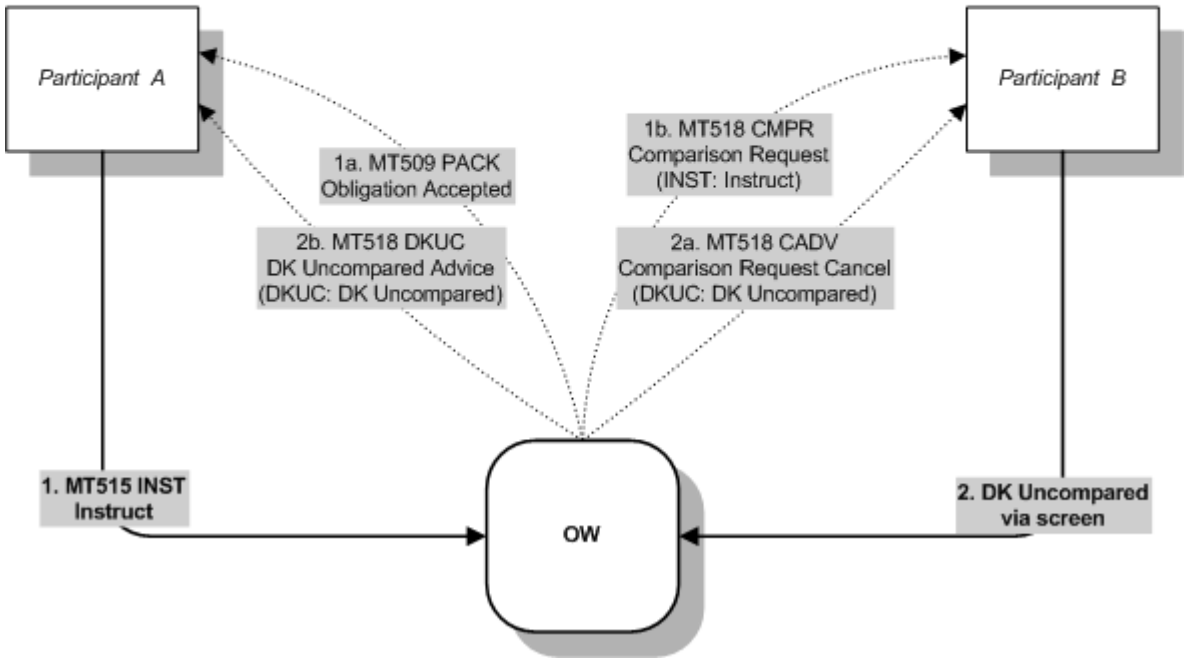

Figure 17: DKUC-4 Uncompared Obligation DK Through Web Accepted

Title: UNDK-1
Description: Uncompared Obligation UnDK via Web Rejected

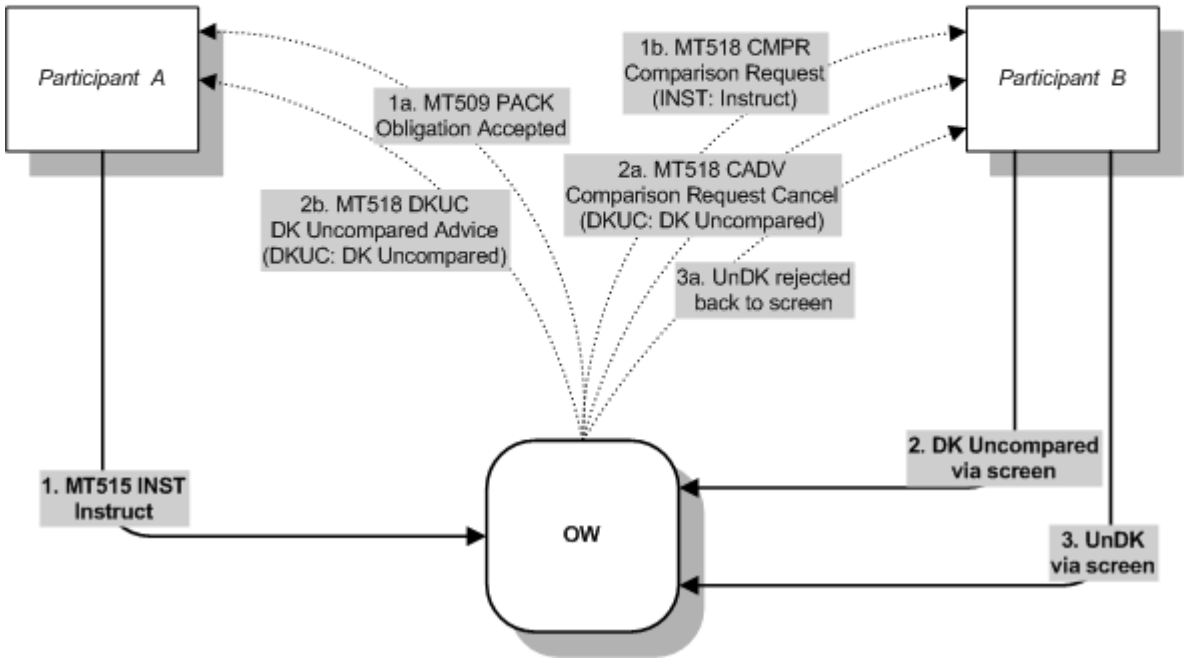

Figure 18: UNDK-1 Uncompared Obligation UnDK Through Web Rejected

Title: UNDK-2
Description: Uncompared Obligation UnDK via Web Accepted

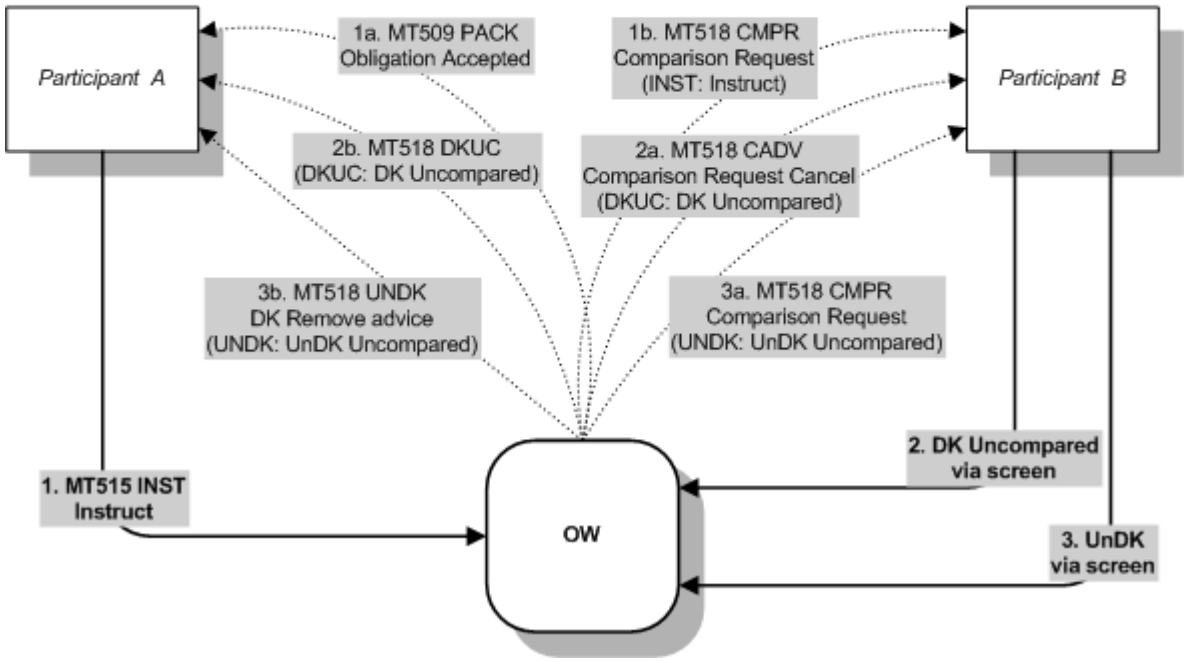

Figure 19: UNDK-2 Uncompared Obligation UnDK Through Web Accepted

Title: MDFC-1
Description: Uncompared Obligation Modify via SWIFT Rejected

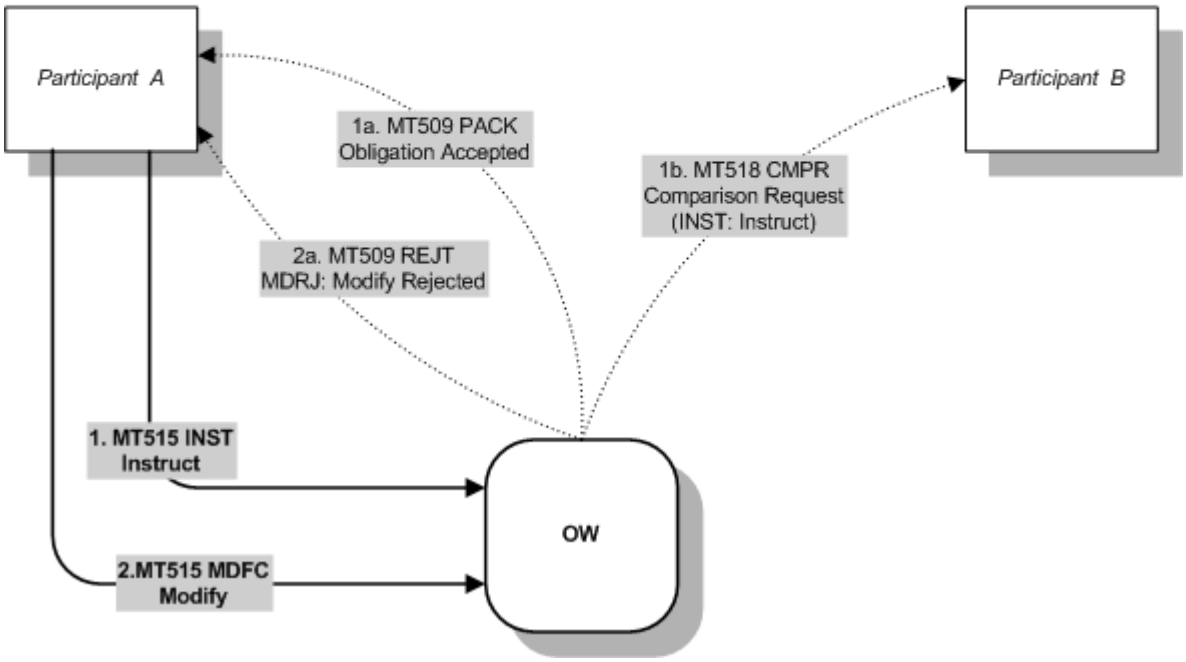

Figure 20: MDFC-1 Uncompared Obligation Modify Through SWIFT Rejected

Title: MDFC-2
Description: Uncompared Obligation Modify via Web Rejected

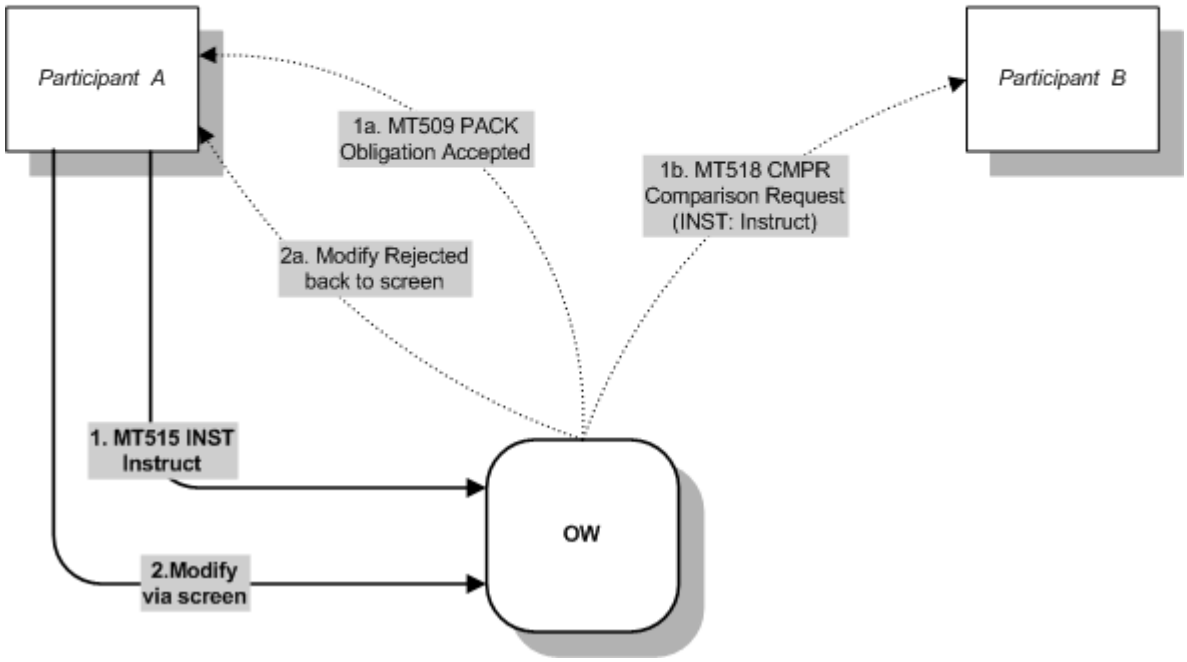

Figure 21: MDFC-2 Uncompared Obligation Modify Through Web Rejected

Title: MDFC-3
Description: Uncompared Obligation Modify (matching fields) via SWIFT Accepted

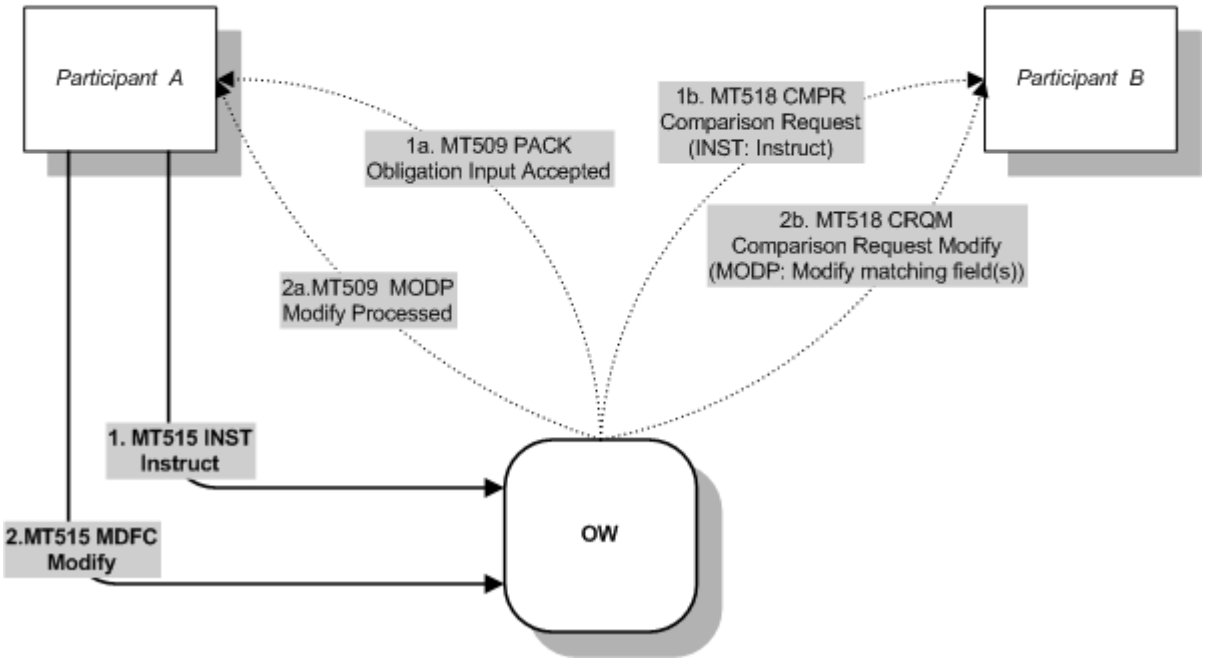

Figure 22: MDFC-3 Uncompared Obligation Modify (matching fields) Through SWIFT Accepted

Title: MDFC-4
Description: Uncompared Obligation Modify (matching fields) via Web Accepted

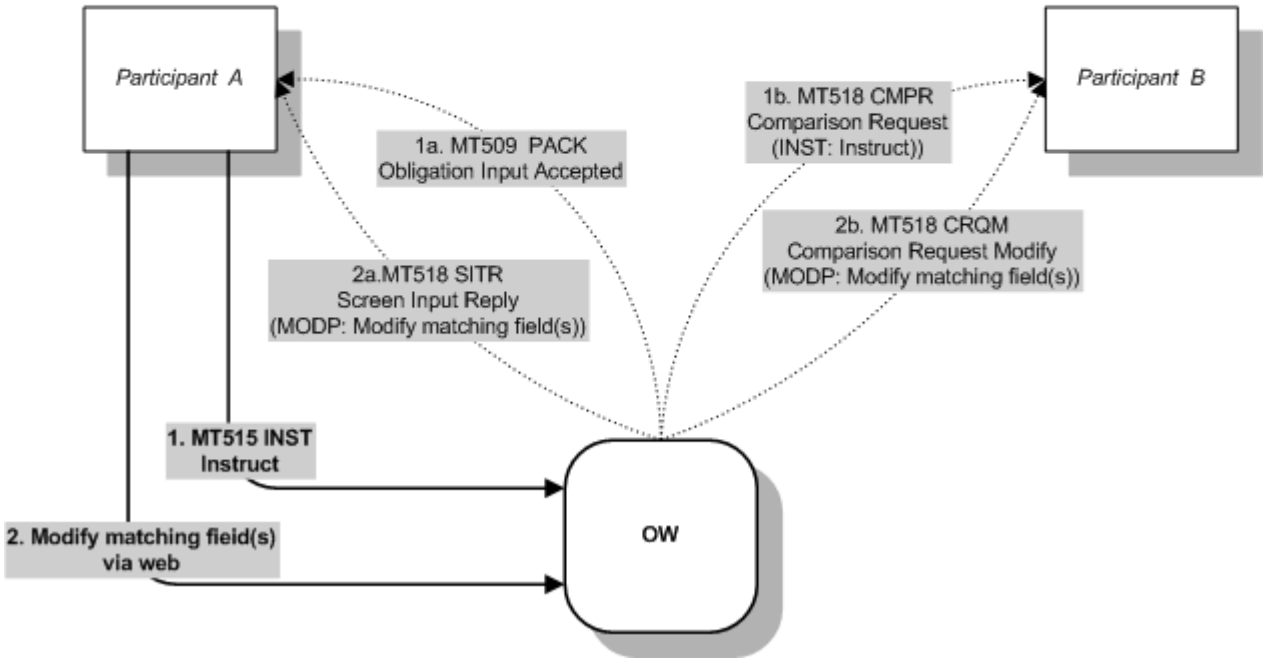

Figure 23: MDFC-4 Uncompared Obligation Modify (matching fields) Through Web Accepted

Title: MDFC-5
Description: Modify (matching fields but not contra) of DK'ed Unmatched Obligation via SWIFT Accepted

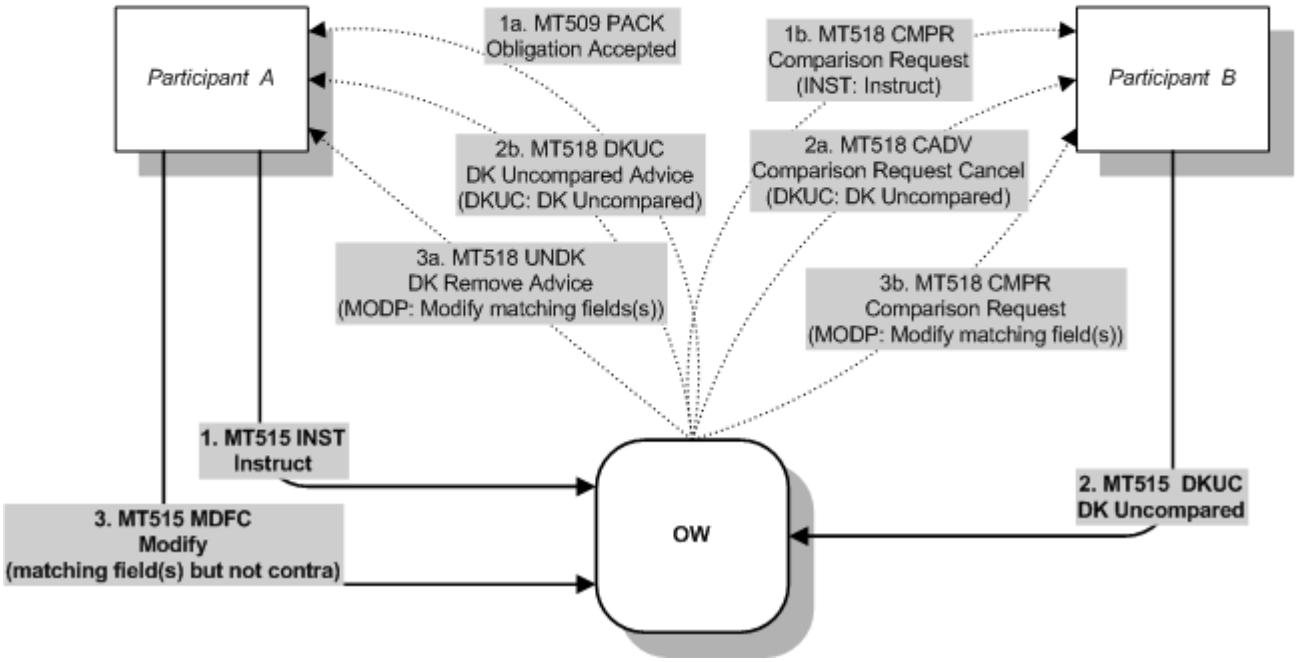

Figure 24: MDFC-5 Modify (matching fields but not contra) of DK'ed Unmatched Obligation Through SWIFT Accepted

Title: MDFC-6
Description: Modify (matching fields but not contra) of DK'ed Unmatched Obligation via Web Accepted

Title: MDFC-7
Description: Modify of Contra on Umatched Obligation via SWIFT Accepted

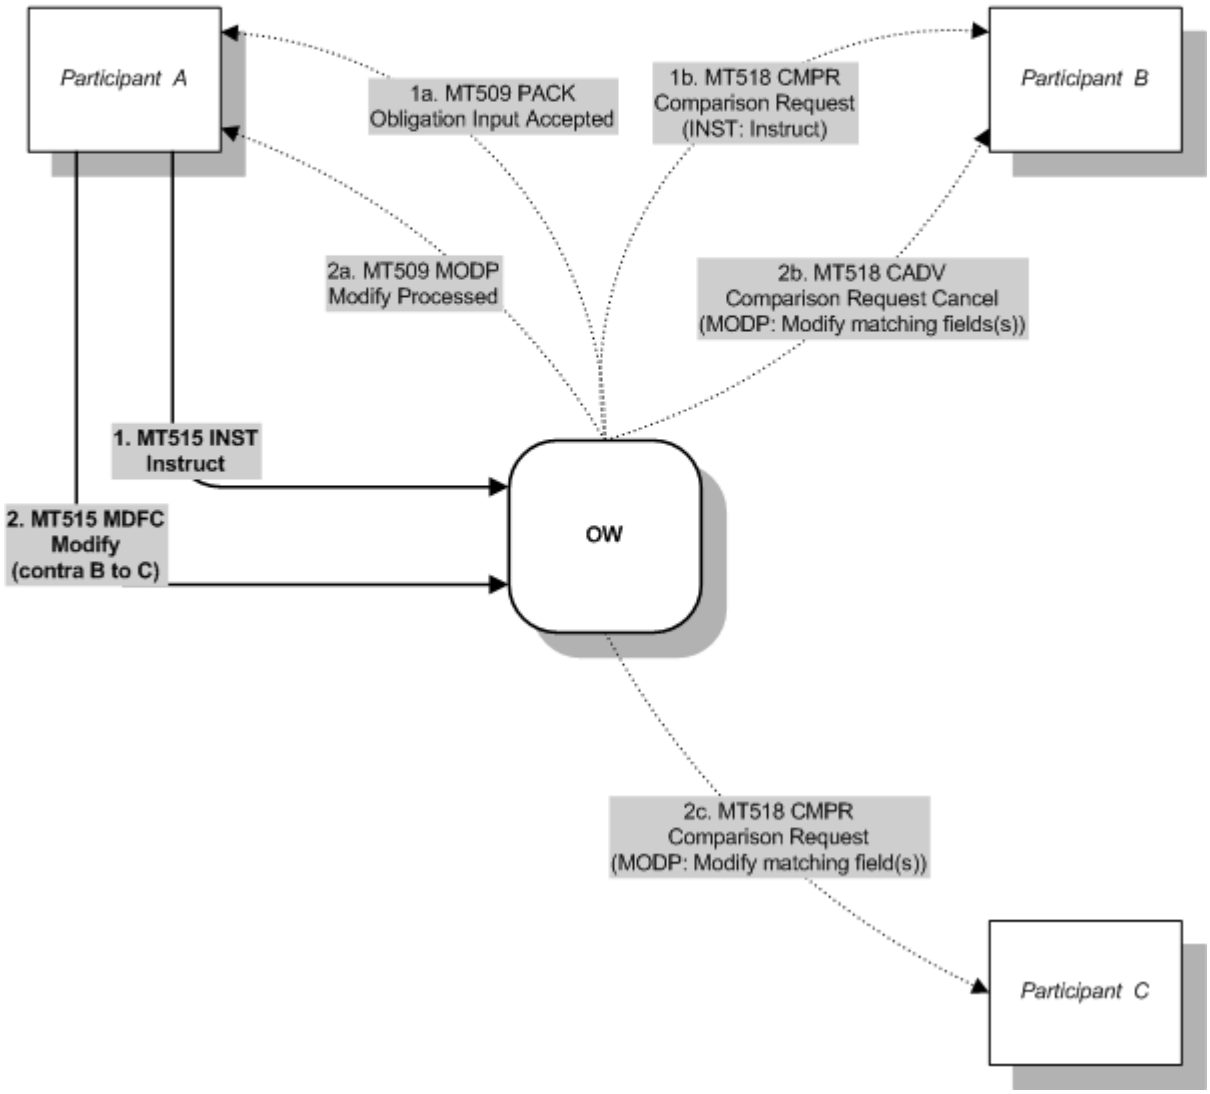

Figure 26: MDFC-7 Modify of Contra on Unmatched Obligation Through SWIFT Accepted

Title: MDFC-8
Description: DK'ed Obligation Modify (non-matching fields) via Web Accepted
Note: DK will not be lifted due to modification of non-matching fields

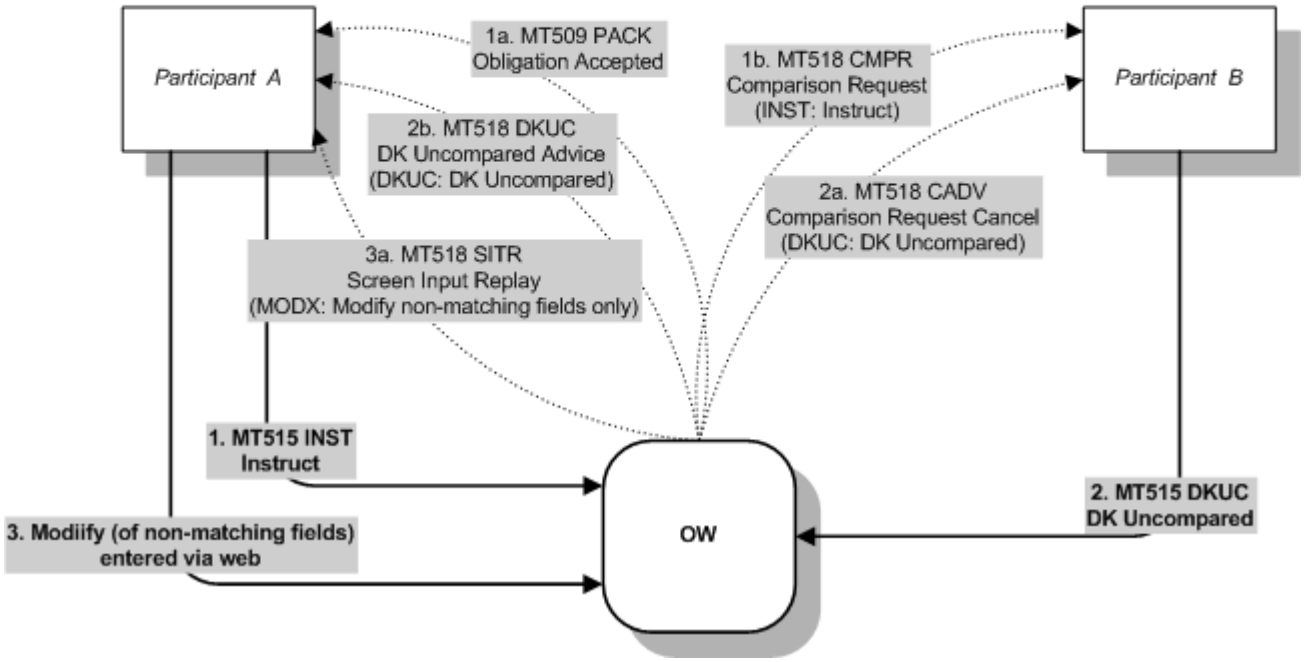

Figure 27: MDFC-8 DK'ed Obligation Modify (non-matching fields) Through Web Accepted

Title: MDFC-9
Description: DK'ed Obligation Modify (non-matching fields) via SWIFT Accepted
Note: DK will not be lifted due to modify of non-matching fields.

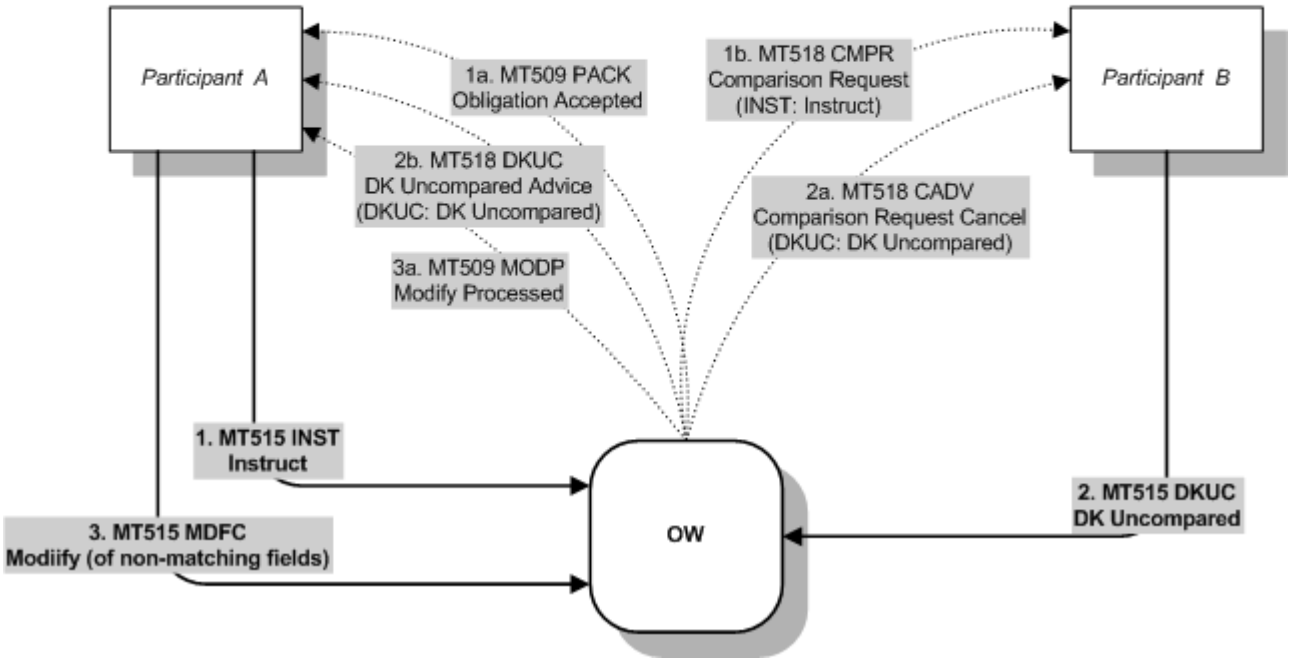

Figure 28: MDFC-9 DK'ed Obligation Modify (non-matching fields) Through SWIFT Accepted

Title: DELE-1
Description: Uncompared Obligation Deleted at EOD due to Prime Broker
Note: This diagram is no longer applicable to OW

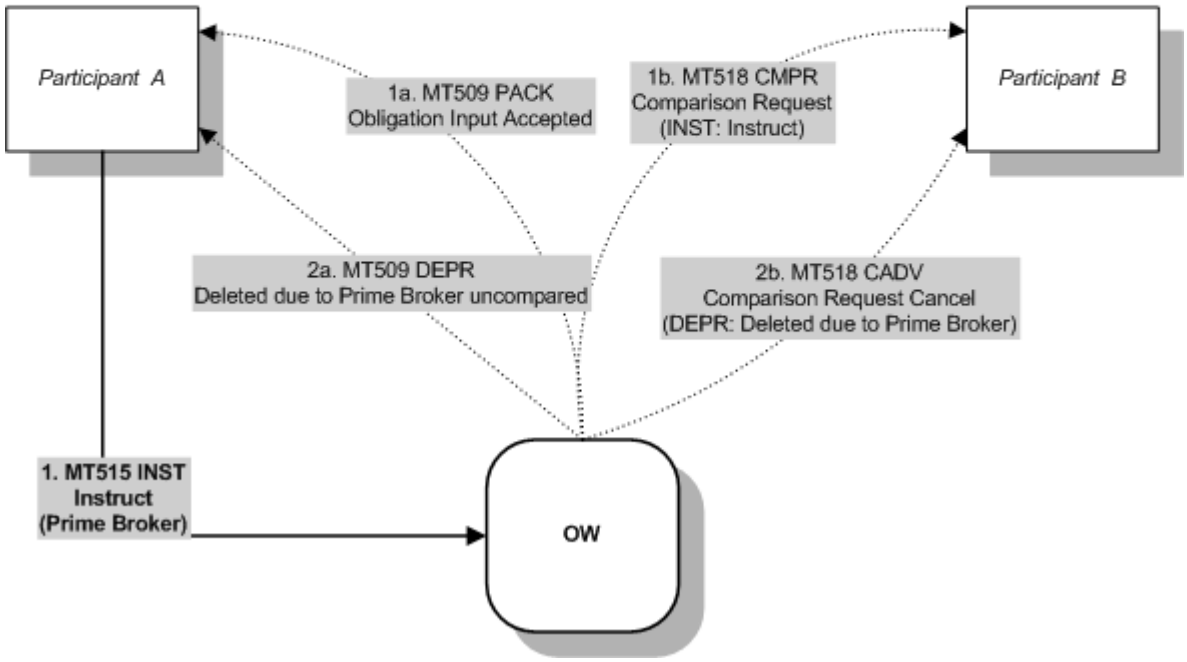

Figure 29: DELE-1 Uncompared Obligation Deleted at EOD due to Prime Broker. Note: This diagram is no longer applicable to OW.

Title: DELE-2
Description: Uncompared DK'ed Obligation Deleted

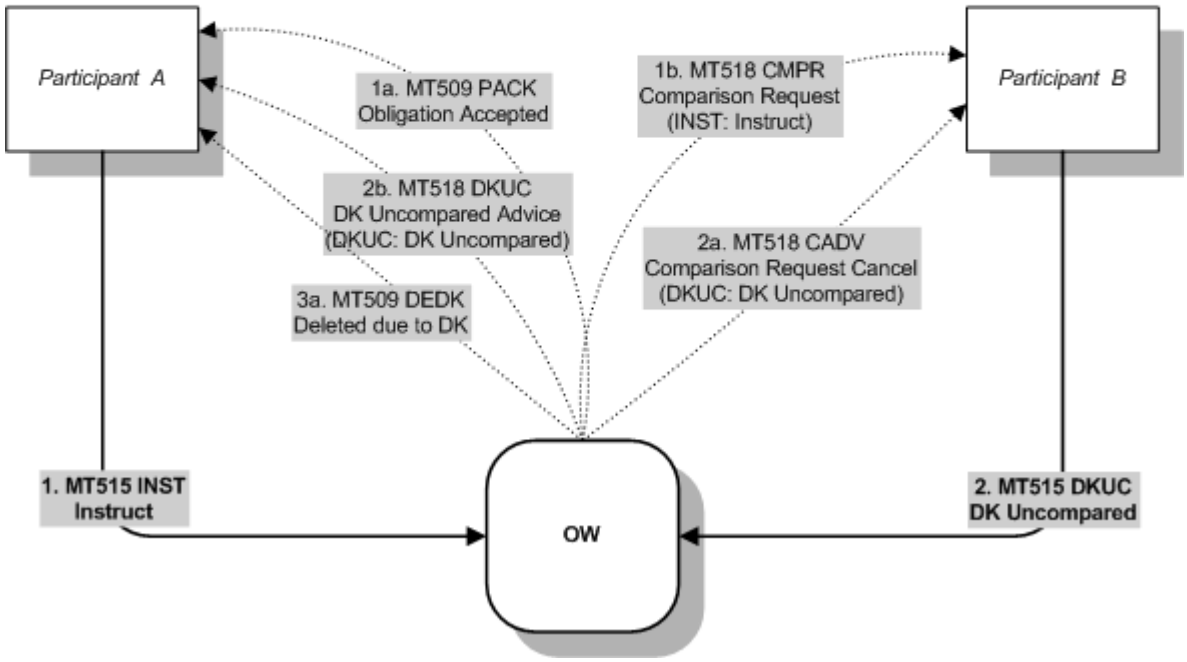

Figure 30: DELE-2 Uncompared DK'ed Obligation Deleted

Title: DELE-3
Description: Uncompared Obligation Deleted at SOD by Participant Swing

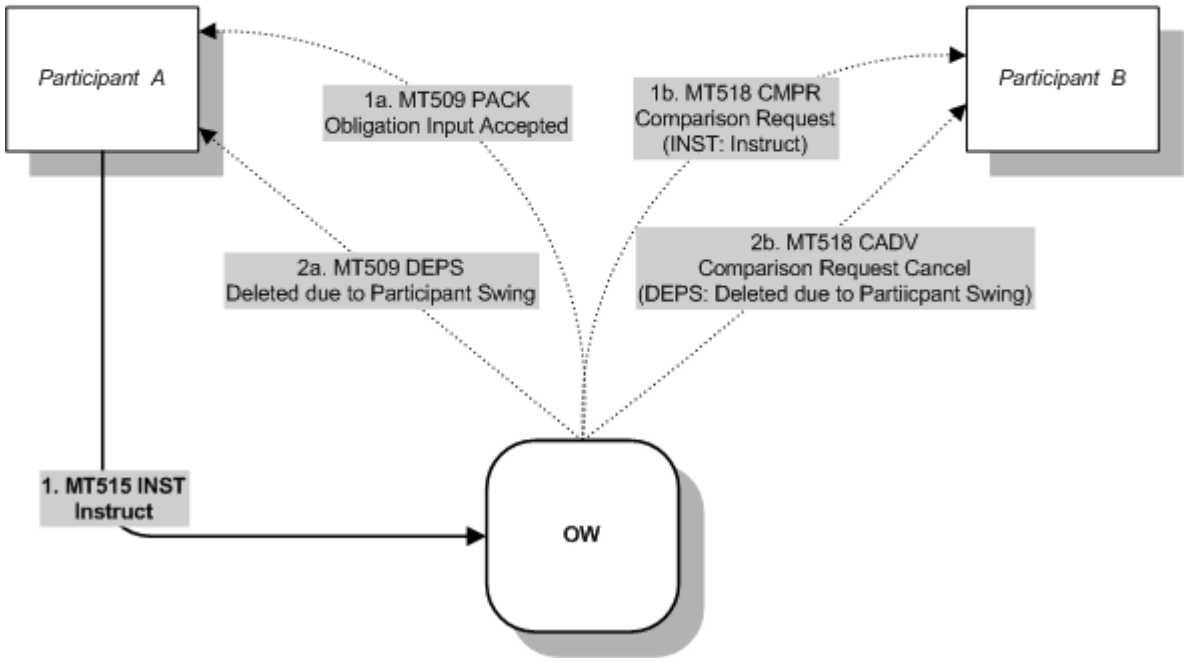

Figure 31: DELE-3 Uncompared Obligation Deleted at SOD by Participant Swing

Title: DELE-4
Description: Uncompared Obligation Deleted by Admin Action

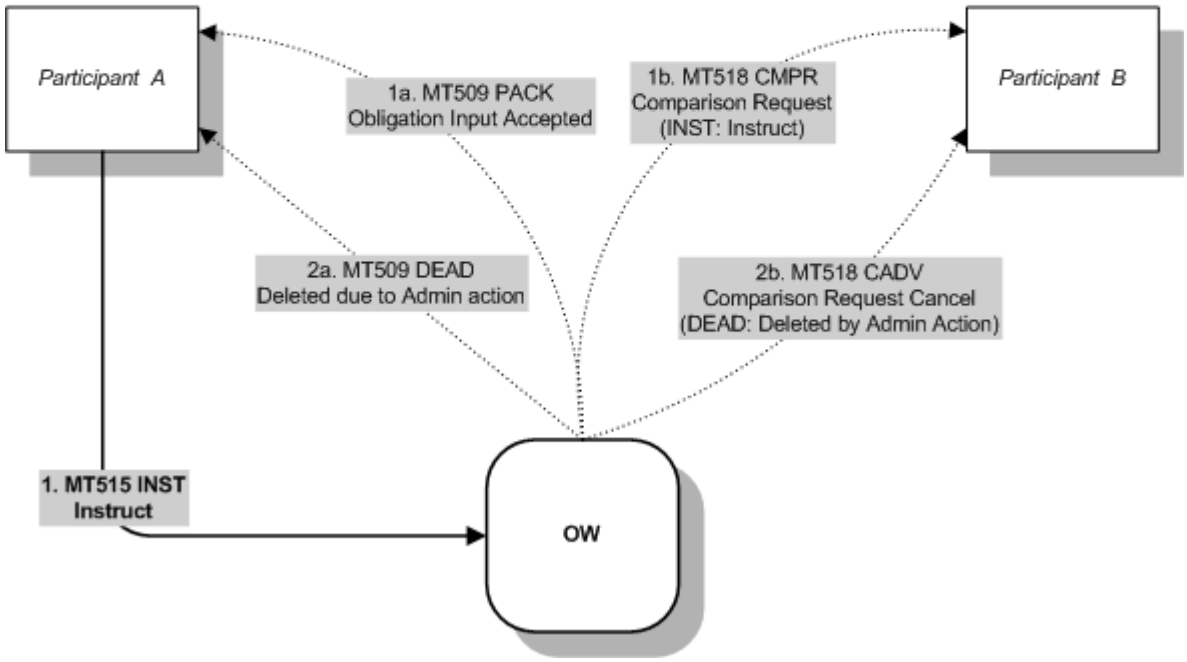

Figure 32: DELE-4 Uncompared Obligation Deleted by Admin Action

Title: MTCH-1
Description: Obligation Compared Exact

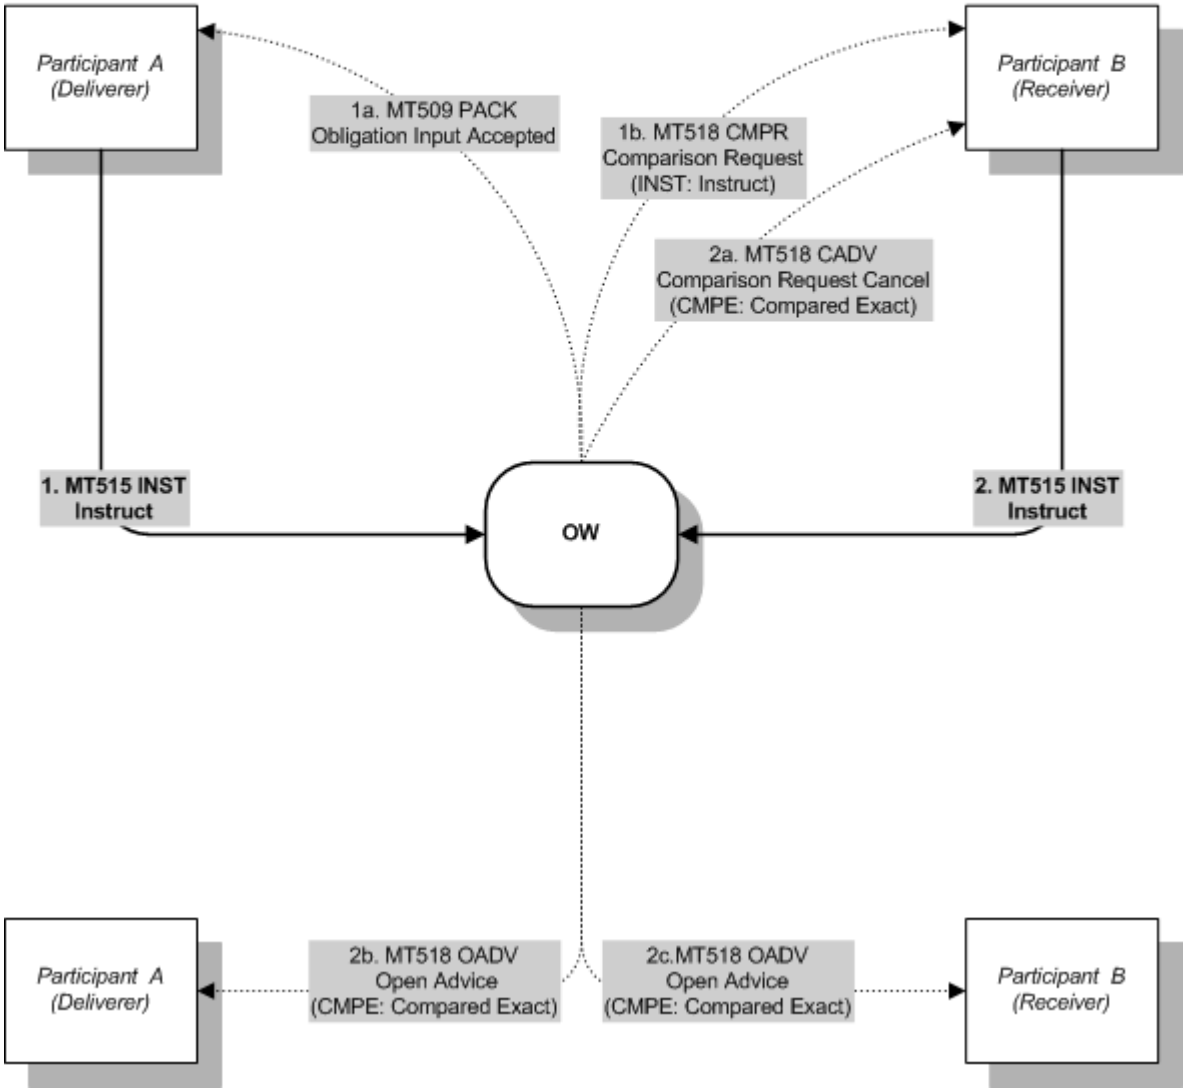

Figure 33: MTCH-1 Obligation Compared Exact

Title: MTCH-2
Description: Obligation Compared with Modification -
(modification applied to Receiver's obligation)

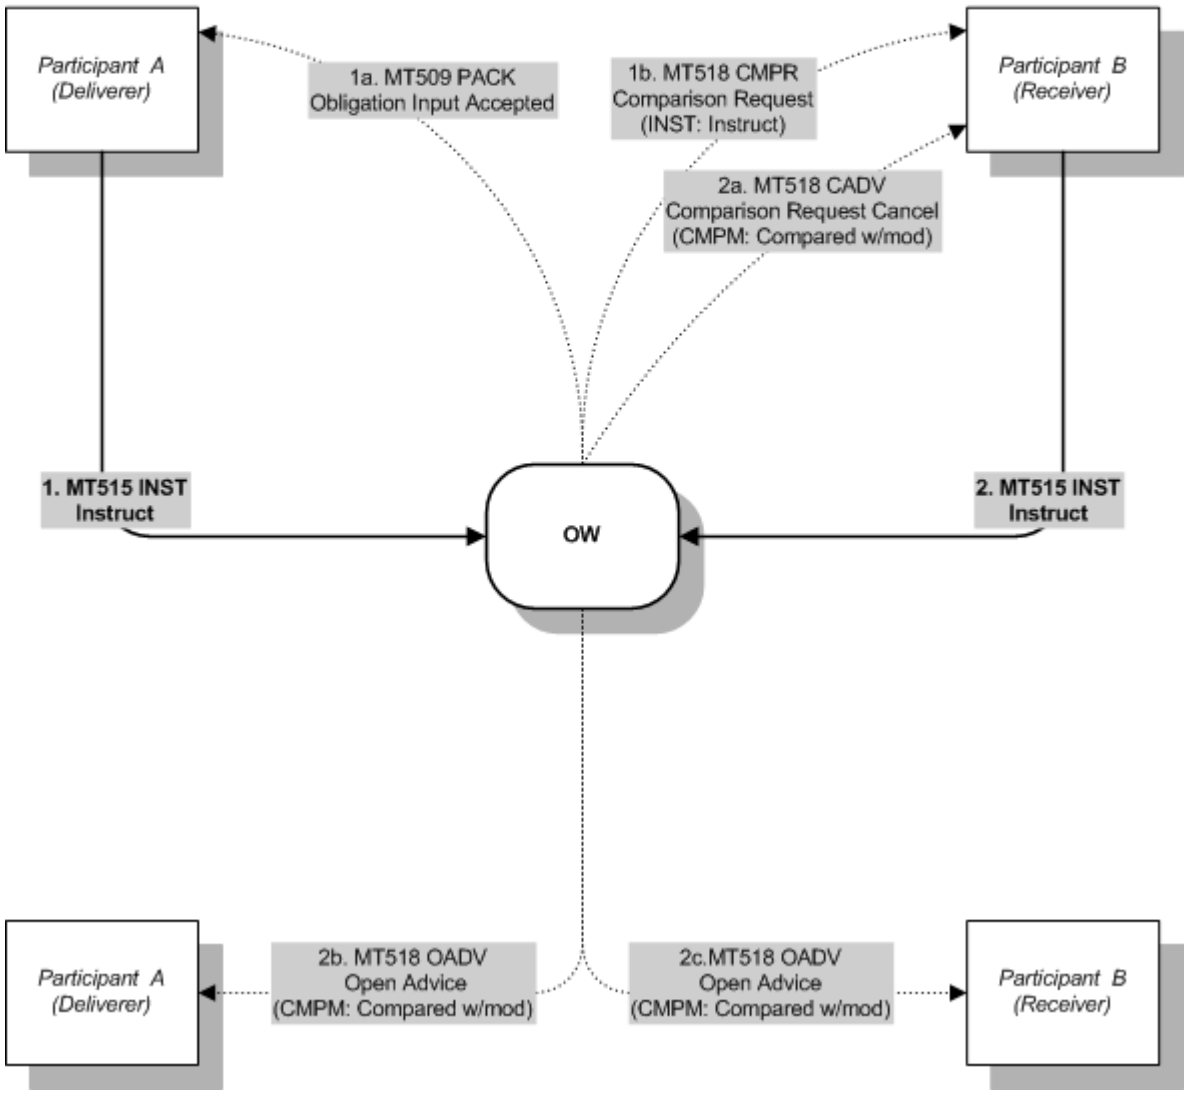

Figure 34: MTCH-2 Obligation Compared with Modification

Title: OPEN-1
Description: Open Obligation added to OW - by ACATS

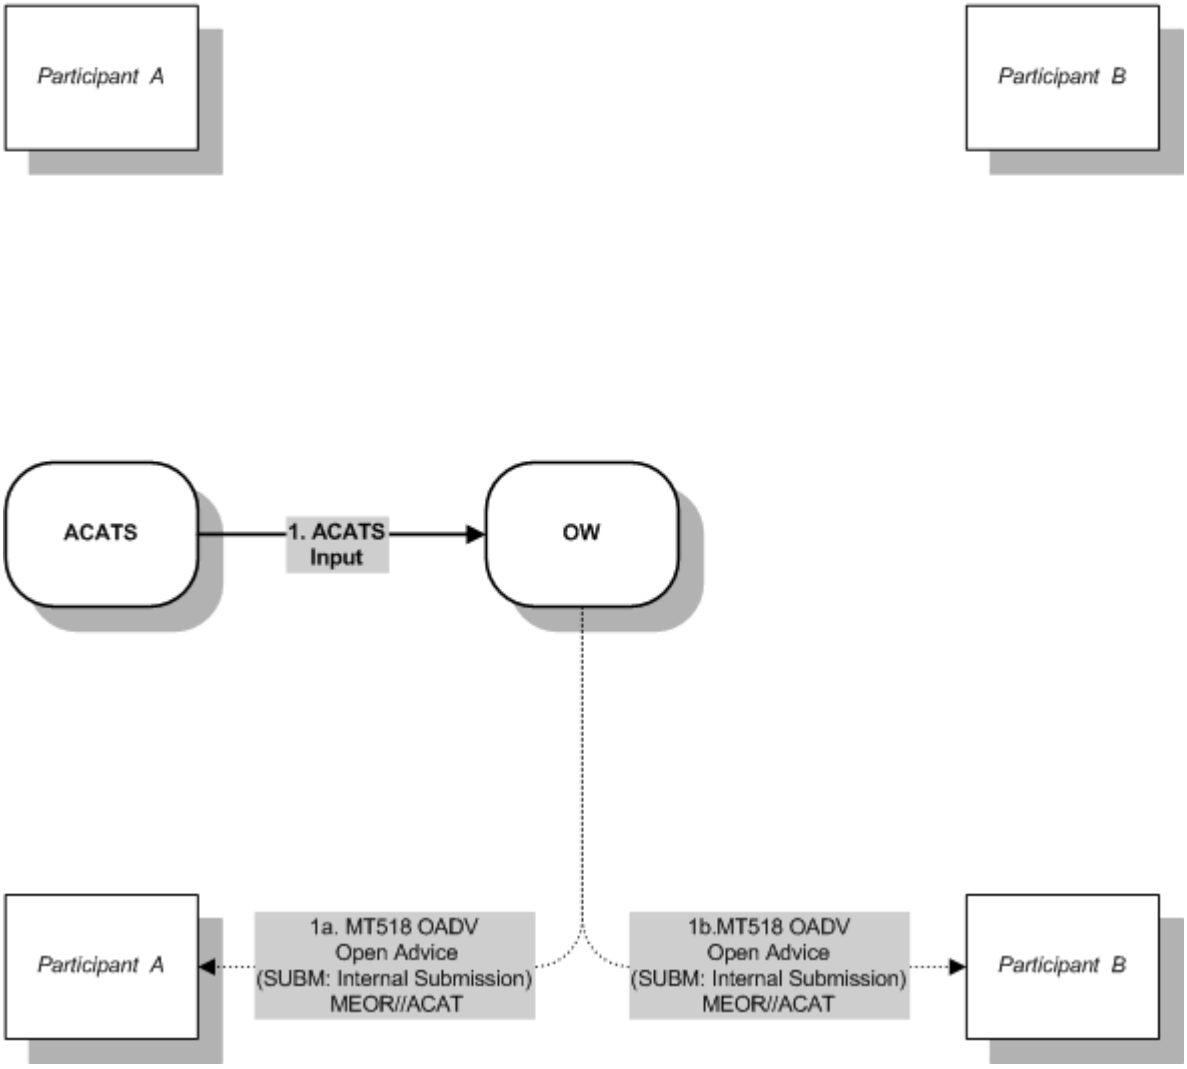

Figure 35: OPEN-1 Open Obligation added to OW - by ACATS

Title: OPEN-2
Description: Open Obligation added to OW - by CNS

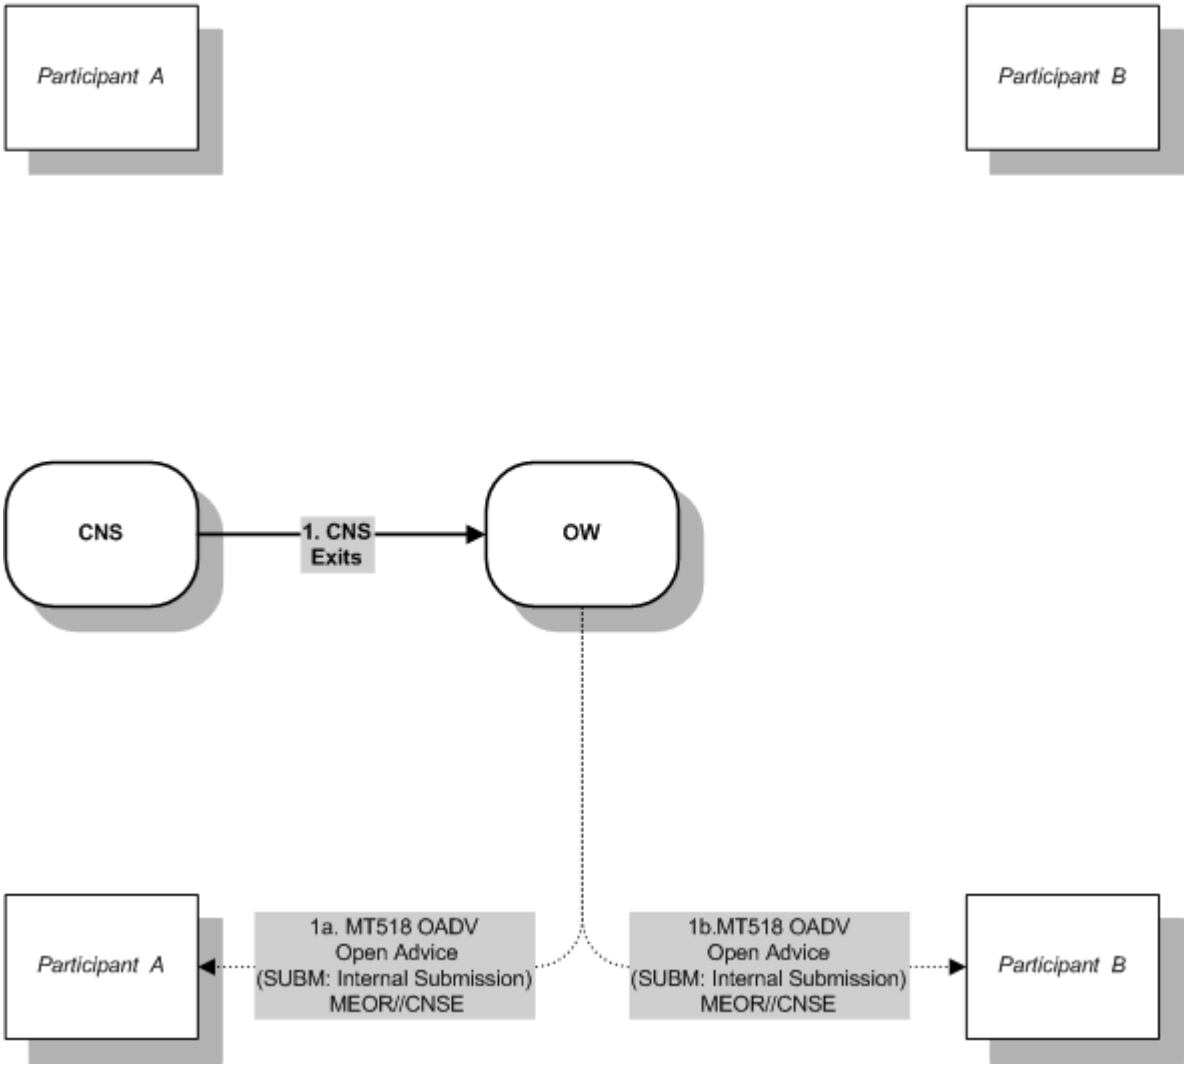

Figure 36: OPEN-2 Open Obligation added to OW - by CNS

Title: OPEN-3
Description: Open Obligation added to OW - by NSCC Balance Order

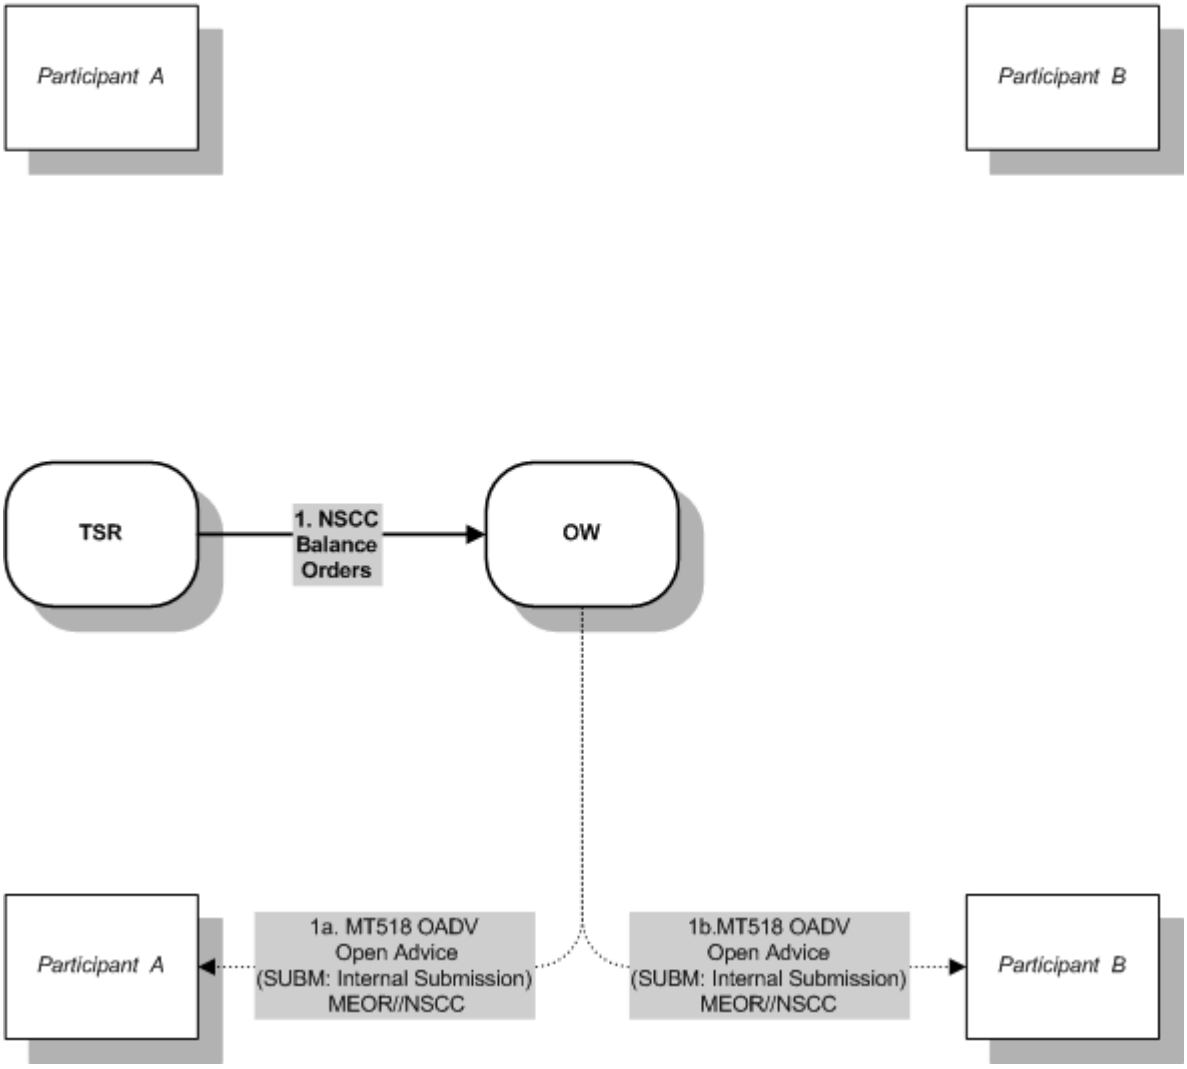

Figure 37: OPEN-3 Open Obligation added to OW - by NSCC Balance Order

Title: OPEN-4
Description: Open Obligation added to OW - by Reorg

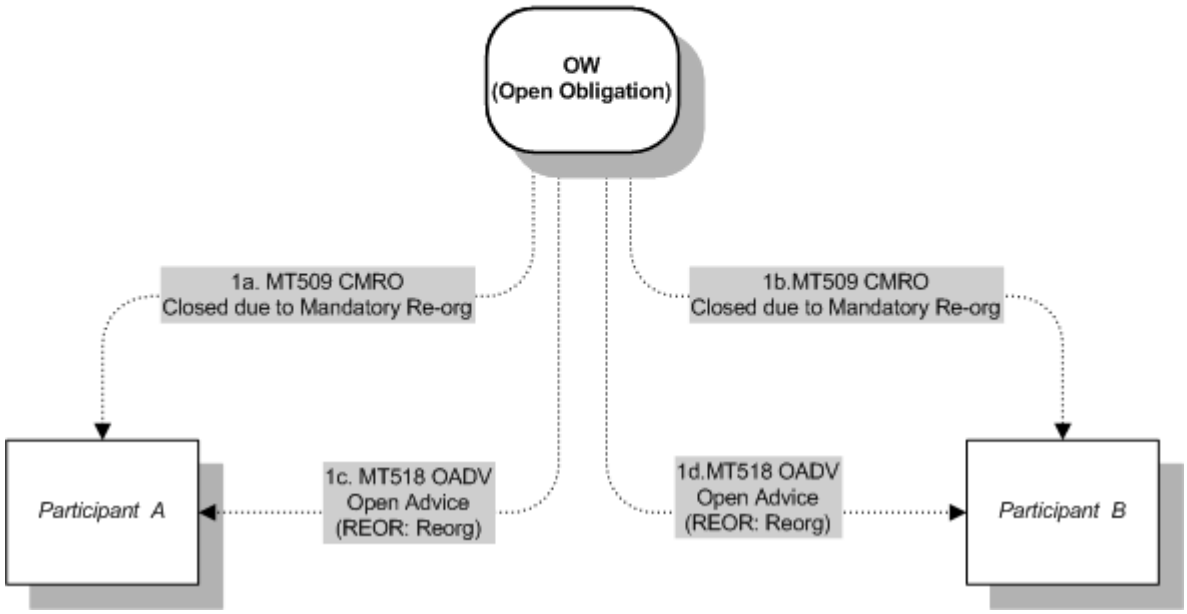

Figure 38: OPEN-4 Open Obligation added to OW - by Reorg

Title: OPEN-5
Description: Open Obligation added to OW - by RECAP

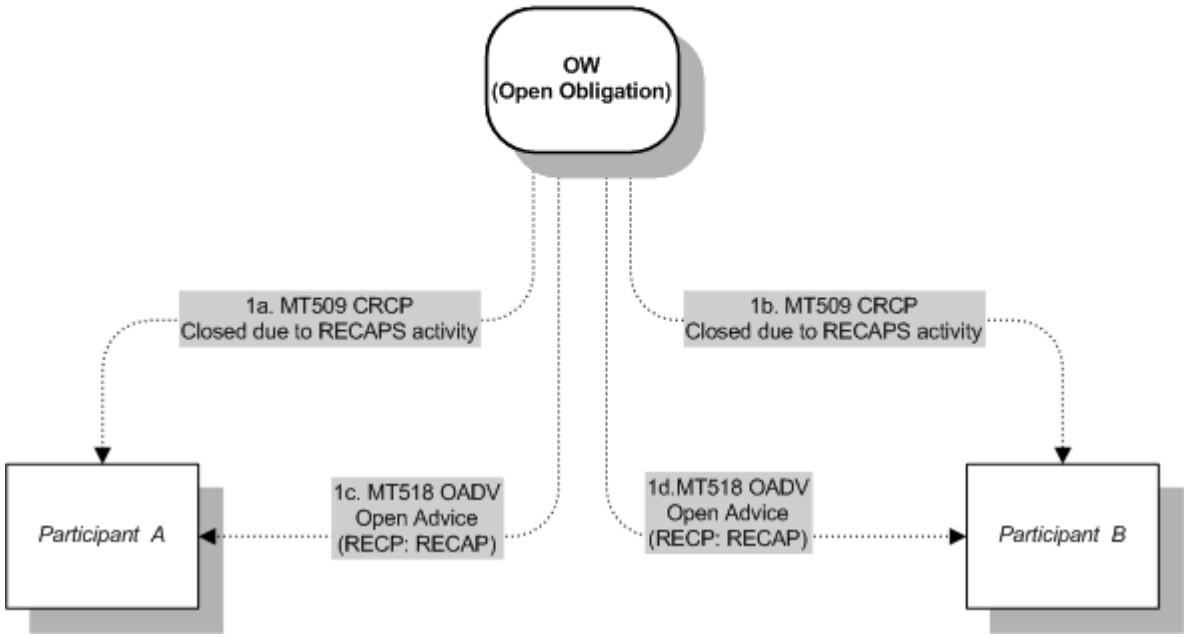

Figure 39: OPEN-5 Open Obligation added to OW - by RECAP

Title: OPEN-6
Description: Open Obligation added to OW - by Participant Swing activity

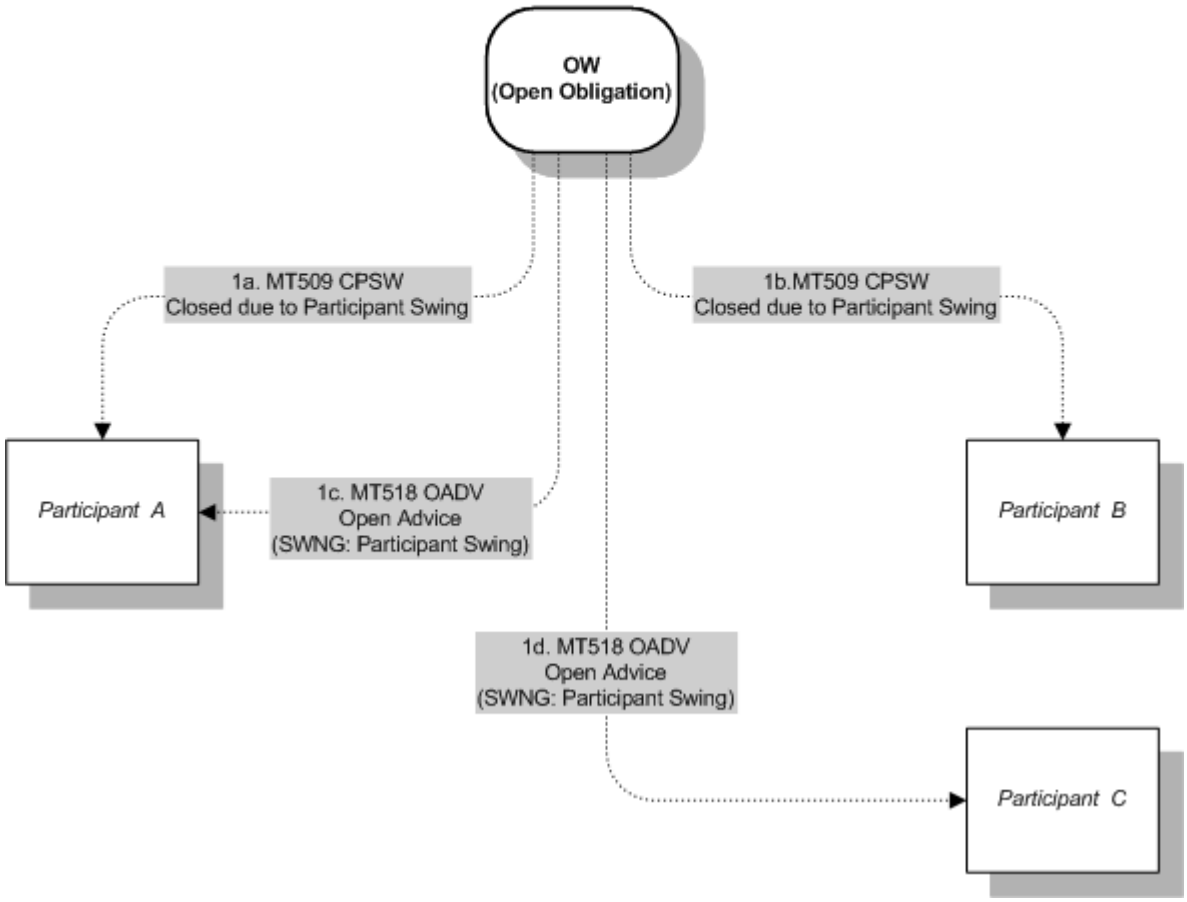

Figure 40: OPEN-6 Open Obligation added to OW - by Participant Swing activity

Title: CLOS-1
Description: Obligation Closed - due to Obligations sent to CNS

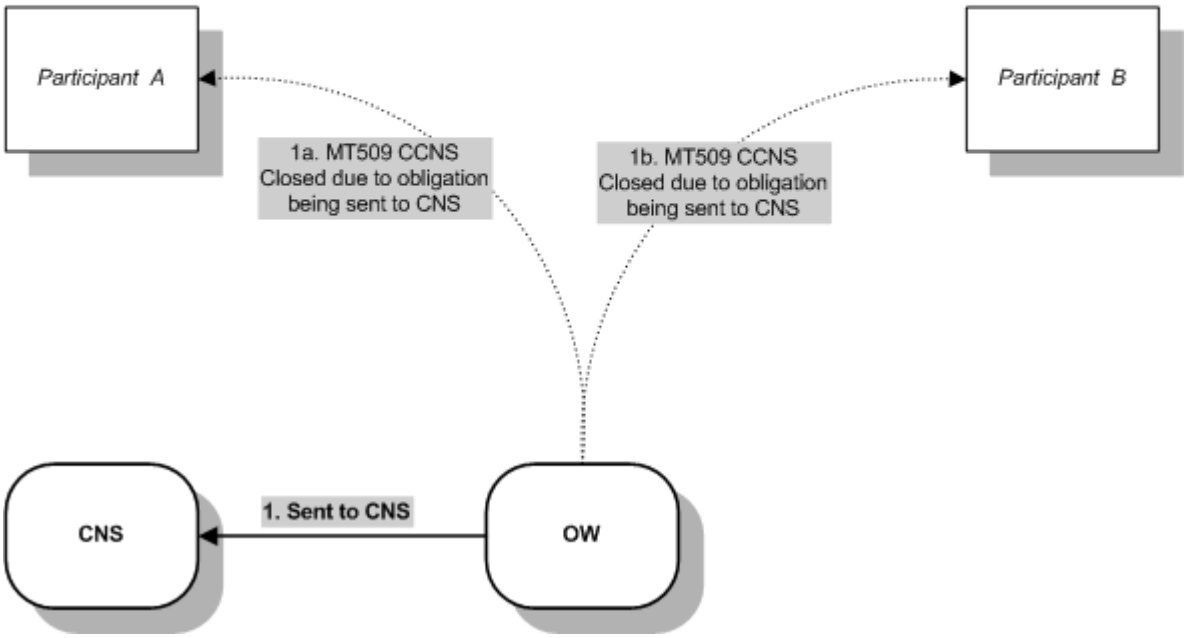

Figure 41: CLOS-1 Obligation Closed - due to Obligations sent to CNS

Title: CLOS-2
Description: Obligation Closed - due to RECAPS activity

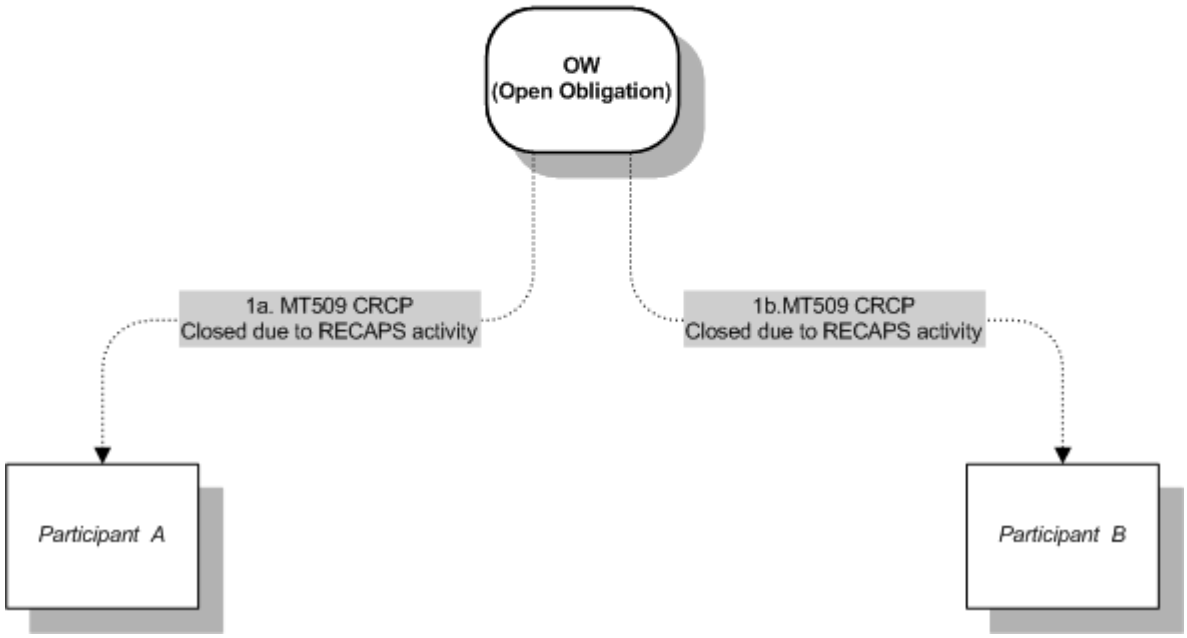

Figure 42: CLOS-2 Obligation Closed - due to RECAPS activity

Title: CLOS-3
Description: Obligation Closed - due to Settlement via IMS

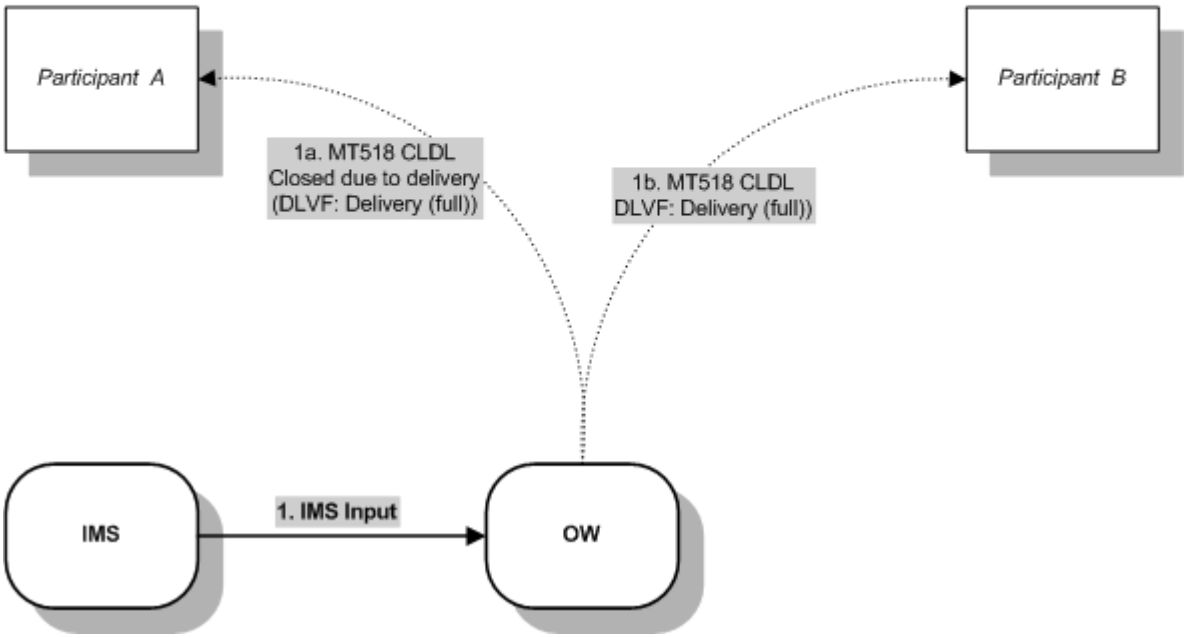

Figure 43: CLOS-3 Obligation Closed - due to Settlement Through IMS

Title: CLOS-4
Description: Obligation Closed - due to Settlement via NY Window

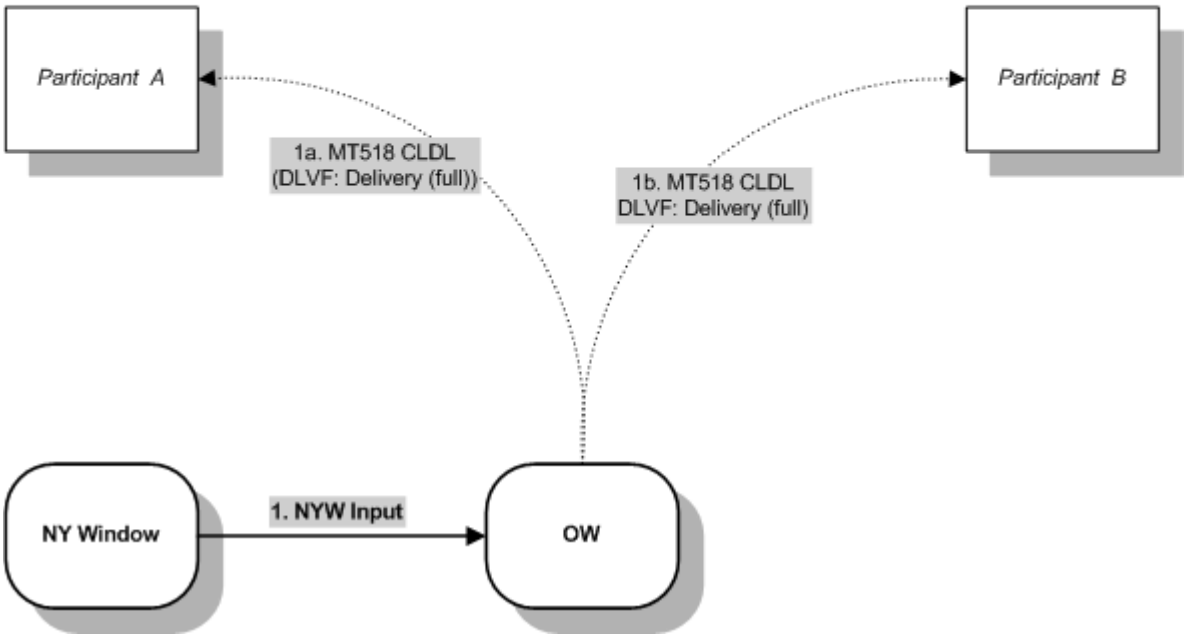

Figure 44: CLOS-4 Obligation Closed - due to Settlement Through NY Window

Title: CLOS-5
Description: Obligation Closed - due to Participant Swing activity

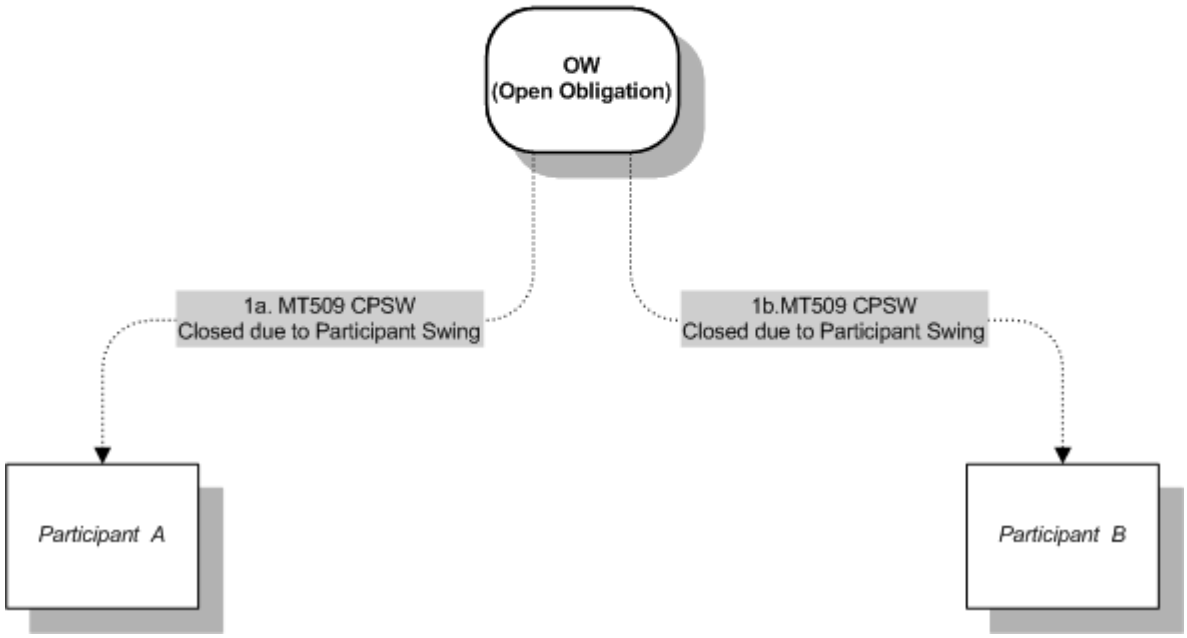

Figure 45: CLOS-5 Obligation Closed - due to Participant Swing Activity

Title: CLOS-6
Description: Obligation Closed - due to Mandatory Reorg activity

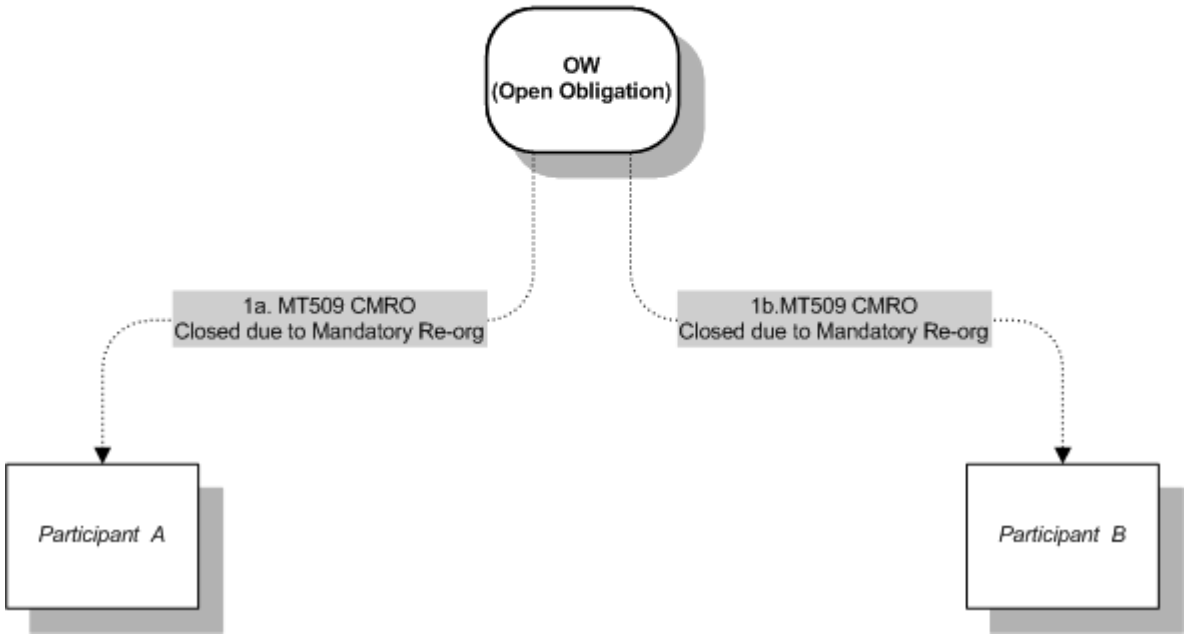

Figure 46: CLOS-6 Obligation Closed – due to Mandatory Reorg activity

Title: CLOS-7
Description: Obligation Closed - due to Admin activity

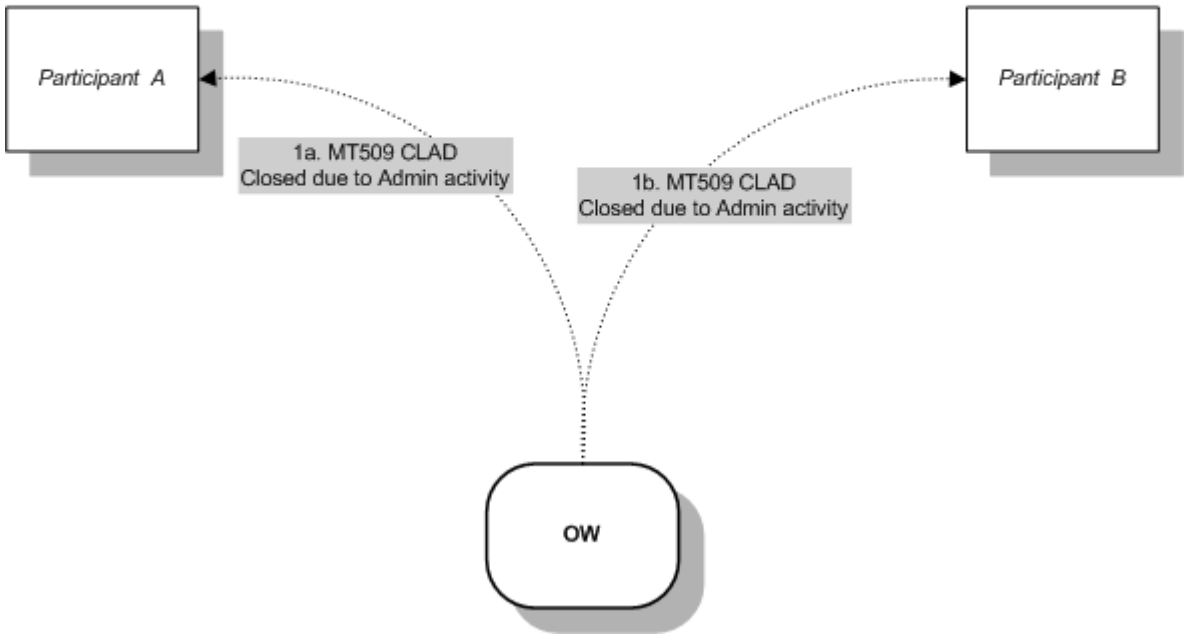

Figure 47: CLOS-7 Obligation Closed - due to Admin activity

Description: Uncompared Prime Broker Obligation DKed, fully delivered via IMS - Obligation Closed

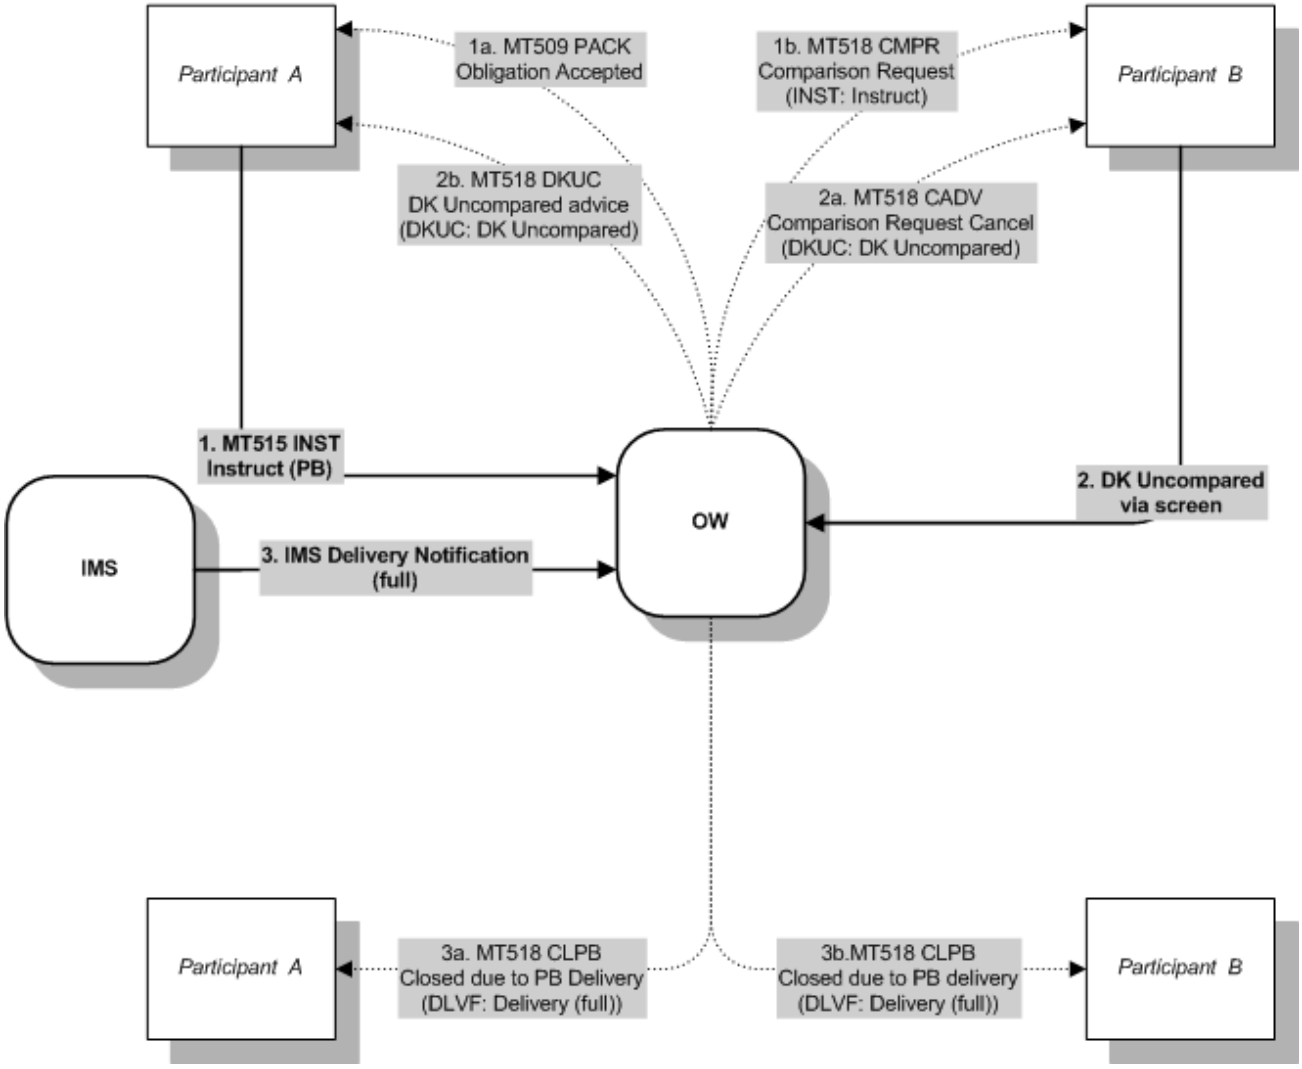

Figure 48: CLOS-8 Uncompared Prime Broker Obligation DKed, fully delivered Through IMS - Obligation closed

Title: CLOS-9
Description: Uncompared Prime Broker Obligation DKed, fully delivered bilaterally - Obligation Closed

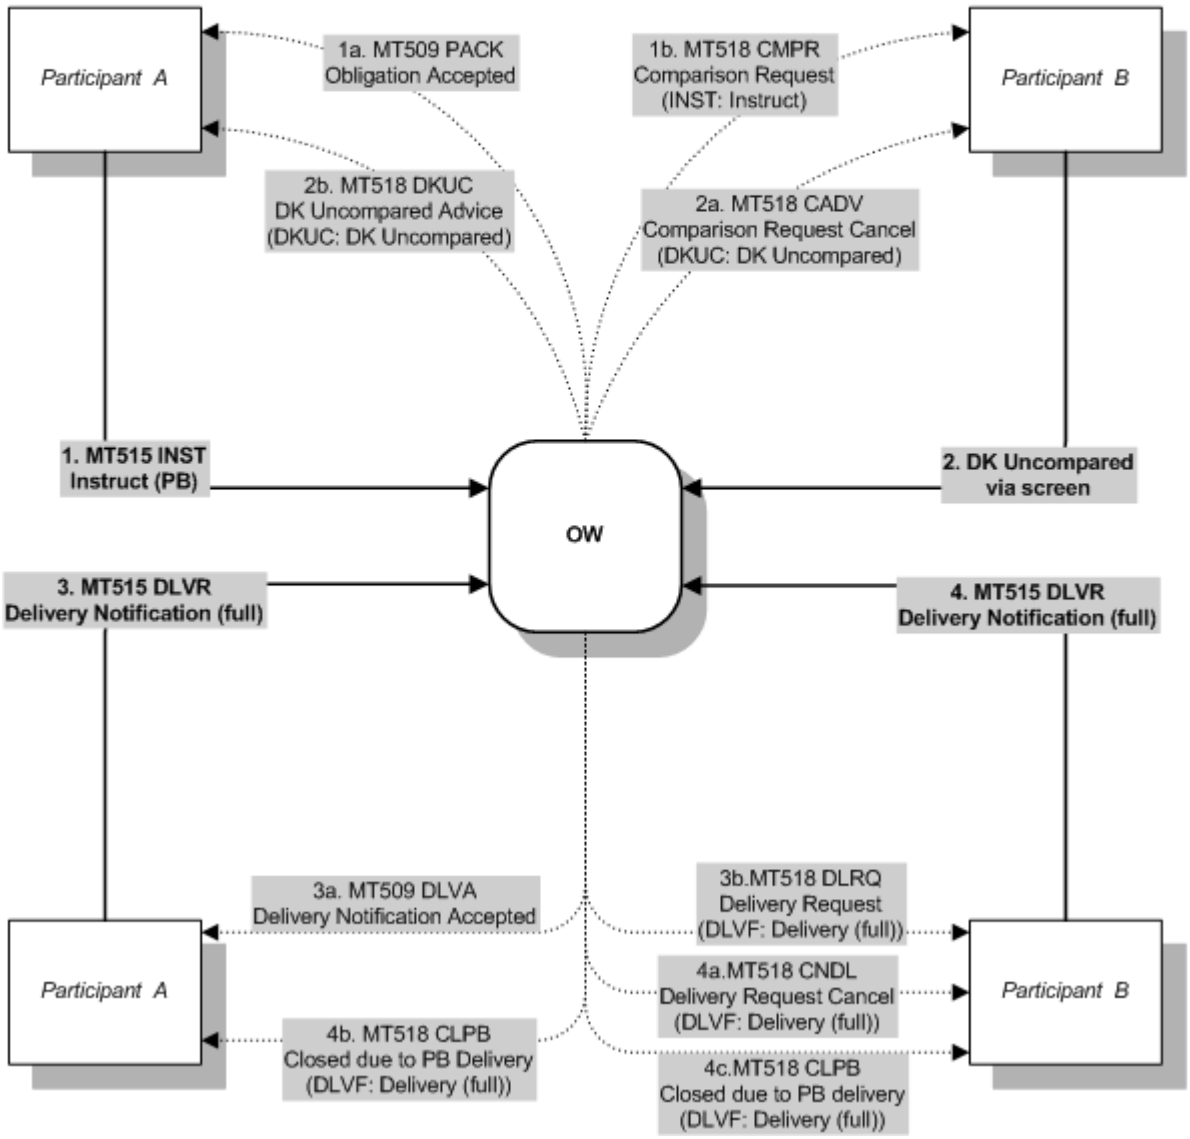

Figure 49: CLOS-9 Uncompared Prime Broker Obligation DKed, fully delivered bilaterally - Obligation Closed

Title: SYRJ-1
Description: Delivery from IMS Rejected by OW

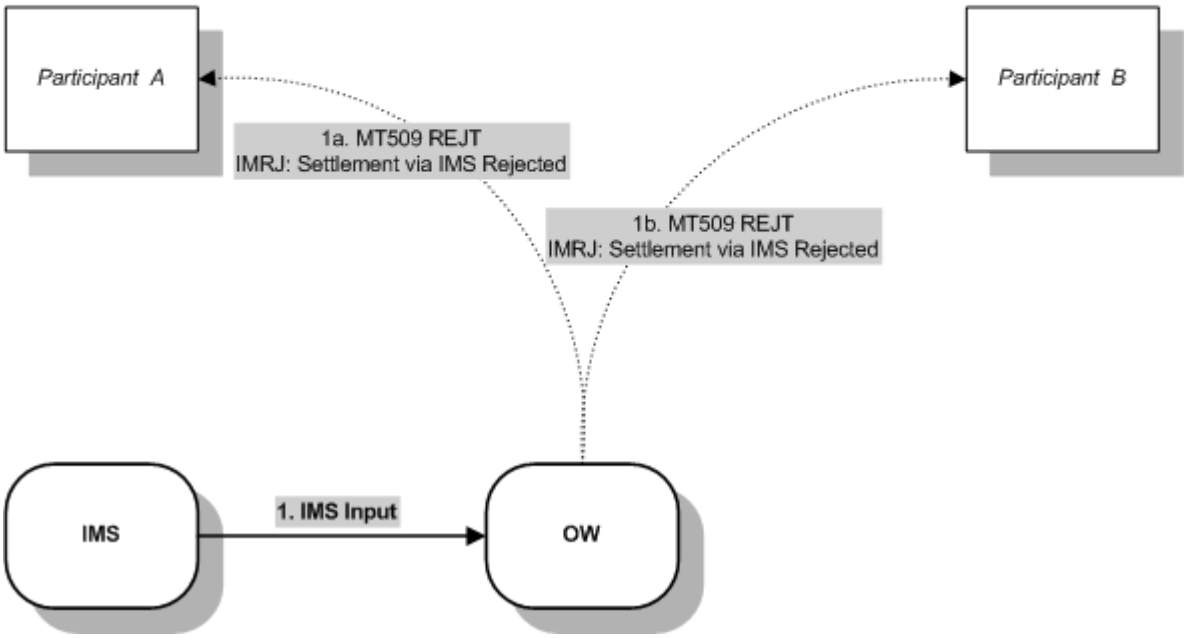

Figure 50: SYRJ-1 Delivery From IMS Rejected by OW

Title: SYRJ-2
Description: Obligation Settlement from NYW Rejected by OW

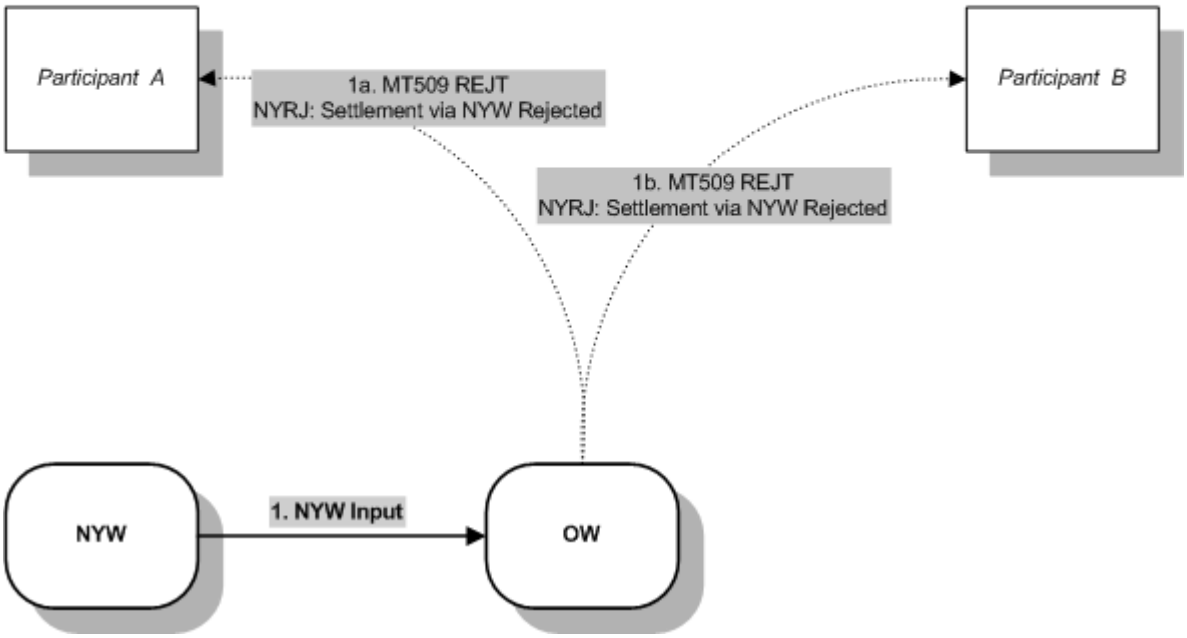

Figure 51: SYRJ-2 Obligation Settlement From NYW Rejected by OW

Title: SIMS-1
Descripton: Obligations sent to IMS (Auto DO Process)

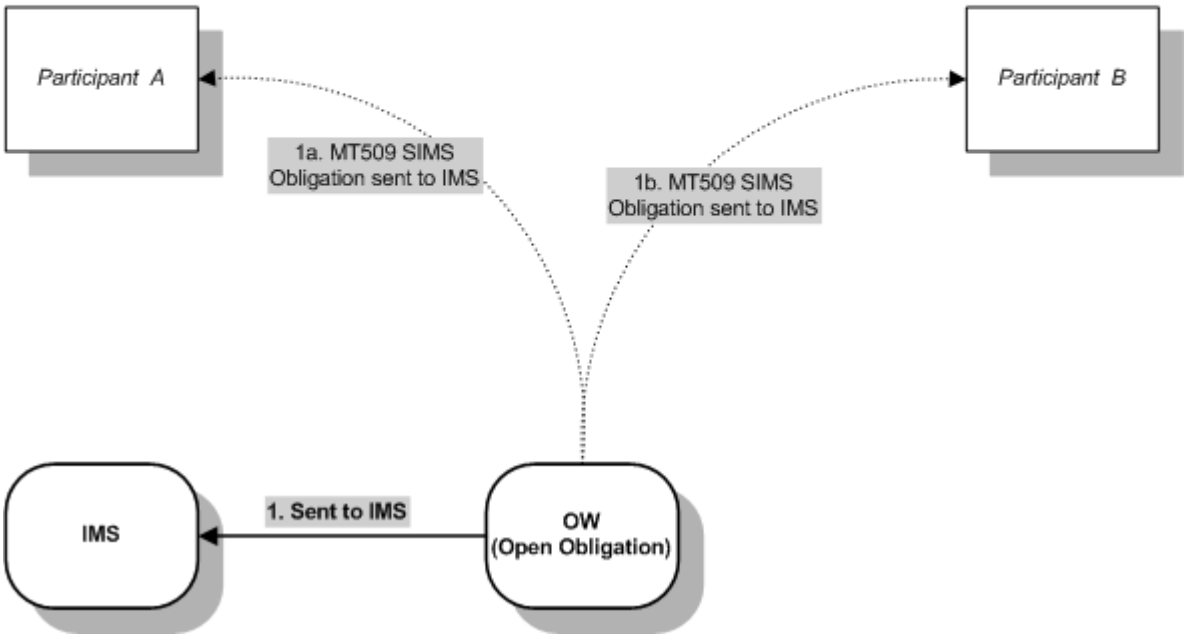

Figure 52: SIMS-1 Obligations sent to IMS (Auto DO Process)

Title: IMSC-1
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in OPEN status.

1. Obligation was sent to IMS (SIMS) by OW, as defined by Auto DO profile of firm
   a & b Both parties notified of obligation sent to IMS for delivery (MT509)
2. OW accepts permanent cancel from IMS and applies
   a & b Both parties notified by OW that SIMS limitation lifted by permanent cancel in IMS (MT518)

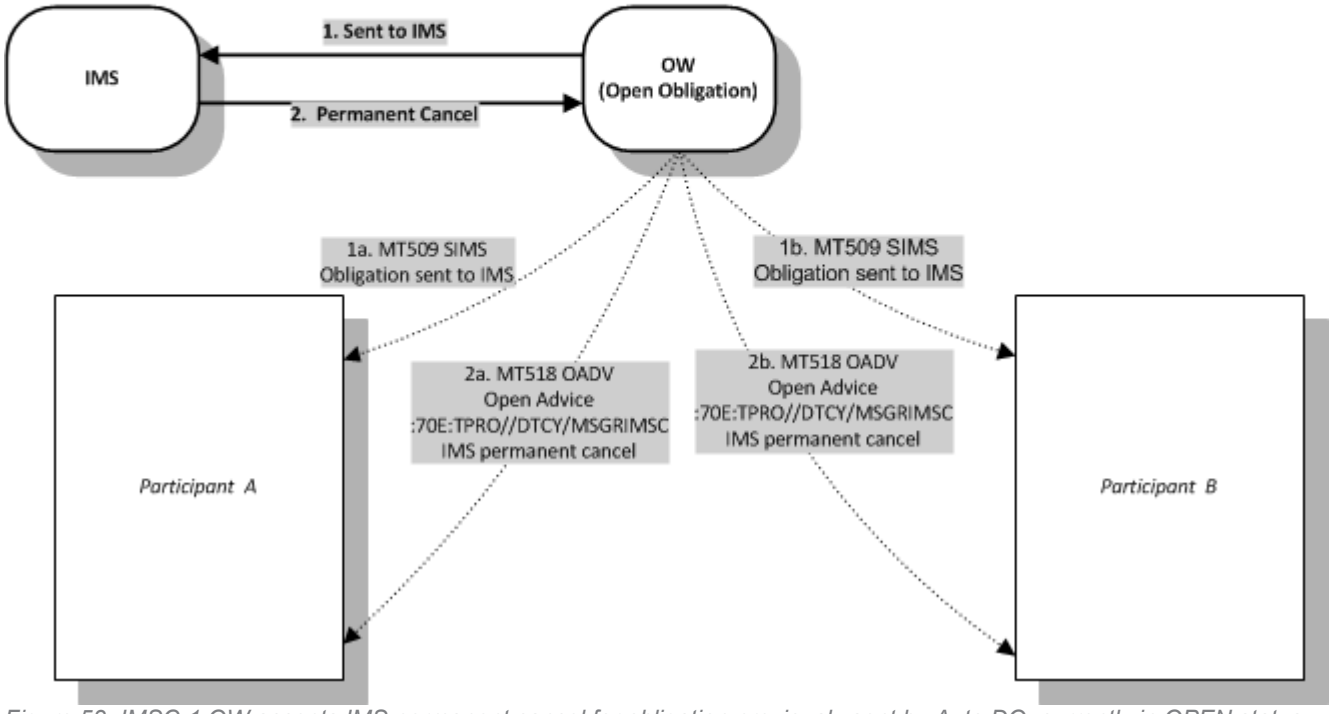

Figure 53: IMSC-1 OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in OPEN status.

Title: IMSC-2
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO , currently in Pending Cancel status.

1. Part A requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent cancel from IMS and lifts PCAN
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent cancel from IMS (MT518)
    b. Contra receives a cancel of cancel request ,moving obligation to Open status (MT518)

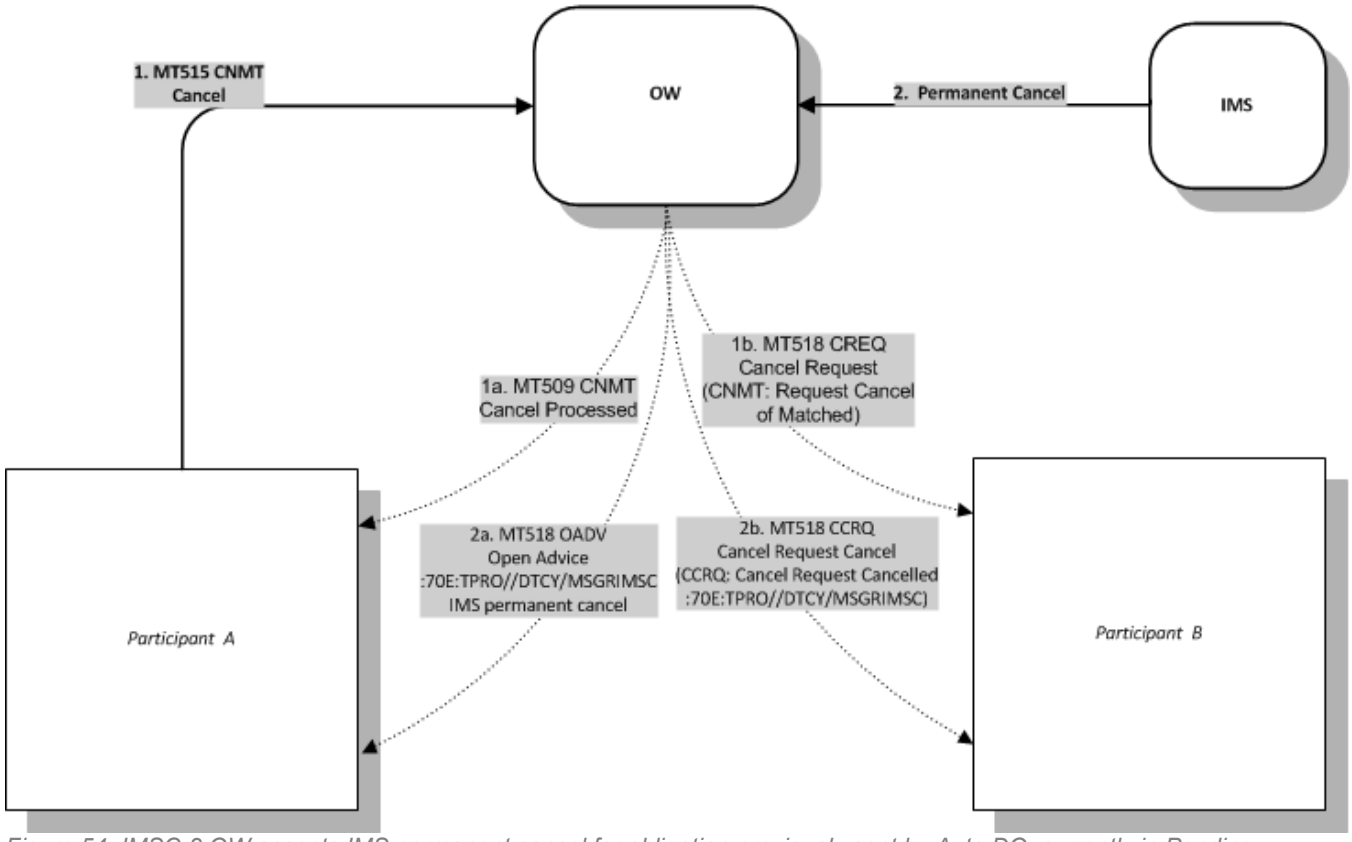

Figure 54: IMSC-2 OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in Pending Cancel status.

Title: IMSC-3
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in Pending Delivery status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent cancel from IMS and lifts OPPA status
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent cancel from IMS (MT518)
    b. Contra receives a cancel of delivery request ,moving obligation to Open status (MT518)

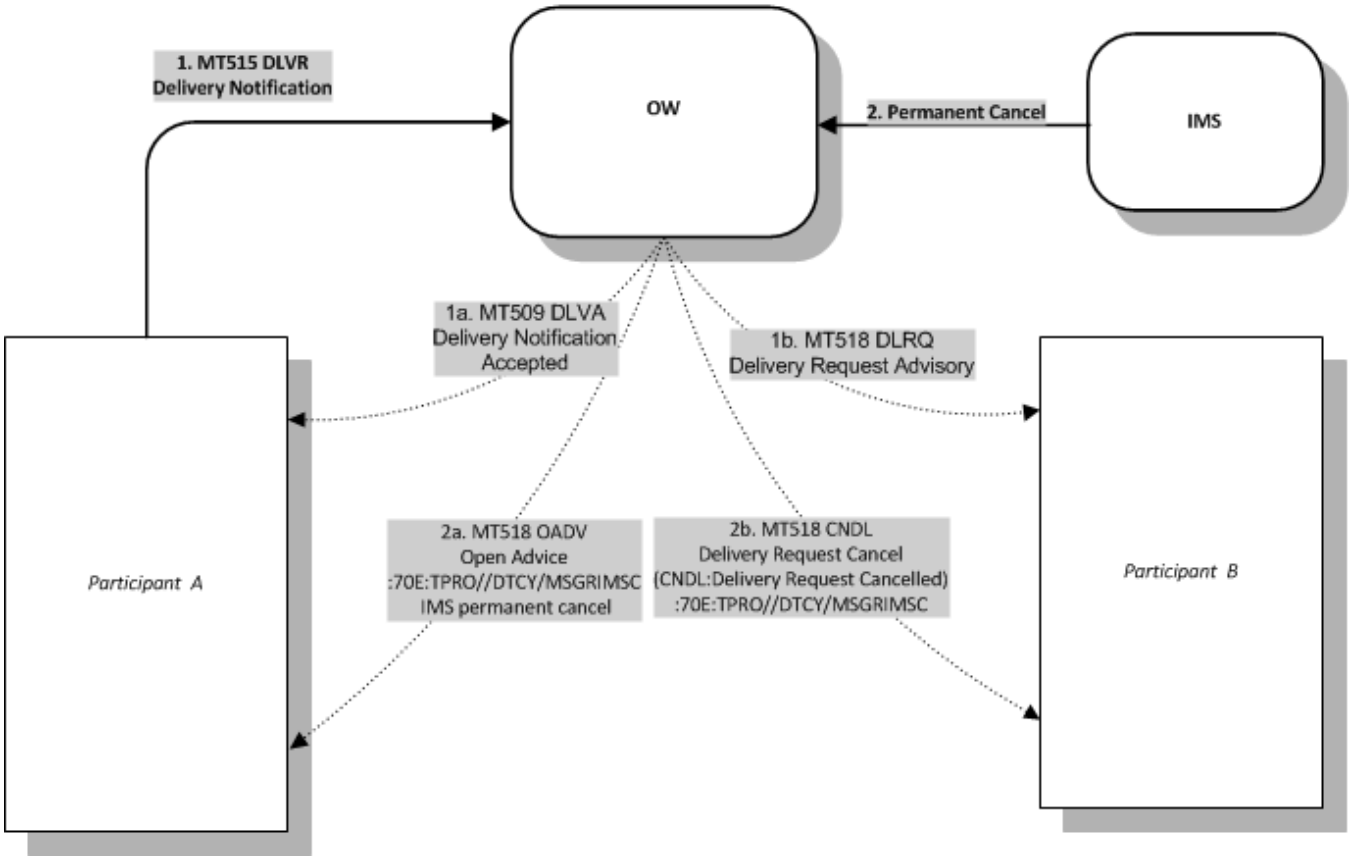

Figure 55: IMSC-3 OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in Pending Delivery status.

Title: IMSC-4
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part B requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent cancel from IMS and lifts PCPA
    a. Submitter of Delivery Request notified of Cancel request cancel, when OW accepts permanent cancel from IMS (MT518)
    b. Submitter of Cancel notified of cancel of the delivery request (MT518)
    c & d Both parties informed of Open Advice (MT518)

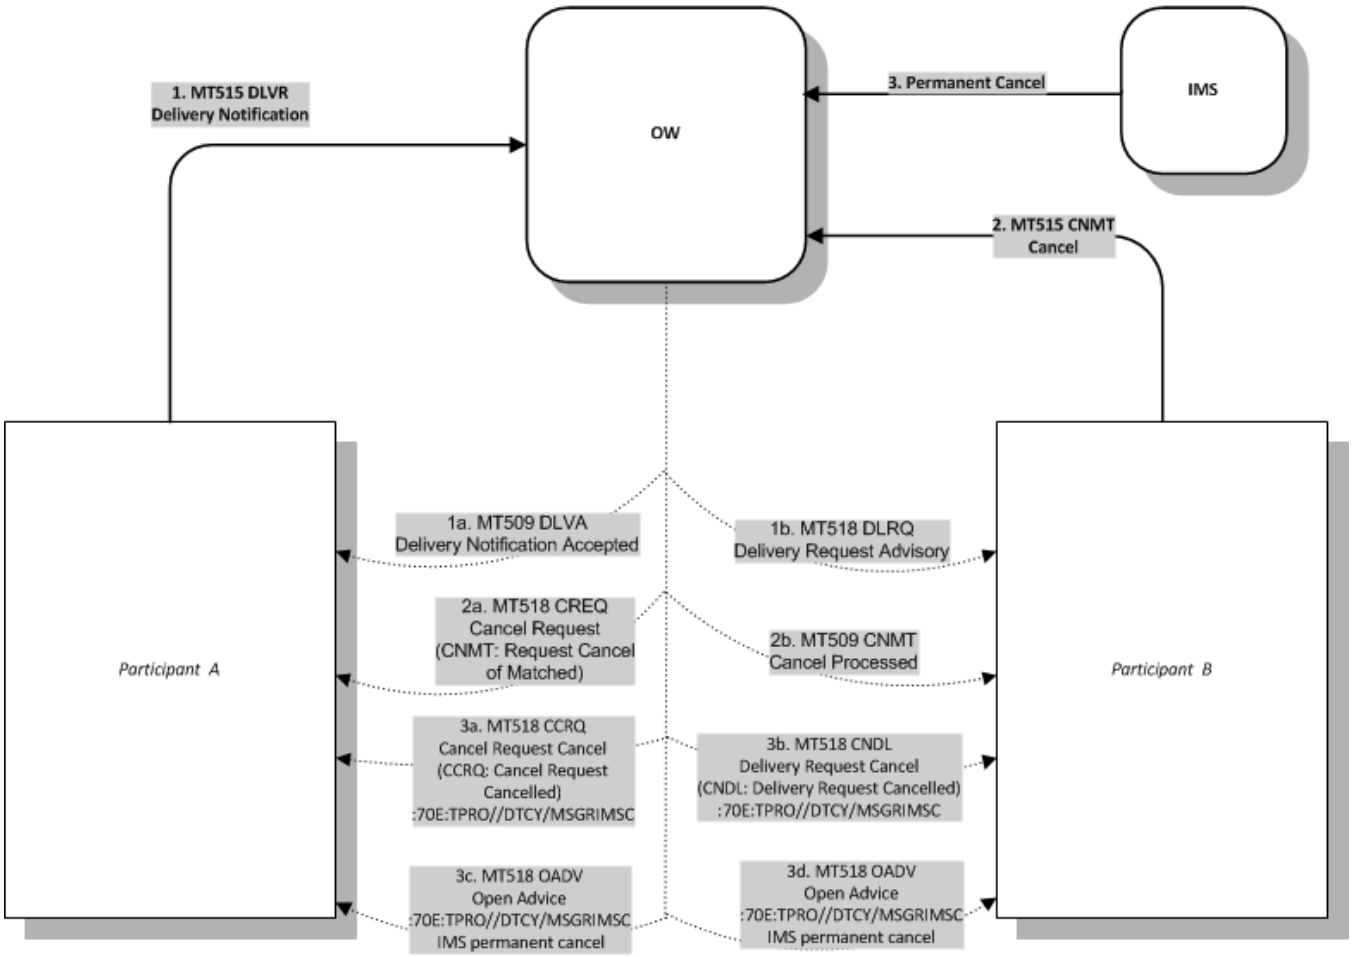

Figure 56: IMSC-4 OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in Pending Cancel, Pending Delivery Acceptance status.

Title: IMSC-5
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part A requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent cancel from IMS and lifts PCPA
    a. Contra notified of Cancel request cancel, when OW accepts permanent cancel from IMS (MT518)
    b. Contra notified of cancel of the delivery request (MT518)
    c. Submitter of Delivery Request & Cancel Request receives Open Advice (MT518)

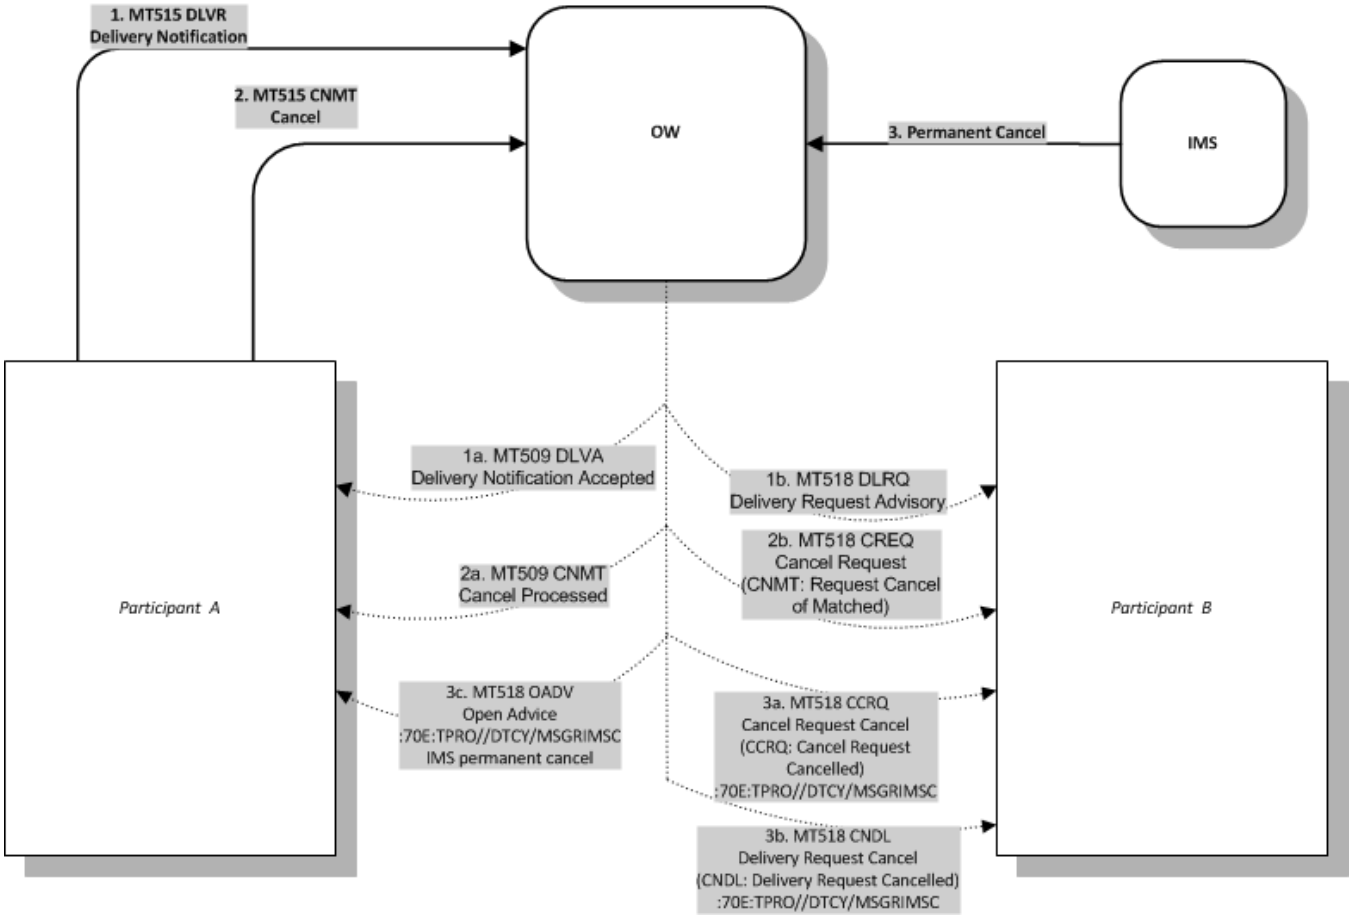

Figure 57: IMSC-5 OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Cancel, Pending Delivery Acceptance status.

Title: IMSD-1
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in OPEN status.

1. Obligation was sent to IMS (SIMS) by OW, as defined by Auto DO profile of firm
   a & b Both parties notified of obligation sent to IMS for delivery (MT509)
2. OW accepts permanent drop from IMS and applies
   a & b Both parties notified by OW that SIMS limitation lifted by permanent drop in IMS (MT518)

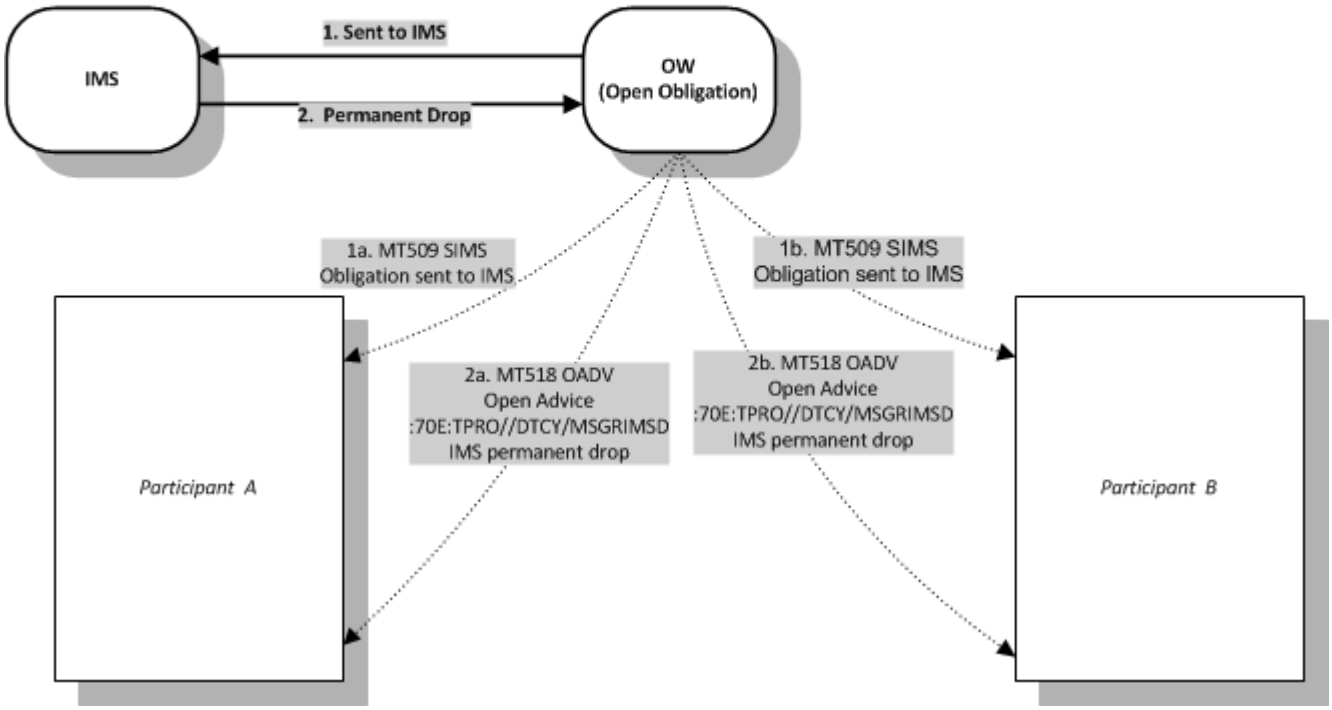

Figure 58: IMSD-1 OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in OPEN status.

Title: IMSD-2
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO , currently in Pending Cancel status.

1. Part A requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent drop from IMS and lifts PCAN
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent drop from IMS (MT518)
    b. Contra receives a cancel of cancel request , moving obligation to Open status (MT518)

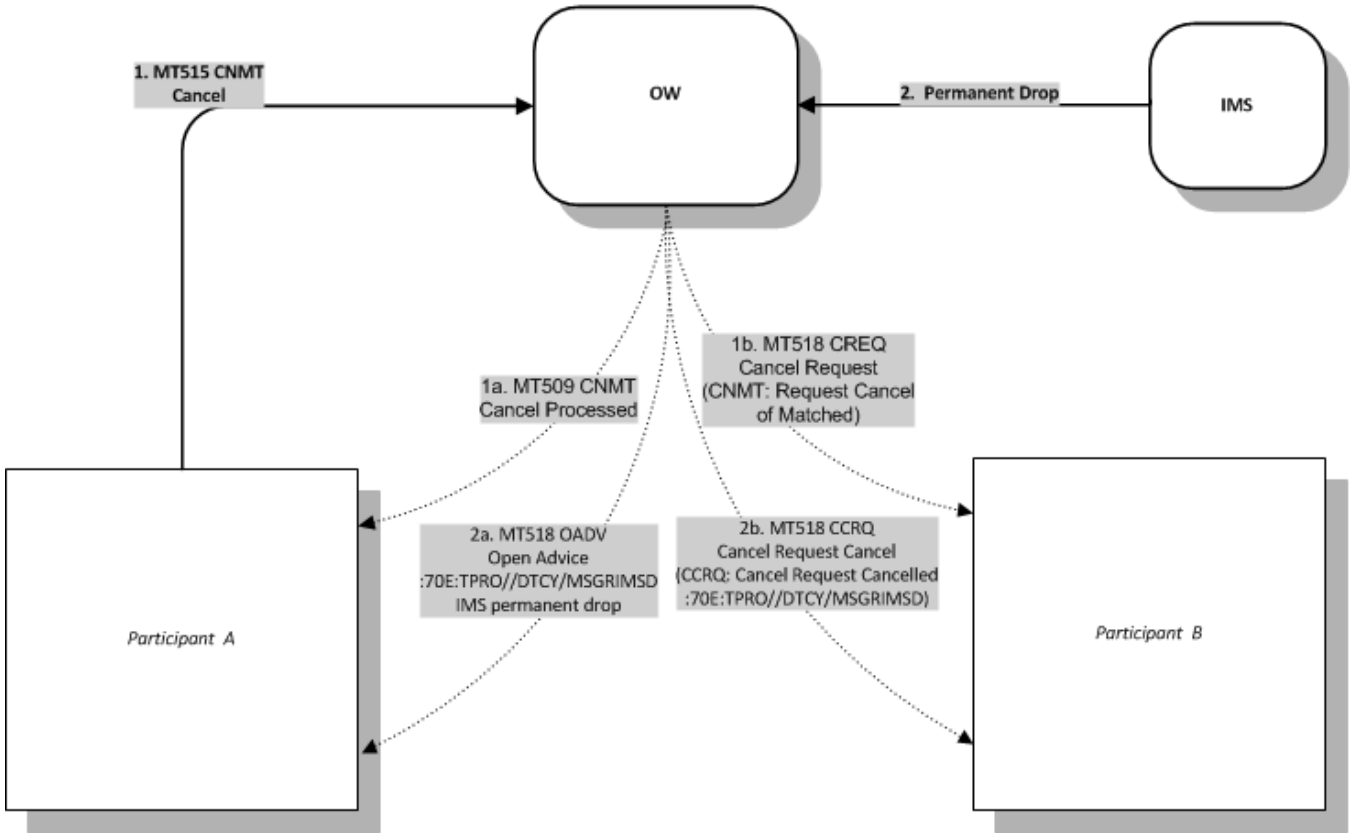

Figure 59: IMSD-2 OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Cancel status.

Title: IMSD-3
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Delivery status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent drop from IMS and lifts OPPA status
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent drop from IMS (MT518)
    b. Contra receives a cancel of delivery request , moving obligation to Open status (MT518)

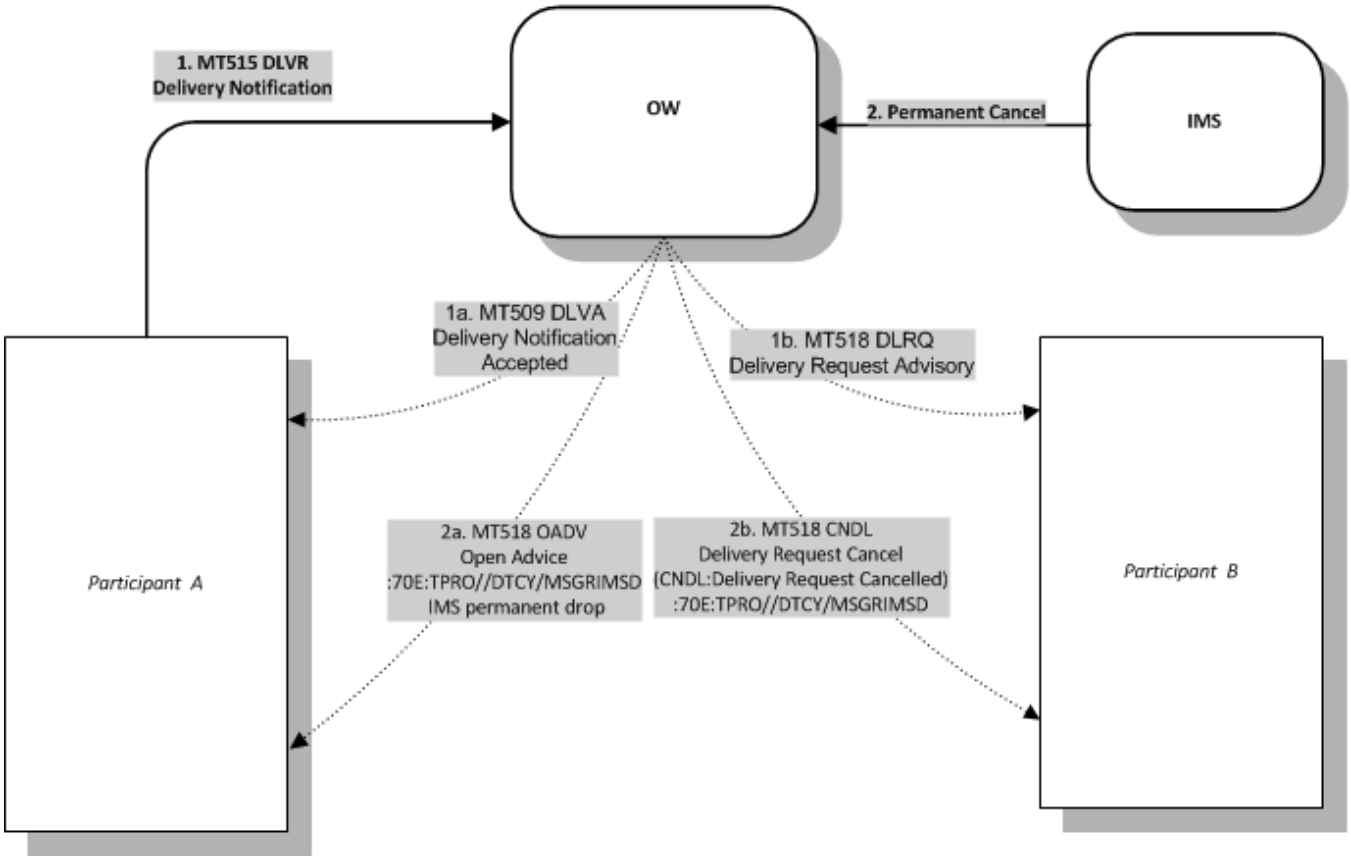

Figure 60: IMSD-3 OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Delivery status.

Title: IMSD-4
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part B requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent drop from IMS and lifts PCPA
    a. Submitter of Delivery Request notified of Cancel request cancel, when OW accepts permanent drop from IMS (MT518)
    b. Submitter of Cancel notified of cancel of the delivery request (MT518)
    c & d Both parties informed of Open Advice (MT518)

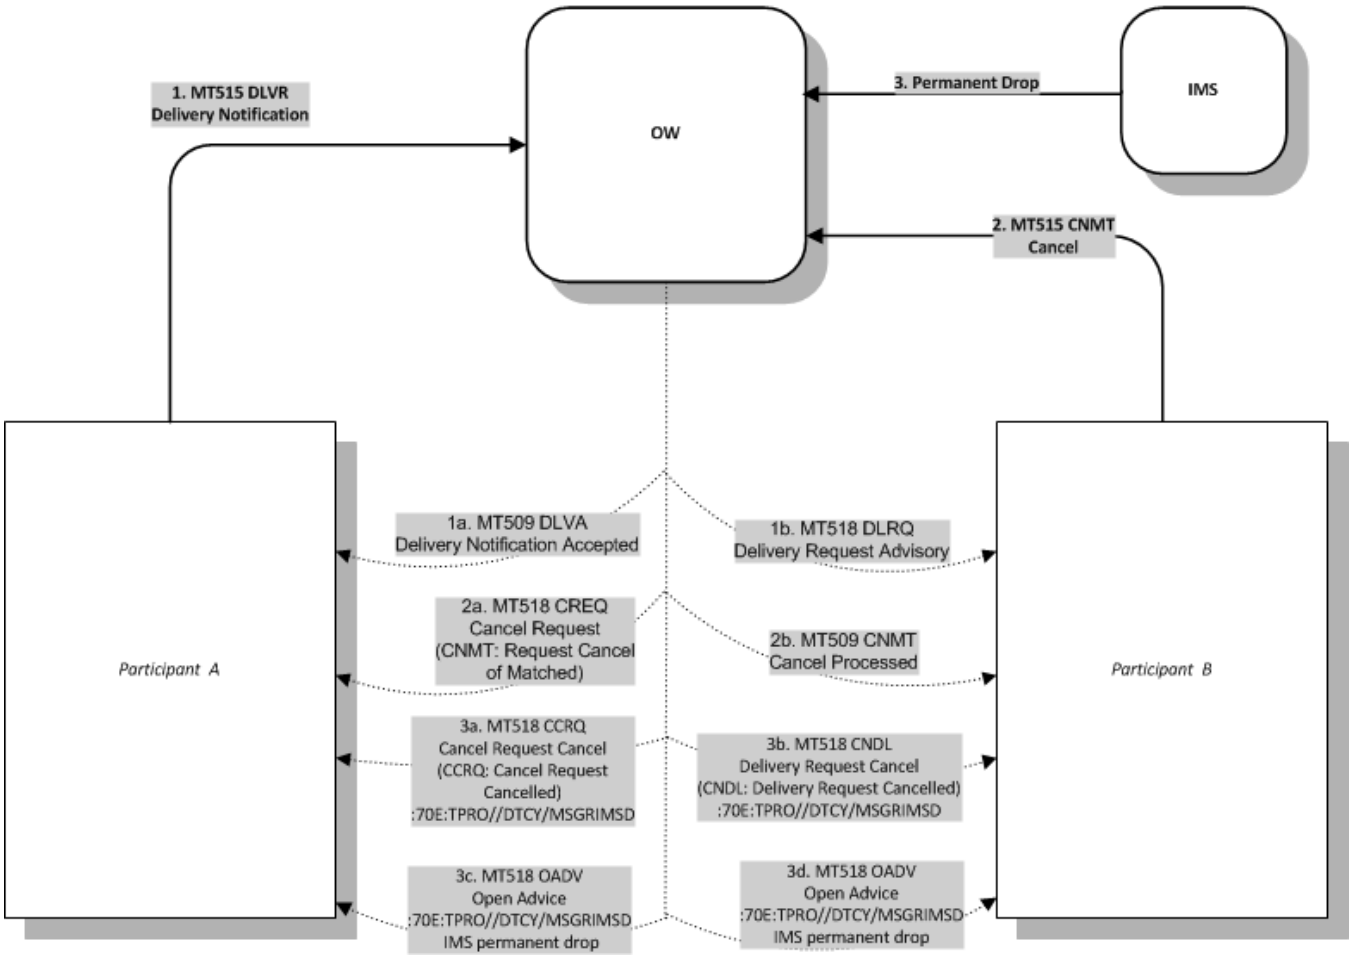

Figure 61: IMSD-4 OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Cancel, Pending Delivery Acceptance status.

Title: IMSD-5
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part A requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent drop from IMS and lifts PCPA
    a. Contra notified of Cancel request cancel, when OW accepts permanent drop from IMS (MT518)
    b. Contra notified of cancel of the delivery request (MT518)
    c. Submitter of Delivery Request & Cancel Request receives Open Advice (MT518)

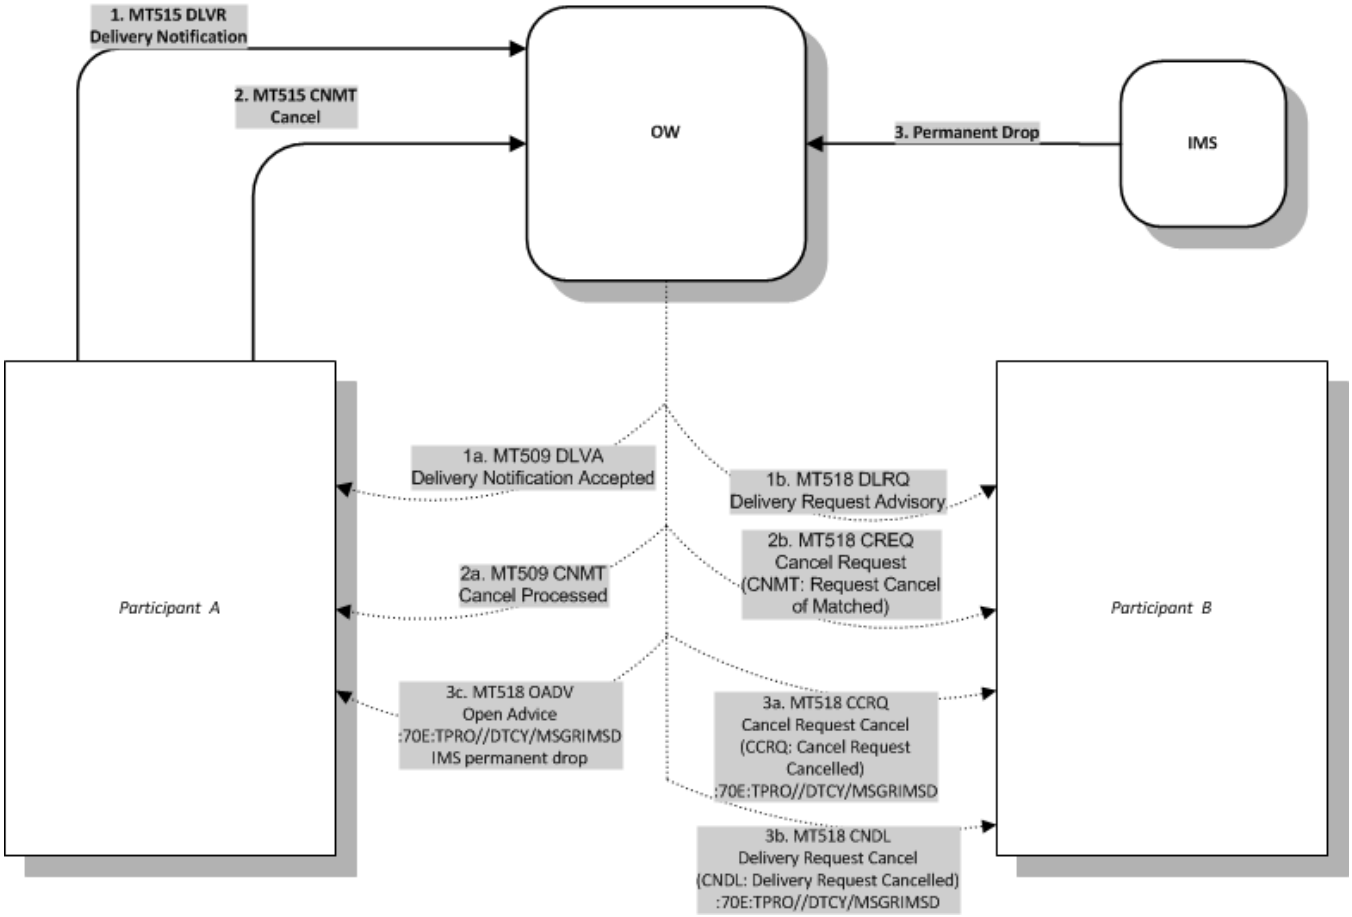

Figure 62: IMSD-5 OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Cancel, Pending Delivery Acceptance status.

Title: IMSR-1
Description: OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in OPEN status.

1. Obligation was sent to IMS (SIMS) by OW, as defined by Auto DO profile of firm
   a & b Both parties notified of obligation sent to IMS for delivery (MT509)
2. OW accepts permanent reject from IMS and applies
   a & b Both parties notified by OW that SIMS limitation lifted by permanent reject in IMS (MT518)

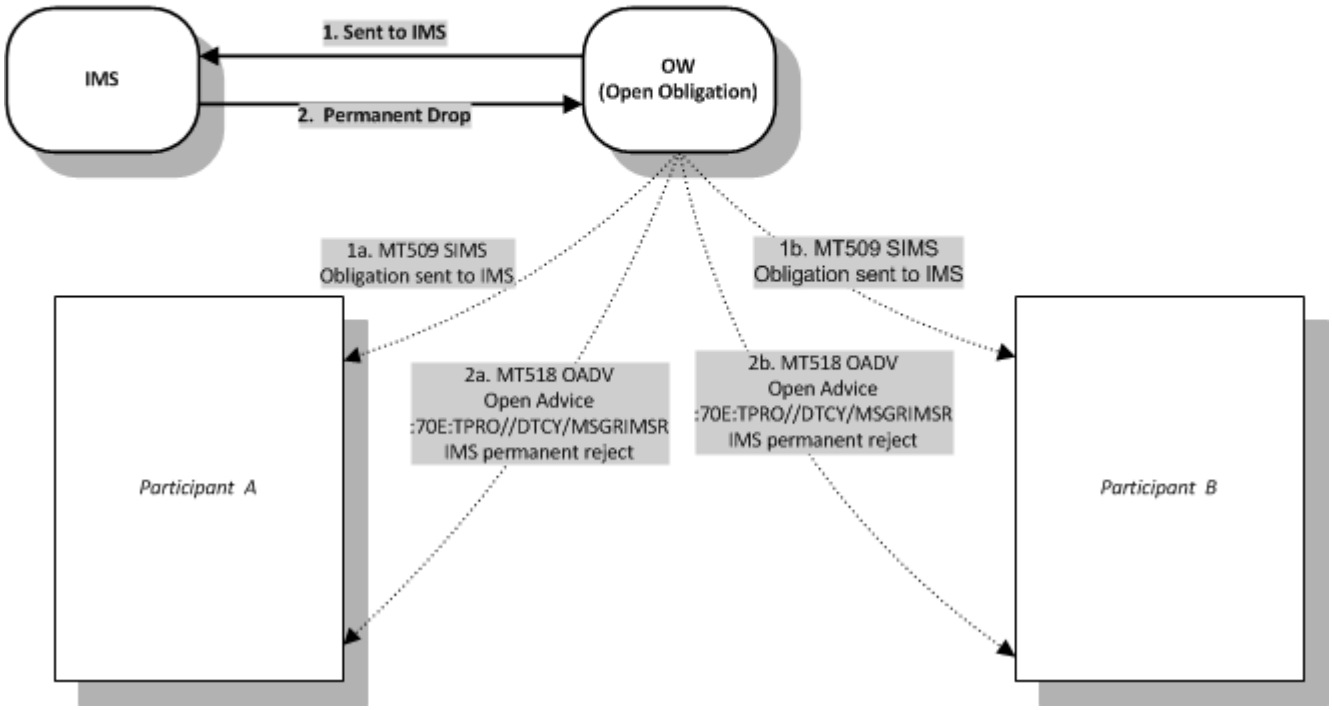

Figure 63: IMSR-1 OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in OPEN status.

Figure 64: IMSR-2 OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in Pending Cancel status.

Title: IMSR-3
Description: OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in Pending Delivery status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent reject from IMS and lifts OPPA status
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent reject from IMS (MT518)
    b. Contra receives a cancel of delivery request , moving obligation to Open status (MT518)

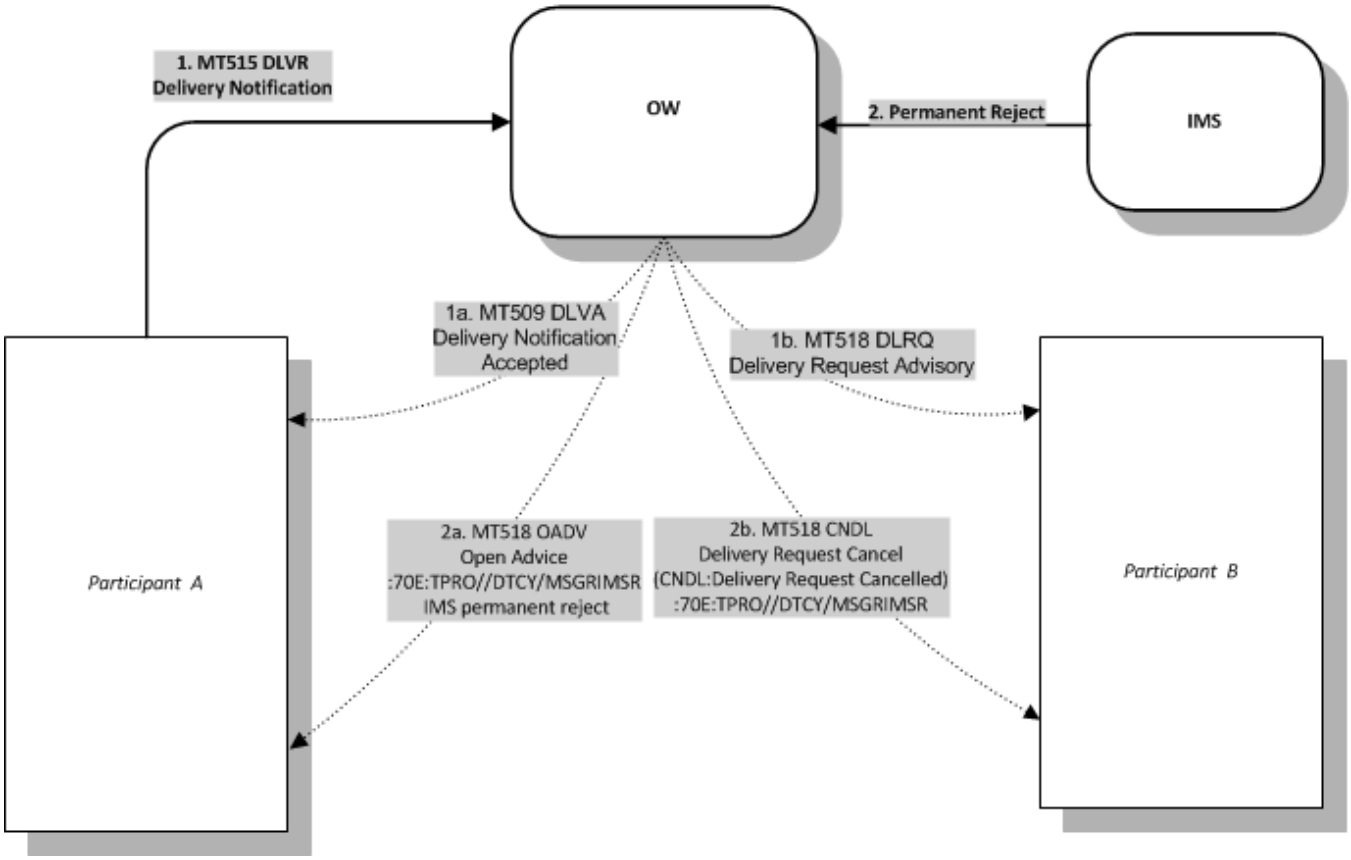

Figure 65: IMSR-3 OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in Pending Delivery status.

Title: IMSR-4
Description: OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part B requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent reject from IMS and lifts PCPA
    a. Submitter of Delivery Request notified of Cancel request cancel, when OW accepts permanent reject from IMS (MT518)
    b. Submitter of Cancel notified of cancel of the delivery request (MT518)
    c & d Both parties informed of Open Advice (MT518)

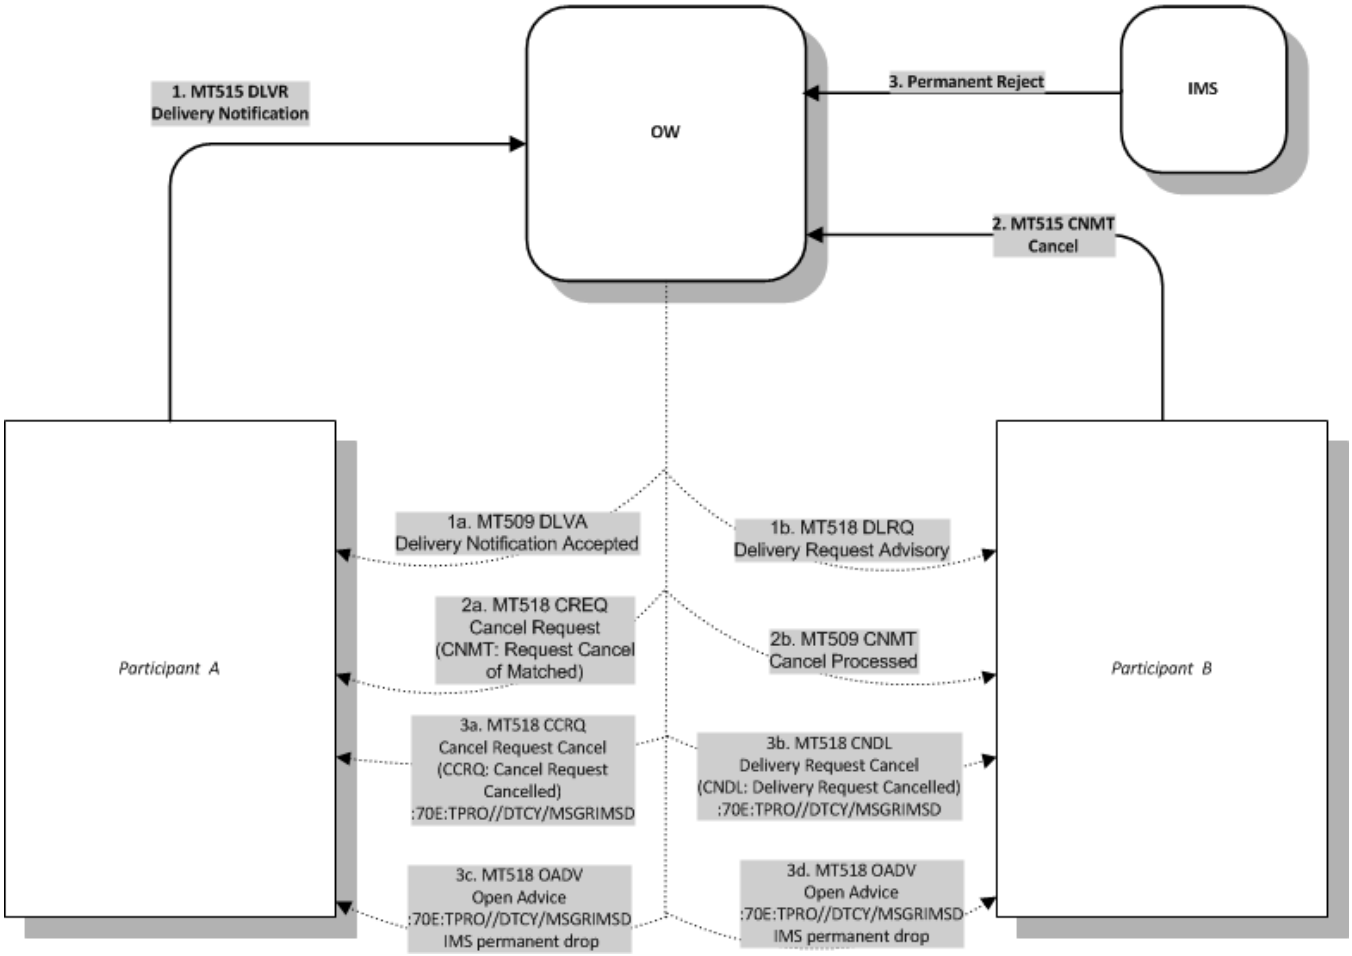

Figure 66: IMSR-4 OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in Pending Cancel, Pending Delivery Acceptance status.

Title: IMSR-5
Description: OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part A requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent reject from IMS and lifts PCPA
    a. Contra notified of Cancel request cancel, when OW accepts permanent reject from IMS (MT518)
    b. Contra notified of cancel of the delivery request (MT518)
    c. Submitter of Delivery Request & Cancel Request receives Open Advice (MT518)

Title: RCLM-1
1. Reclaim Notification (full) via IMS accepted on Compared Closed due to delivery, Open status assigned

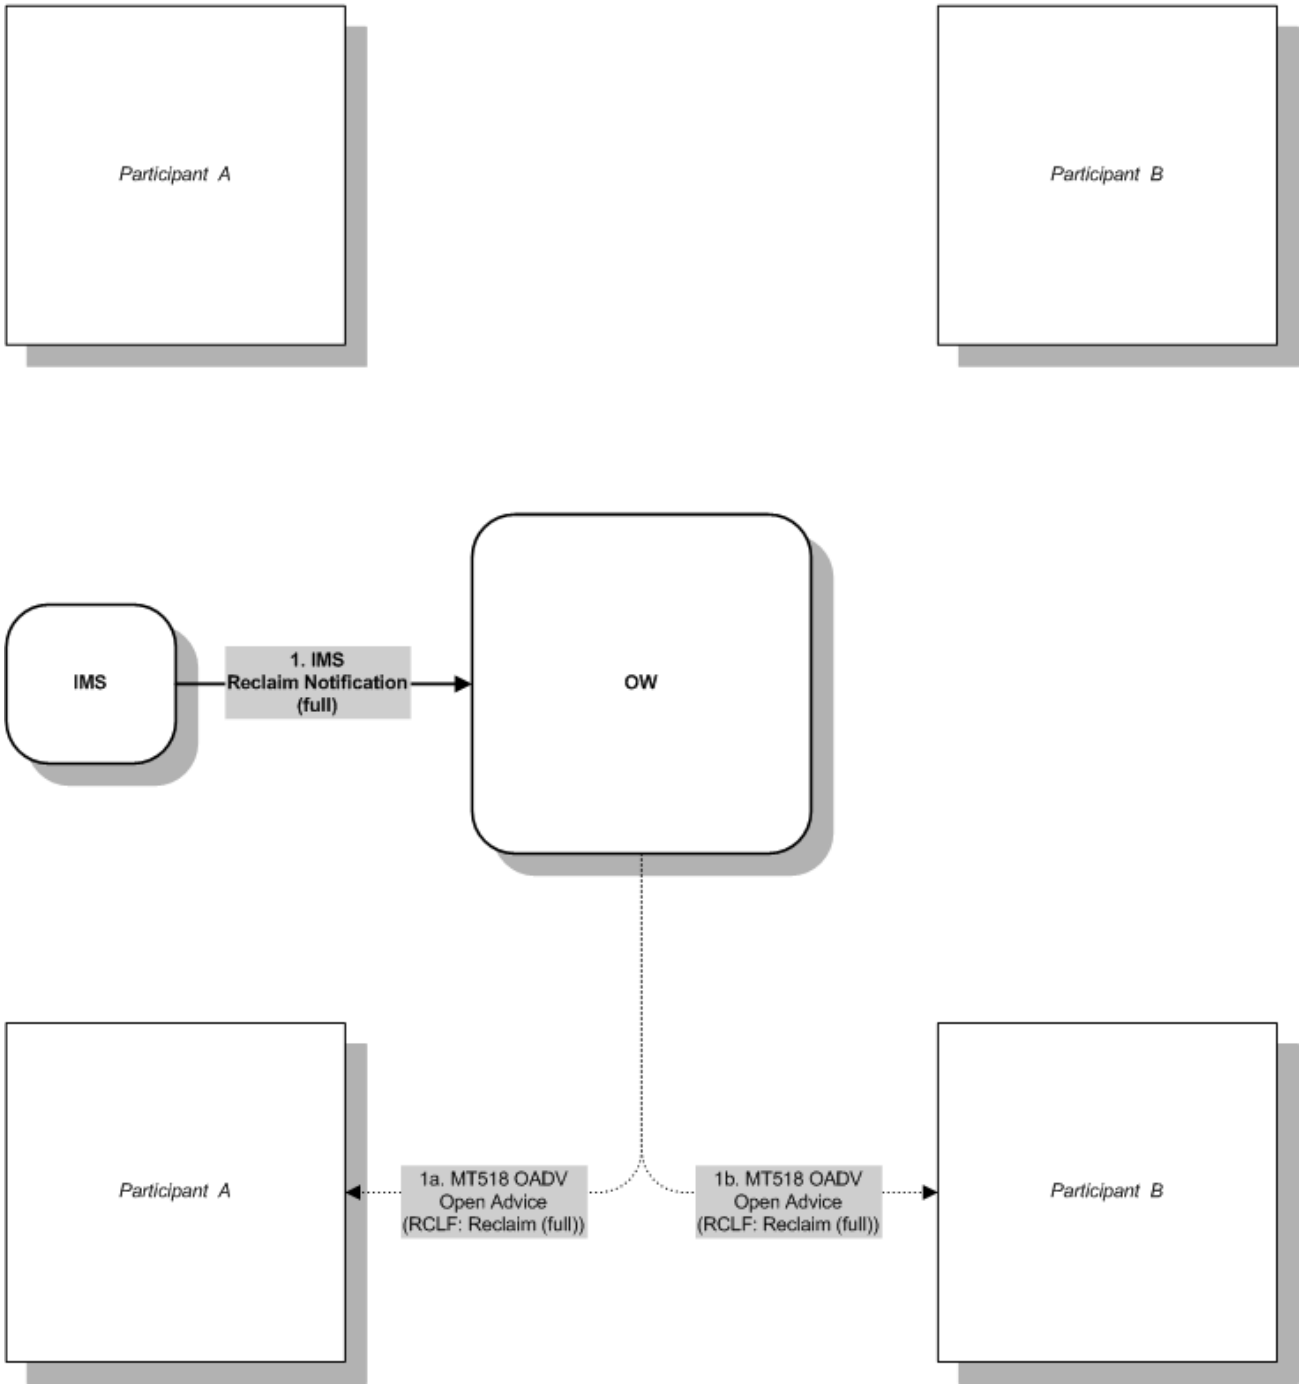

Figure 101: RCLM-1 Reclaim Notification (full) Through IMS accepted on Compared Closed due to delivery, Open status assigned

Title: RCLM-2
Description: Partial Reclaim Notifications on Obligation closed due to delivery accepted from Receiver - Reclaim, Pending Acceptance status assigned
1. Reclaim Notification (partial) from Receiver via SWIFT accepted on Compared Closed due to delivery - Reclaim Pending Acceptance status assigned
2. Reclaim Notification (partial) from Receiver via SWIFT accepted on Reclaim, Pending Acceptance - total quantity now pending acceptance
3. Reclaim Notification (full) from Deliverer via SWIFT accepted on Reclaim Pending Acceptance - obligation Opened

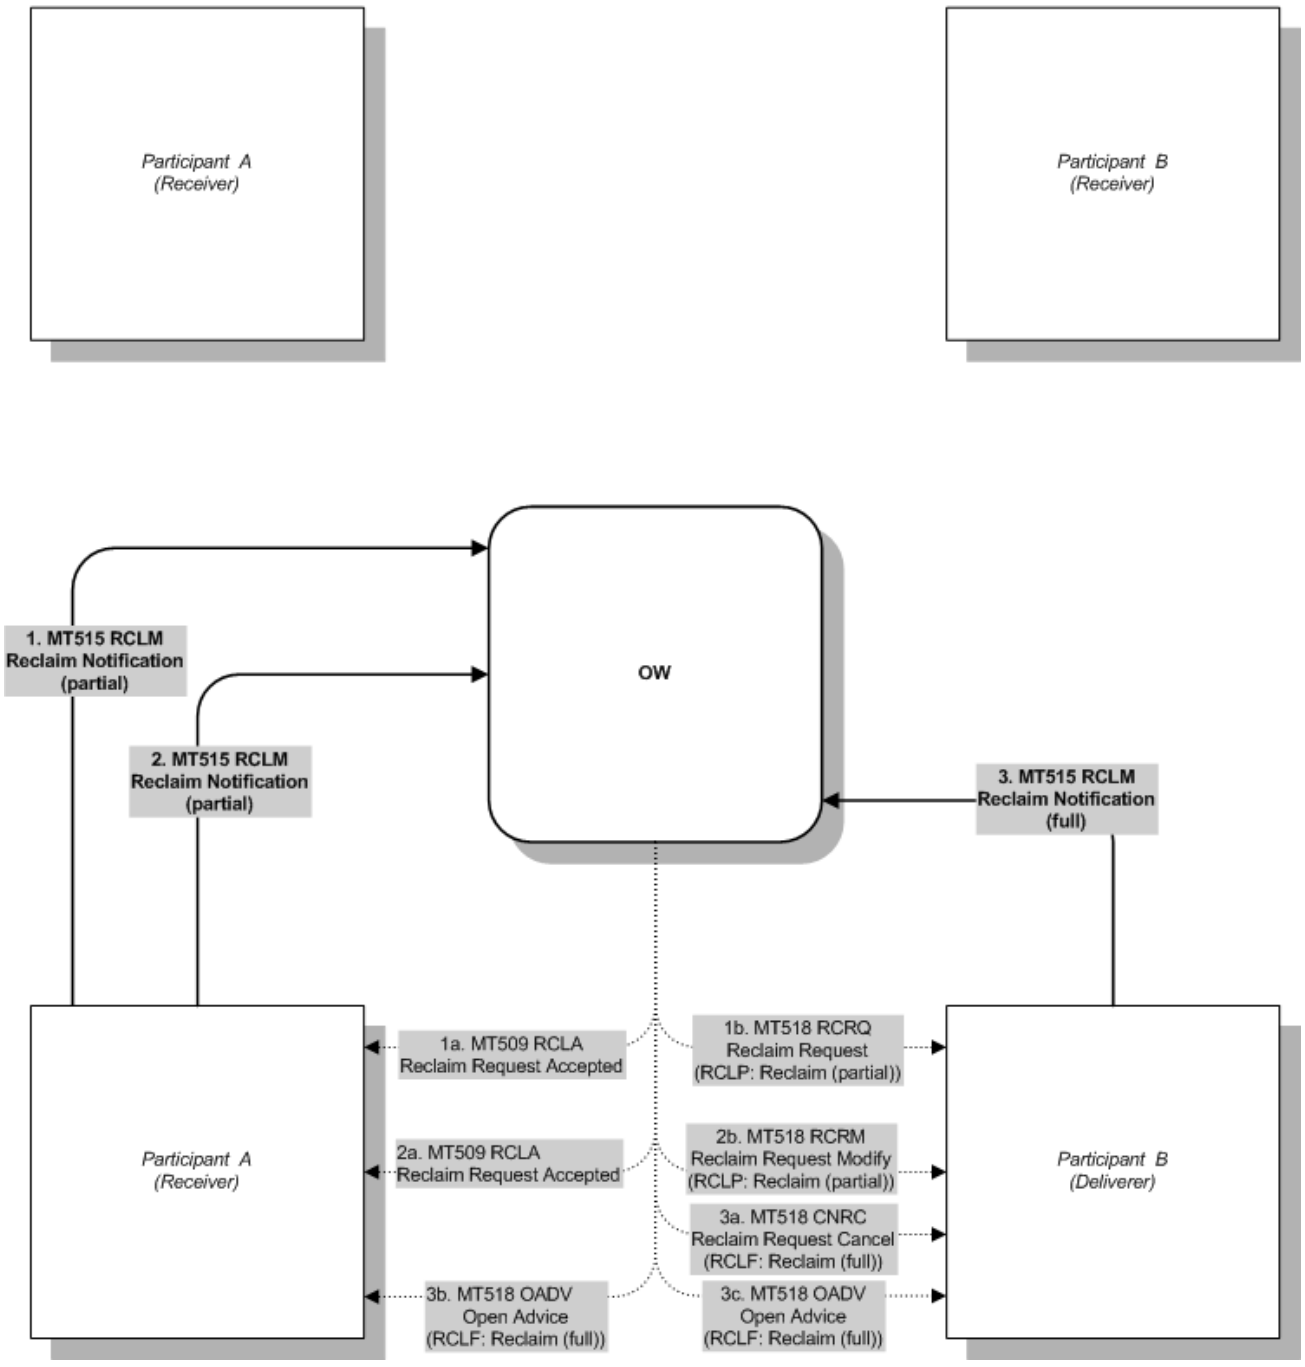

Figure 102: RCLM-2 Partial Reclaim Notifications on Obligation closed due to deliver accepted From Receiver - Reclaim, Pending Acceptance status assigned

Title: RCLM-3
Description: Reclaim Notification accepted on Prime Broker obligation, closed uncompared due to full delivery - Uncompared status assigned
1. Reclaim Notification (full) from IMS accepted on Uncompared Closed due to PB delivery, Uncompared status assigned

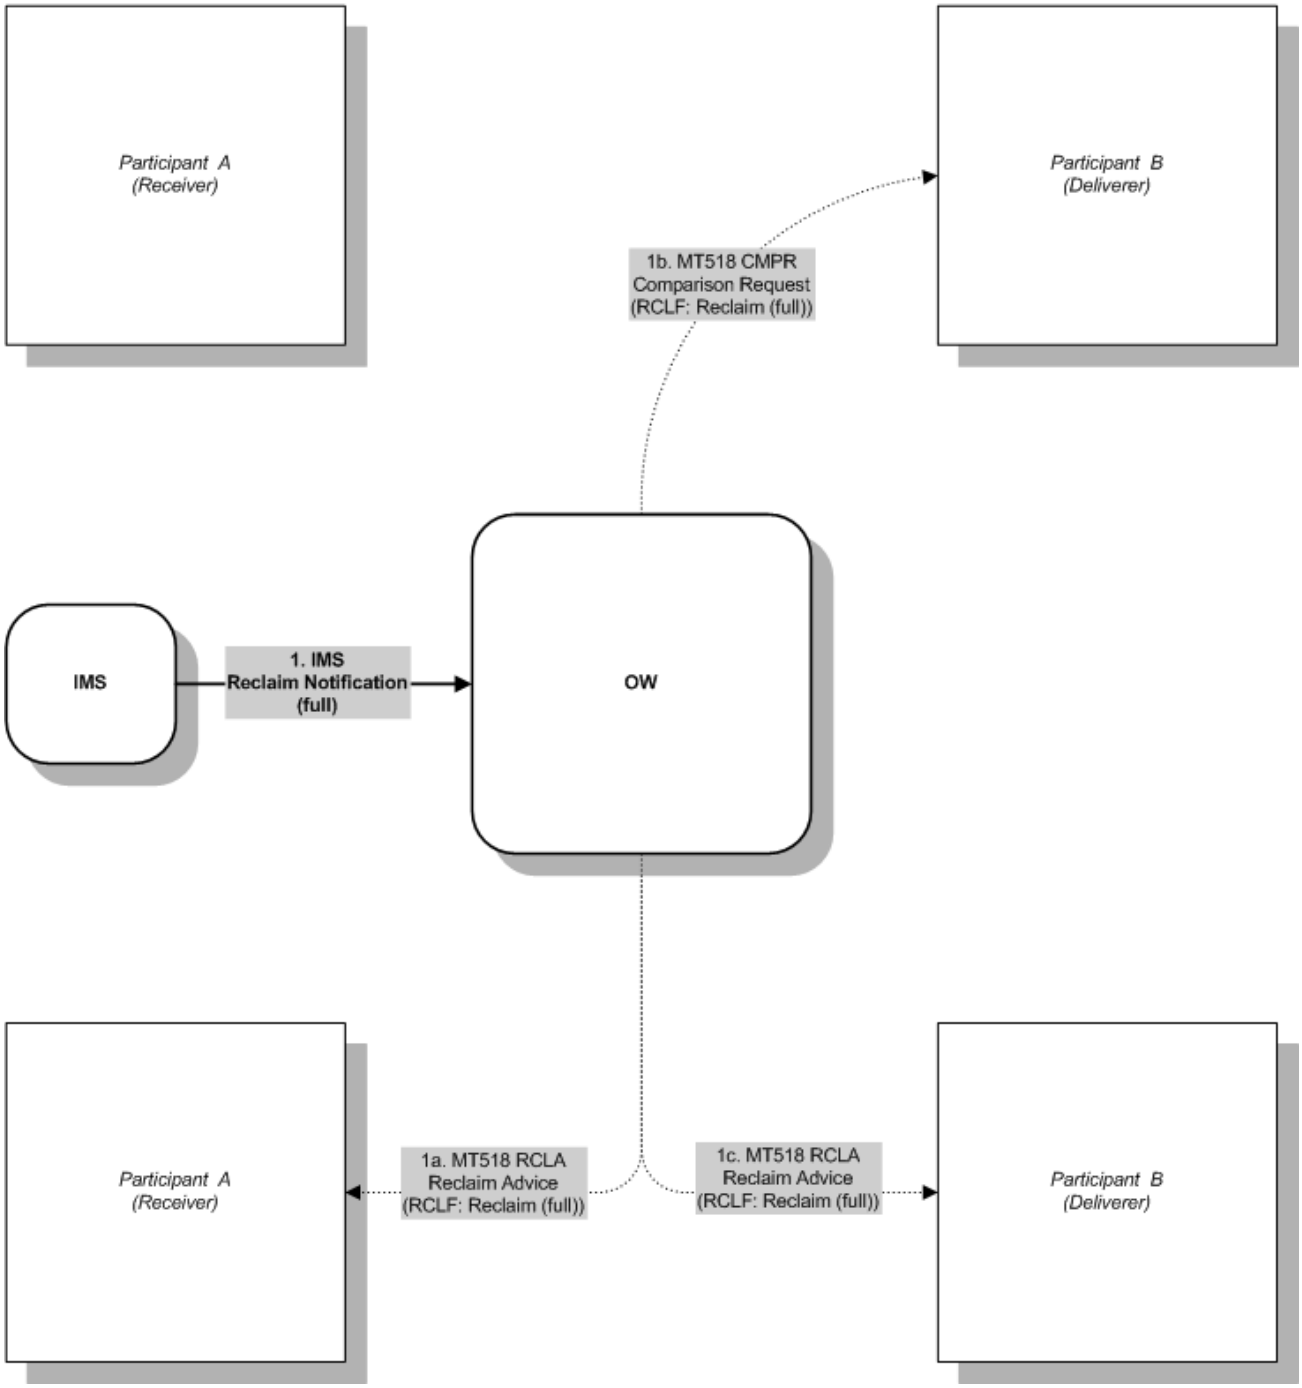

Figure 103: RCLM-3 Reclaim Notification accepted on Prime Broker obligation, closed uncompared due to full delivery Uncompared state assigned

Title: RCLM-4
Description: Open Obligation, Partially Delivered via IMS, Bilateral Agreement of Reclaim
1. Obligation input from Particiant A accepted, Uncompared status assigned
2. Obligation input from Particiant B accepted, compared exact, Open status assigned
3. Delivery Notification (partial) from IMS accepted
4. Reclaim Notification from Participant A accepted, Reclaim, Pending Acceptance status assigned
5. Reclaim Notification from Participant B accepted, Open status assigned

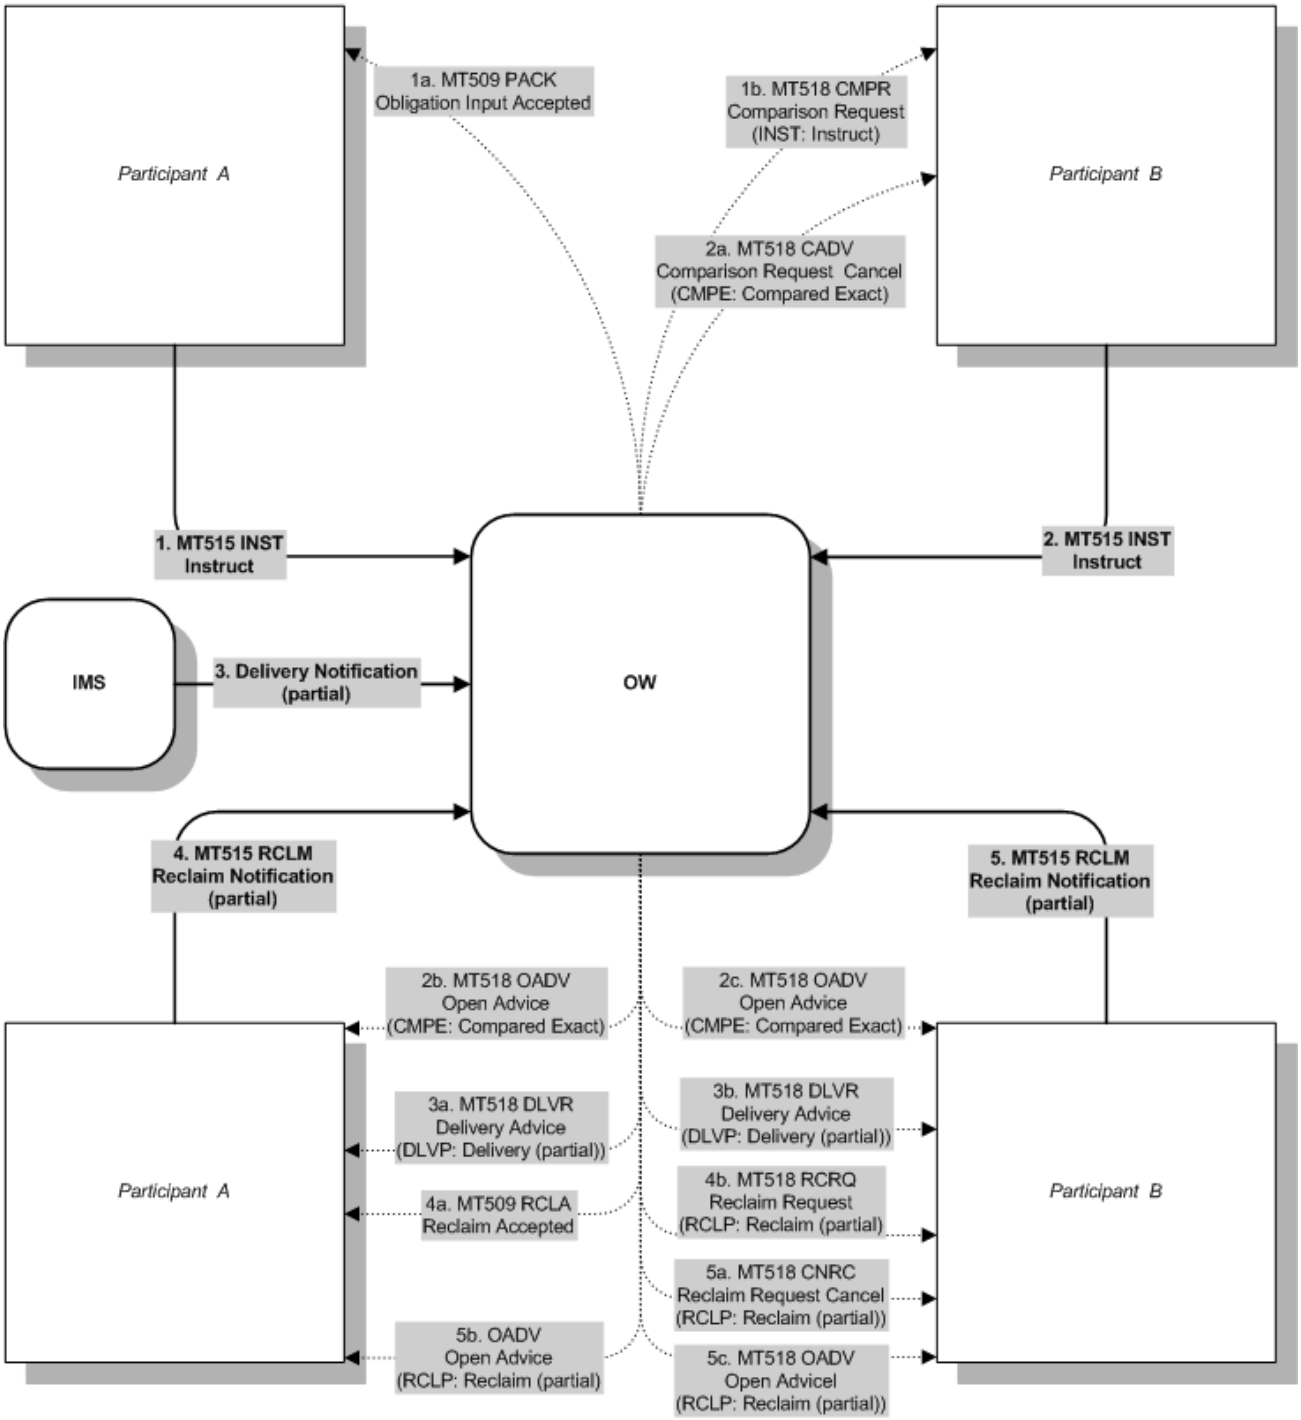

Figure 104: RCLM-4 Open Obligation, Partially Delivered Through IMS, Bilateral Agreement of Reclaim

Title: IPOF-1

Description: Modify Pair off indicator on matched obligation (via SWIFT)

1. Part A submits modification to open obligation, Include for pair off (IPOF)
    a. OW response to submitter (MT509)
    b. OW notifies contra (MT518)

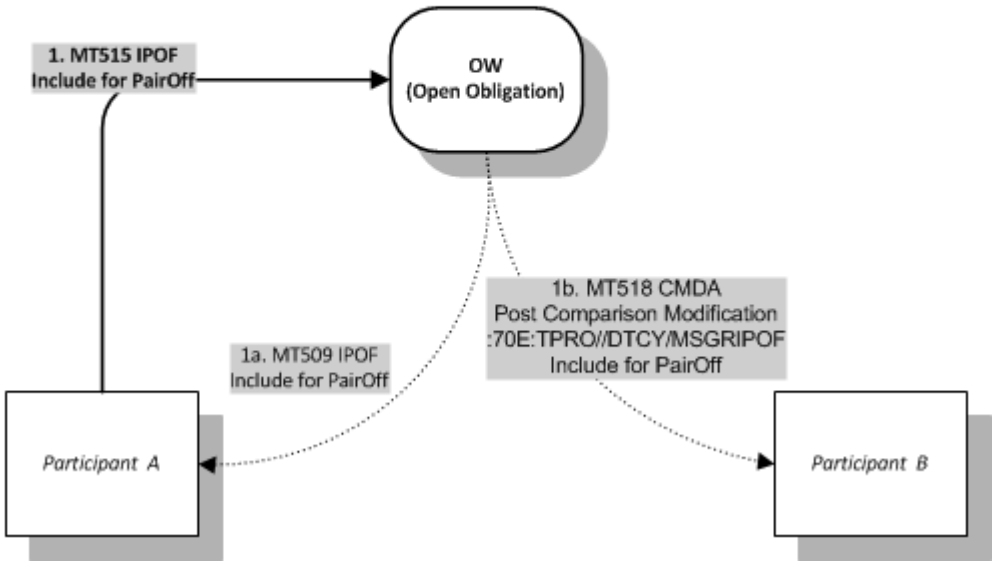

Figure 105: IPOF-1 Modify Pair off indicator on matched obligation (Through SWIFT)

Title: IPOF-2

Description: Modify Pair off indicator on matched obligation (via OW Web) Pair off = Yes

1. Part A submits modification to open obligation via OW Web,
   a. OW sends submitter Screen input replay (MT518)
   b. OW post comparison modification message response sent to contra (MT518)

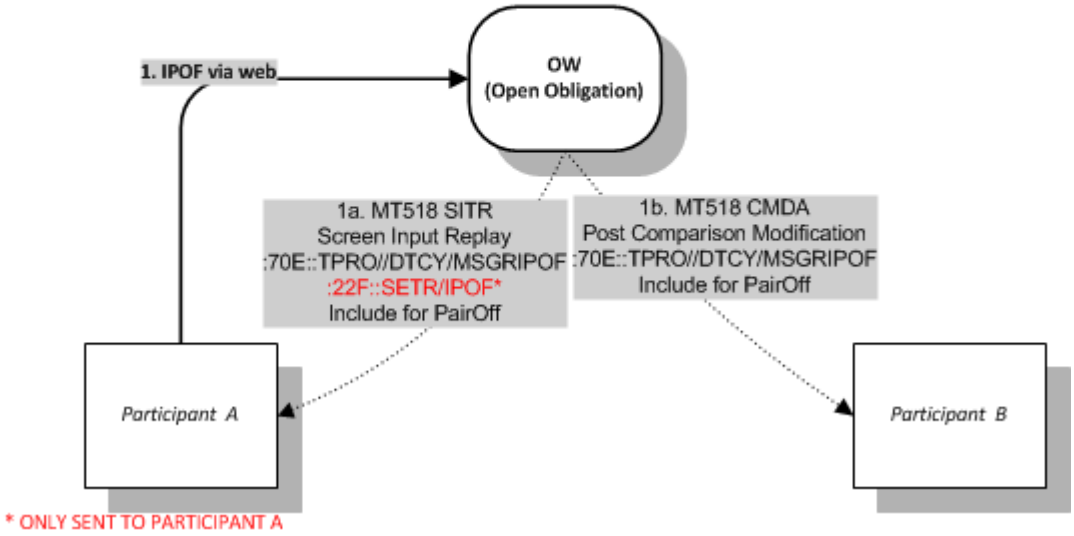

Figure 106: IPOF-2 Modify Pair off indicator on matched obligation (Through OW Web) Pair off = Yes

Title: IPOF-3
Description: Eligible obligation included in Daily Pair off Closed.

1. Part A submits modification to open obligation via MQ (MT515)
    a. OW response to submitter (MT509)
    b. OW notifies contra (MT509)
2. Part B submits modification to open obligation via OW Web
    a. OW response to submitter (MT518)
    b. OW notifies contra (MT518)
3. Daily OW Pair off process occurs and closes obligation
    a. OW notifies both parties of close (MT518)
4. OW generates administrative notification of conclusion of Pair off process (MT 599)

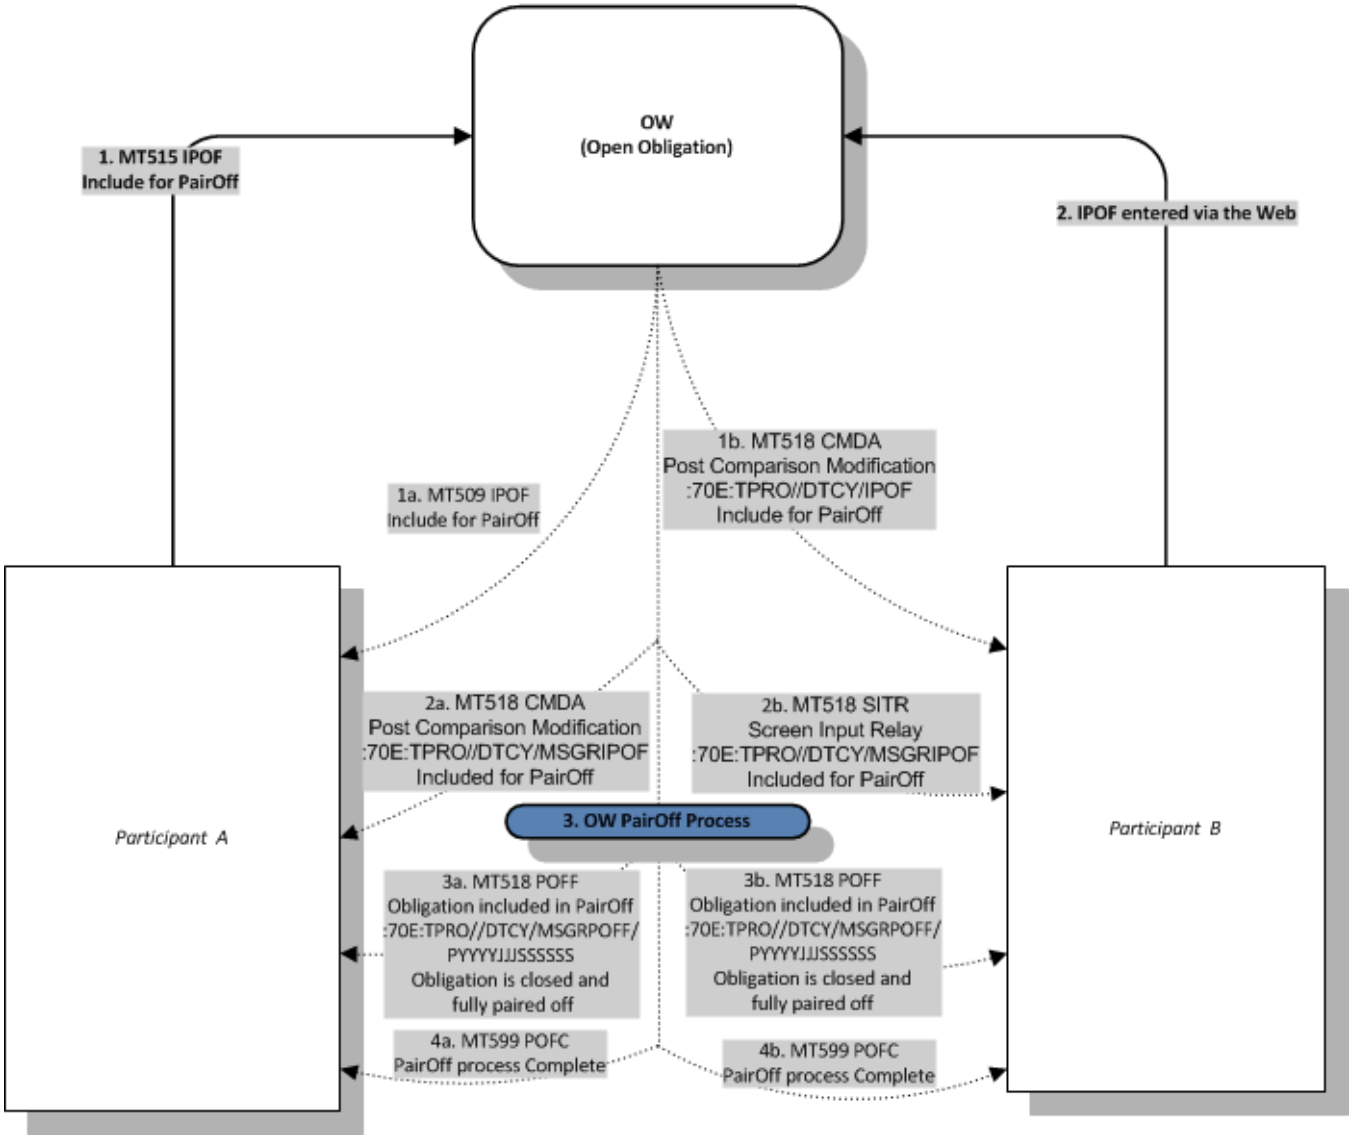

Figure 107: IPOF-3 Eligible obligation included in Daily Pair off Closed

Title: ALPO-1
Description: Account Level Pair off selected , approved , applied to all matched obligations for initial update.

1. Account Level Pair off (ALPO) modification request submitted via OW Web using future effective date
2. CNS Operations approves ALPO request via OW Web
3. OW runs the daily initial ALPO modification process on effective date
    a. OW response to submitter (MT509)
    b. OW notifies contra (MT518)

Figure 108: ALPO-1 Account Level Pair off selected, approved, applied to all matched obligations for initial update.

Title: ALPO-2
Description: Account Level Pair off selected by both parties.
1 & 2. Account Level Pair off (ALPO) modification request submitted via OW Web using future effective date
3 & 4. CNS Operations approves ALPO request via OW Web
5. OW runs the daily initial ALPO modification process on effective date
   a. OW response to submitter, Part A (MT509)
   b. OW notifies contra, Part B (MT518)
   c. OW response to submitter, Part B (MT509)
   d. OW notifies contra, Part A (MT518)

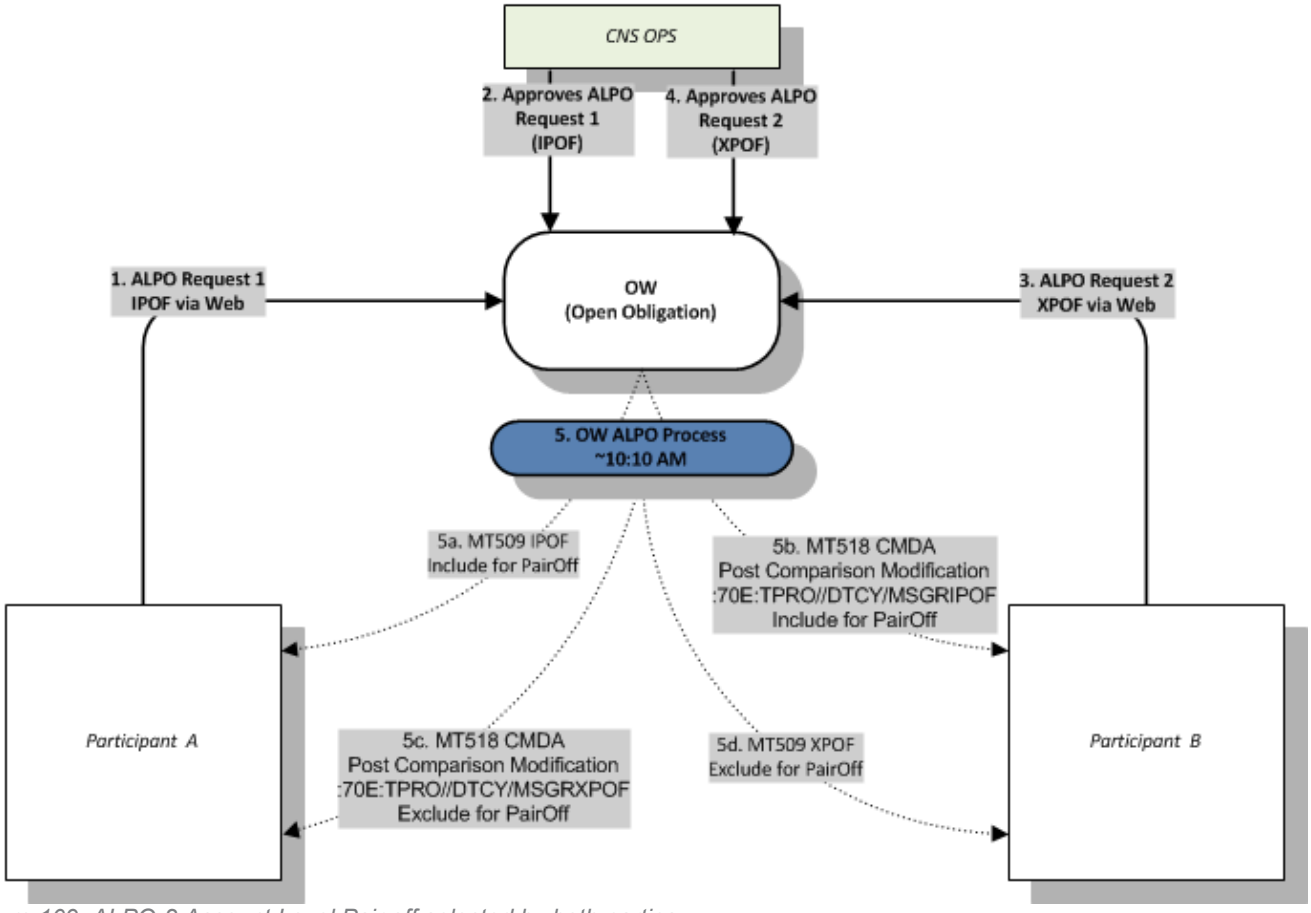

Figure 109: ALPO-2 Account Level Pair off selected by both parties.

Title: ALPO-3

Description: Obligation modification for Pair off overwritten with Account Level Pair off modification.

1. Part A submits modification to open obligation via MQ (MT515)
    a. OW response to submitter (MT509)
    b. OW notifies contra (MT509)
2 & 3 Account Level Pair off (ALPO) modification request submitted via OW Web using future effective date
4 & 5 CNS Operations approves ALPO request via OW Web
6. OW runs the daily initial ALPO modification process on effective date
    a. OW response to submitter, Part A (MT509)
    b. OW notifies contra, Part B (MT518)
    c. OW response to submitter, Part B (MT509)
    d. OW notifies contra, Part A (MT518)

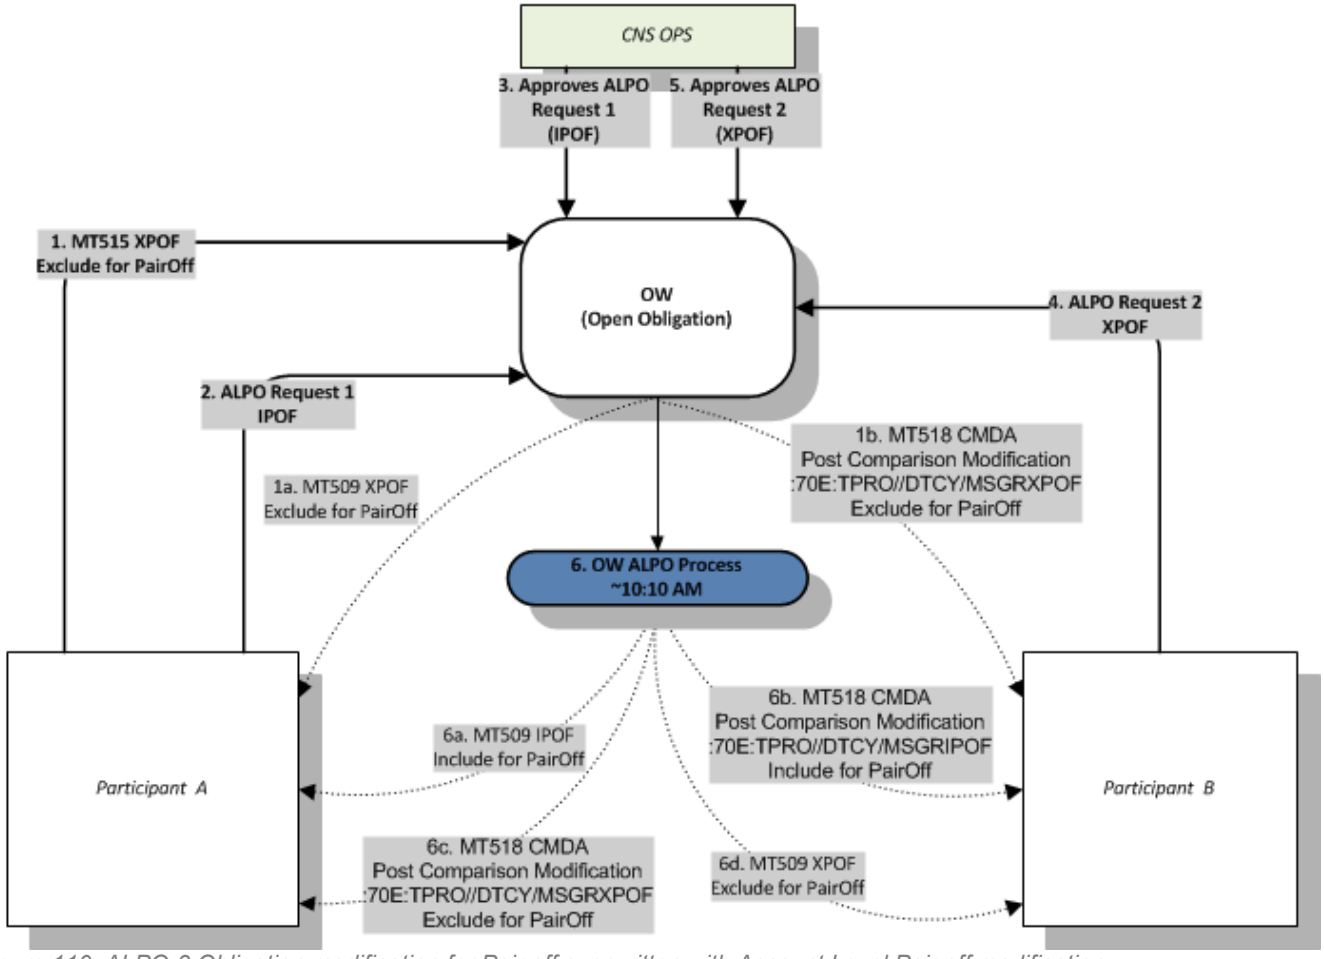

Figure 110: ALPO-3 Obligation modification for Pair off overwritten with Account Level Pair off modification.

Title: ALPO-4
Description: Obligation modification after Account Level Pair off update applied.
Please refer to ALPO-2 for steps 1-5.
6. Part A submits modification to open obligation via MQ (MT515)
    a. OW response to submitter (MT509)
    b. OW notifies contra (MT509)

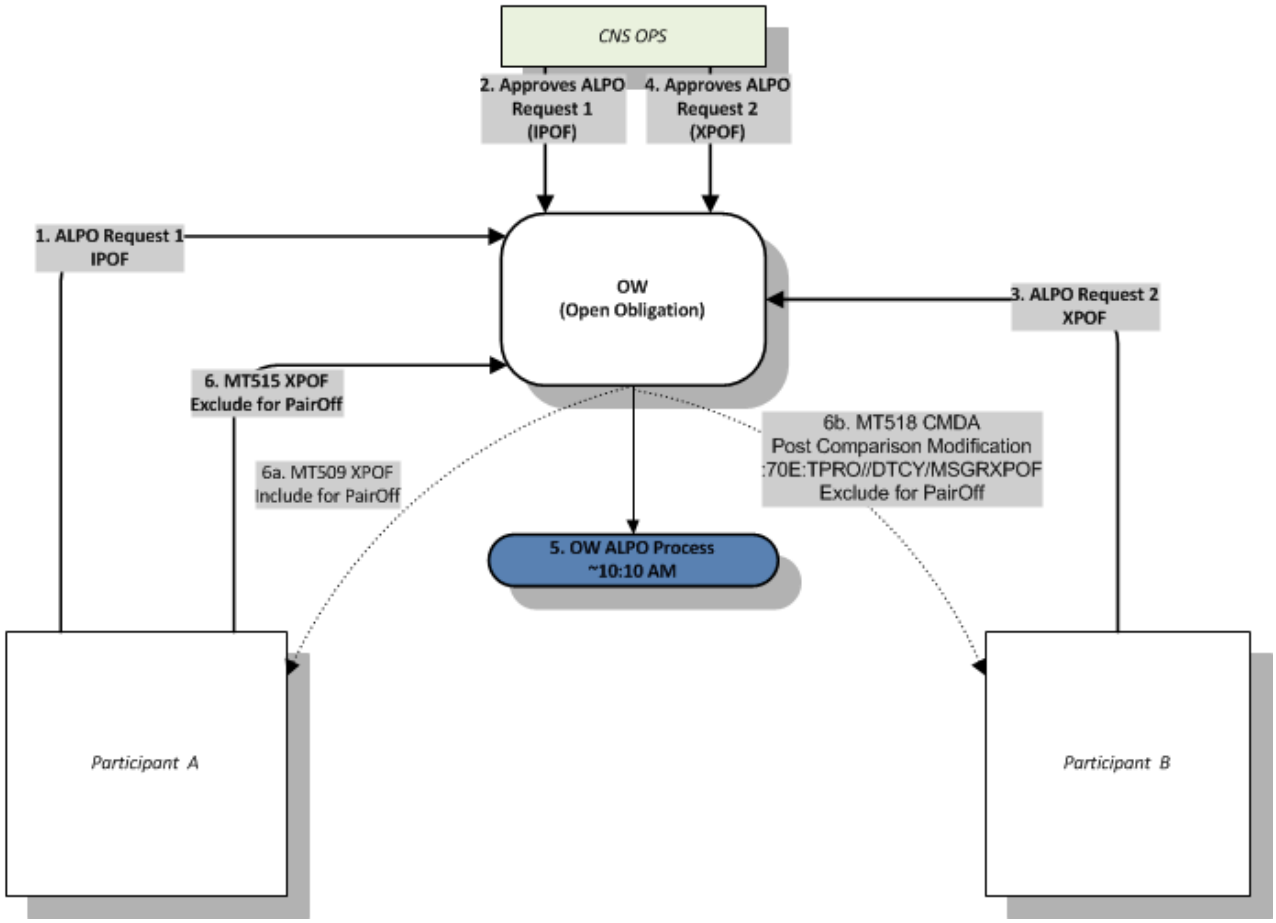

Figure 111: ALPO-4 Obligation modification after Account Level Pair off update applied.

Title: POFF-1
Description: Pair off process closes obligation
1. OW Pair off daily process occurs and closes an obligation
   a & b. OW sends both parties the close (MT518)
2. OW generates administrative notification of conclusion of Pair off process (MT 599)

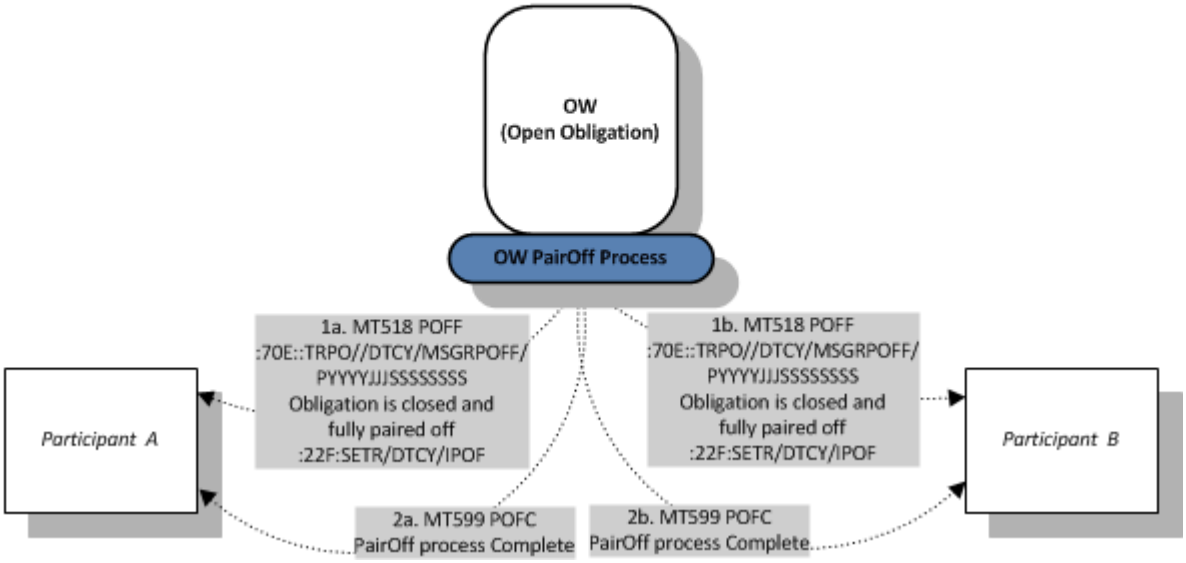

Figure 112: POFF-1 Pair off process closes obligation.

Title: POFP-1
Description: Pair off process partially closes obligation.
1. OW Pair off daily process occurs and partially closes an obligation
   a & b. OW sends both parties the partial close (MT518)
2. OW generates administrative notification of conclusion of Pair off process (MT 599)

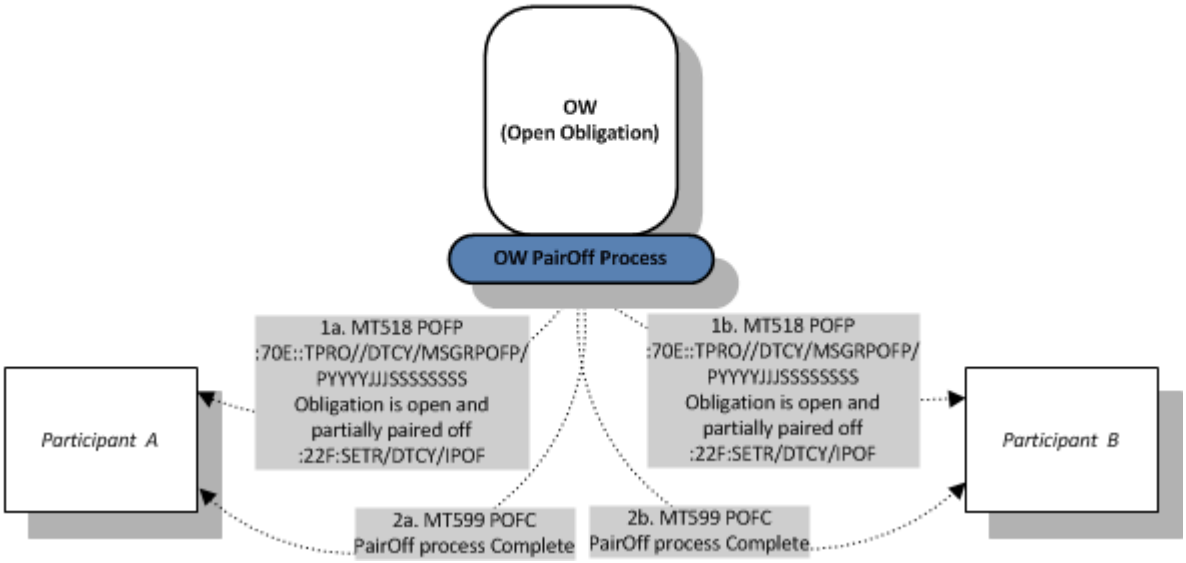

Figure 113: POFP-1 Pair off process partially closes obligation.

Title: POFP-1
Description: Pair off process partially closes obligation.
1. OW Pair off daily process occurs and partially closes an obligation
   a & b. OW sends both parties the partial close (MT518)
2. OW generates administrative notification of conclusion of Pair off process (MT 599)

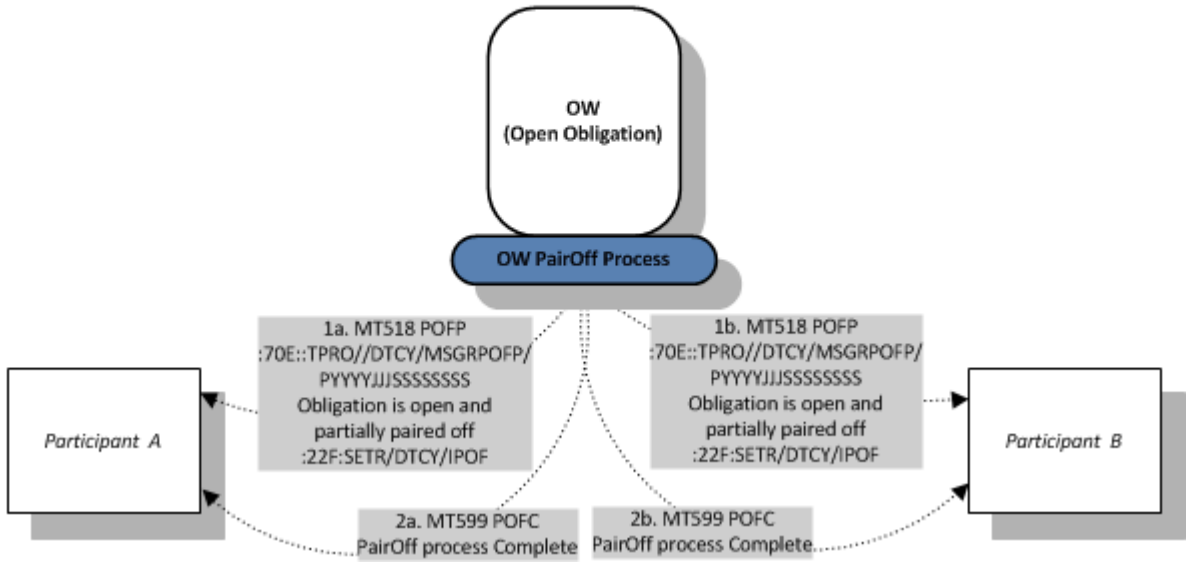

Figure 114: IPOF-1 Modify Pair Off Indicator on Matched Obligation (Via SWIFT).

Title: IPOF-1
Description: Modify Pair off indicator on matched obligation (via SWIFT)
1. Part A submits modification to open obligation, Include for pair off (IPOF)
   a. OW response to submitter (MT509)
   b. OW notifies contra (MT518)

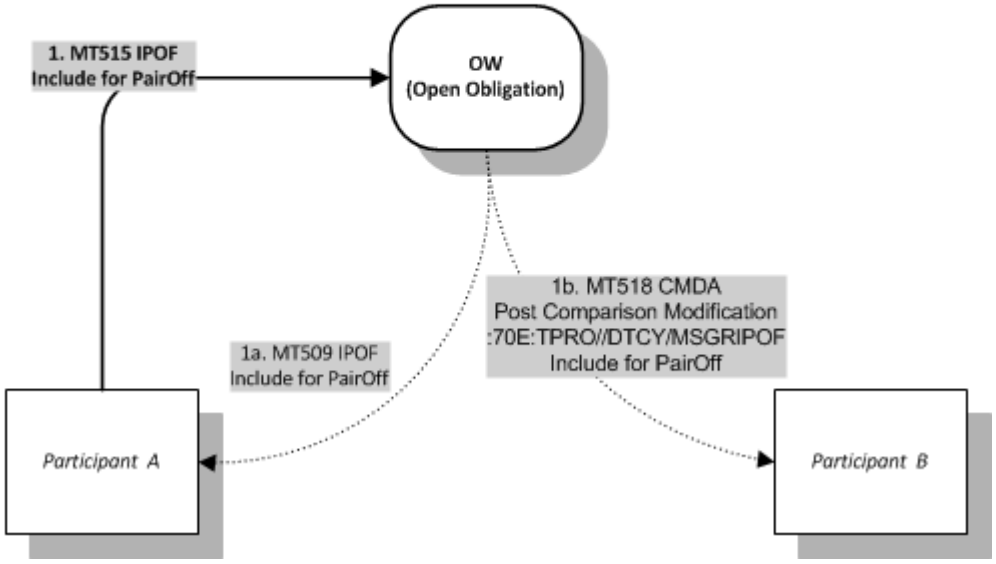

Figure 115: IPOF-2 Modify Pair Off Indicator on Matched Obligation (Via OW Web), Pair off = Yes.

Title: IPOF-2

Description: Modify Pair off indicator on matched obligation (via OW Web) Pair off = Yes

1. Part A submits modification to open obligation via OW Web,
   a. OW sends submitter Screen input replay (MT518)
   b. OW post comparison modification message response sent to contra (MT518)

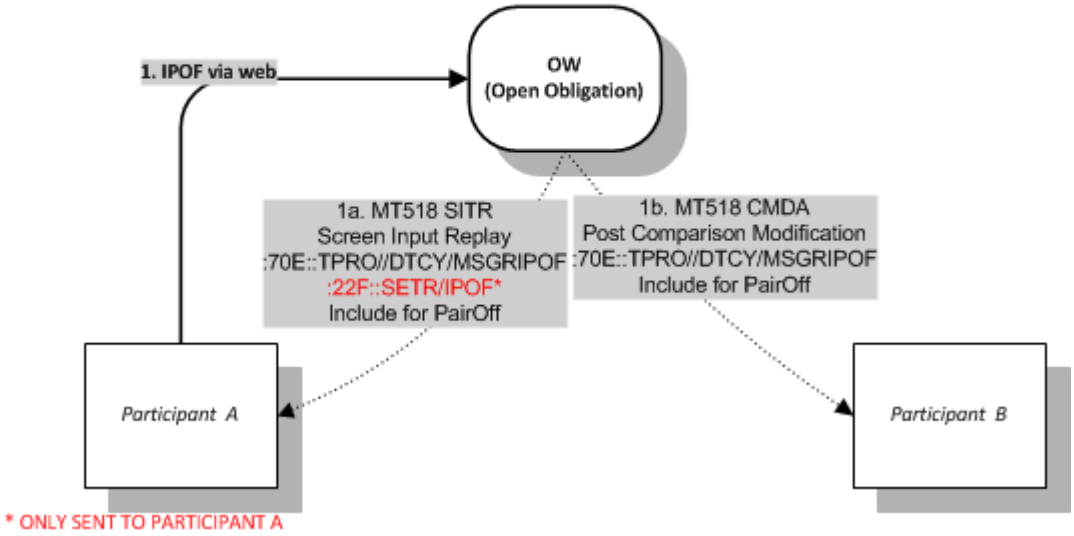

Figure 116: IPOF-3 Eligible Obligation Included in Daily Pair Off Closed.

Title: IPOF-3
Description: Eligible obligation included in Daily Pair off Closed.

1. Part A submits modification to open obligation via MQ (MT515)
    a. OW response to submitter (MT509)
    b. OW notifies contra (MT509)
2. Part B submits modification to open obligation via OW Web
    a. OW response to submitter (MT518)
    b. OW notifies contra (MT518)
3. Daily OW Pair off process occurs and closes obligation
    a. OW notifies both parties of close (MT518)
4. OW generates administrative notification of conclusion of Pair off process (MT 599)

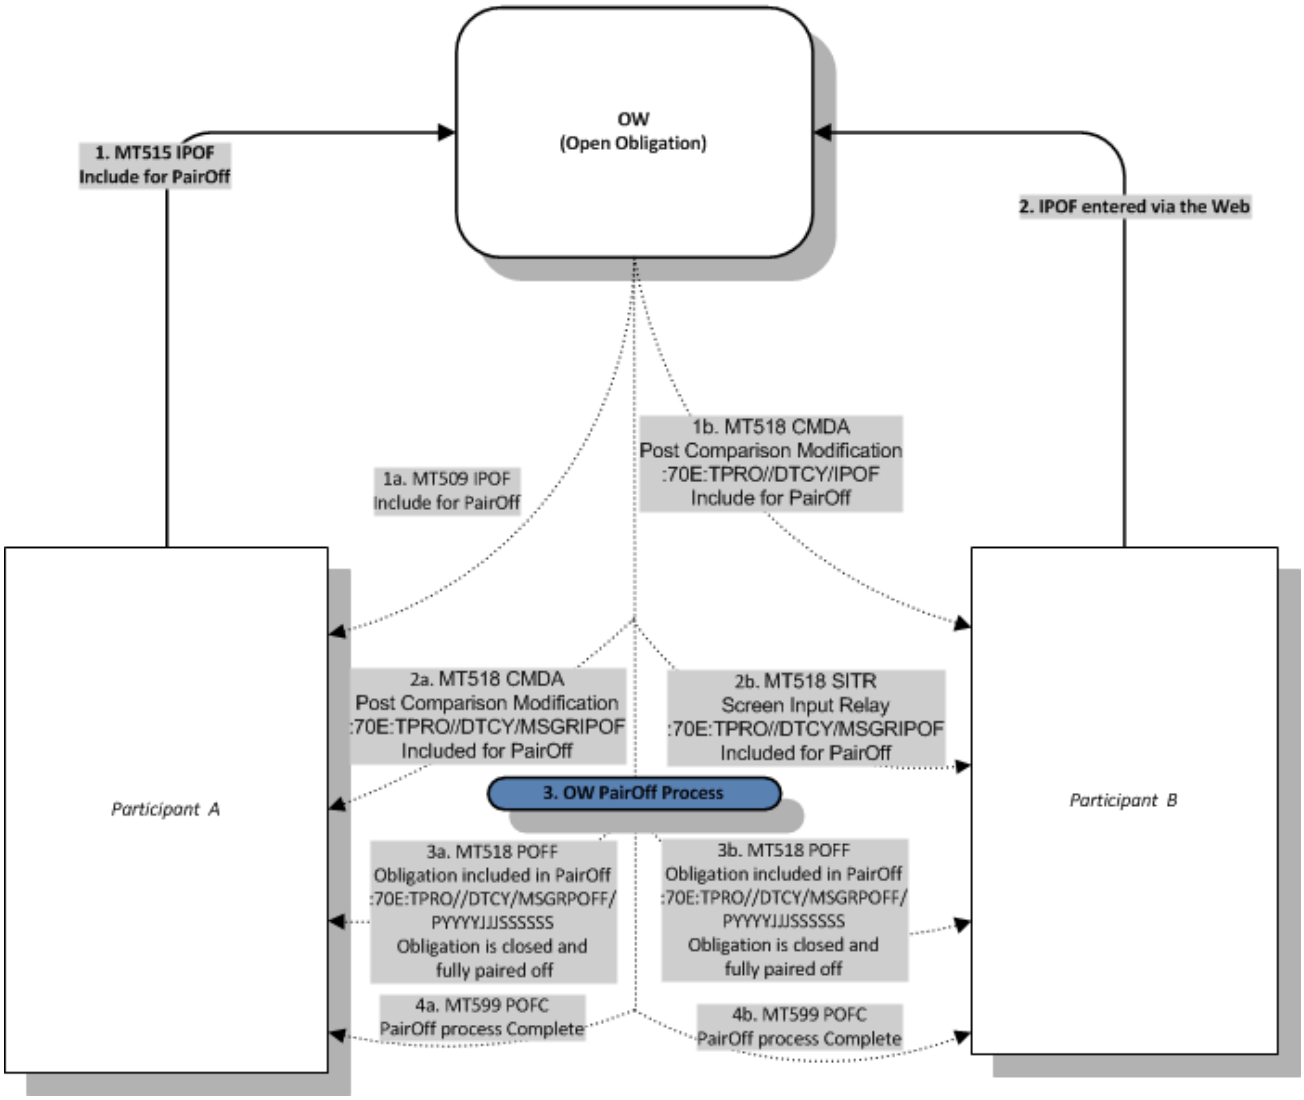

Figure 117: ALPO-1 Account Level Pairoff Selected, Approved, Applied to All Matched Obligations for Initial Update.

Title: ALPO-1
Description: Account Level Pair off selected , approved , applied to all matched obligations for initial update.

1. Account Level Pair off (ALPO) modification request submitted via OW Web using future effective date
2. CNS Operations approves ALPO request via OW Web
3. OW runs the daily initial ALPO modification process on effective date
    a. OW response to submitter (MT509)
    b. OW notifies contra (MT518)

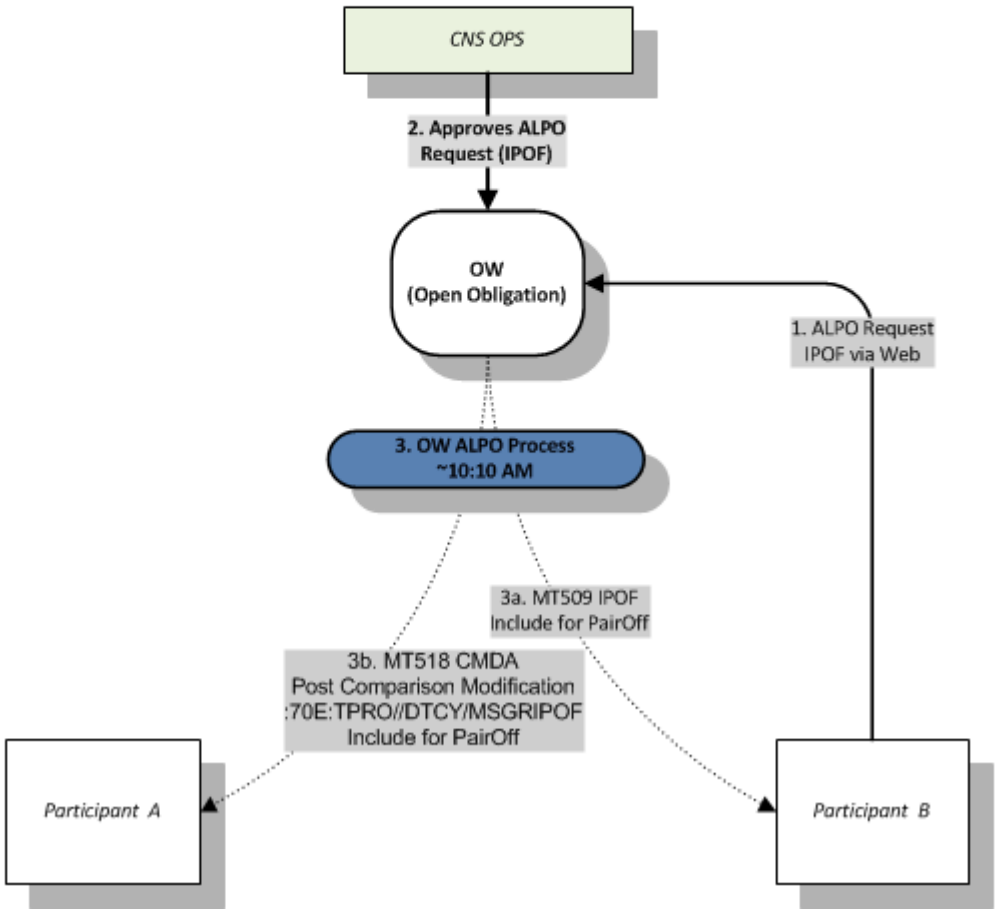

Figure 118: ALPO-2 Account Level Pairoff Selected by Both Parties.

Title: ALPO-2
Description: Account Level Pair off selected by both parties.
1 & 2. Account Level Pair off (ALPO) modification request submitted via OW Web using future effective date
3 & 4. CNS Operations approves ALPO request via OW Web
5. OW runs the daily initial ALPO modification process on effective date
   a. OW response to submitter, Part A (MT509)
   b. OW notifies contra, Part B (MT518)
   c. OW response to submitter, Part B (MT509)
   d. OW notifies contra, Part A (MT518)

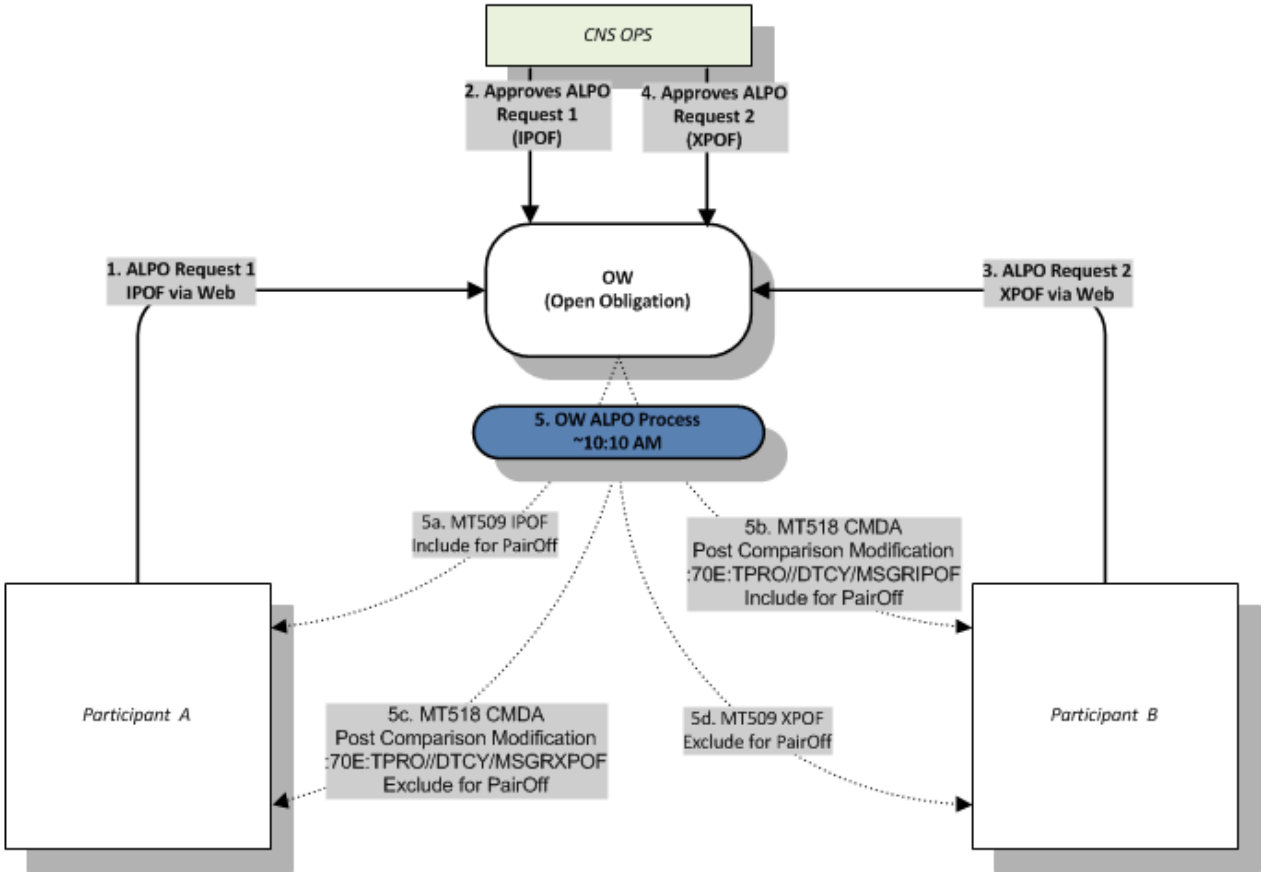

Figure 119: ALPO-3 Obligation Modification for Pair Off Overwritten with Account Level Pair Off Modification.

Title: ALPO-3
Description: Obligation modification for Pair off overwritten with Account Level Pair off modification.
1. Part A submits modification to open obligation via MQ (MT515)
    a. OW response to submitter (MT509)
    b. OW notifies contra (MT509)
2 & 3 Account Level Pair off (ALPO) modification request submitted via OW Web using future effective date
4 & 5 CNS Operations approves ALPO request via OW Web
6. OW runs the daily initial ALPO modification process on effective date
    a. OW response to submitter, Part A (MT509)
    b. OW notifies contra, Part B (MT518)
    c. OW response to submitter, Part B (MT509)
    d. OW notifies contra, Part A (MT518)

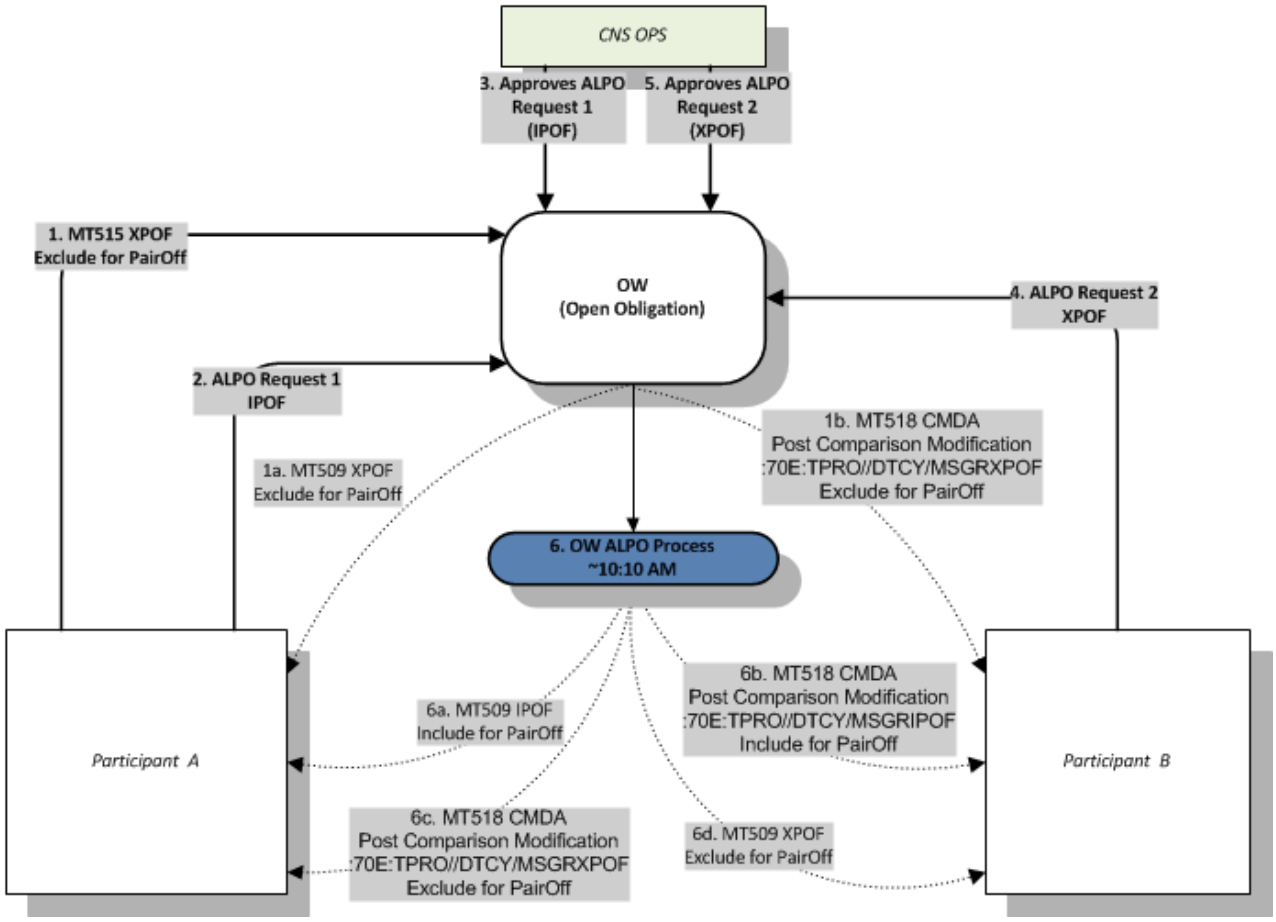

Figure 120: ALPO-4 Obligation Modification After Account Level Pair Off Update Applied.

Title: ALPO-4
Description: Obligation modification after Account Level Pair off update applied.
Please refer to ALPO-2 for steps 1-5.
6. Part A submits modification to open obligation via MQ (MT515)
    a. OW response to submitter (MT509)
    b. OW notifies contra (MT509)

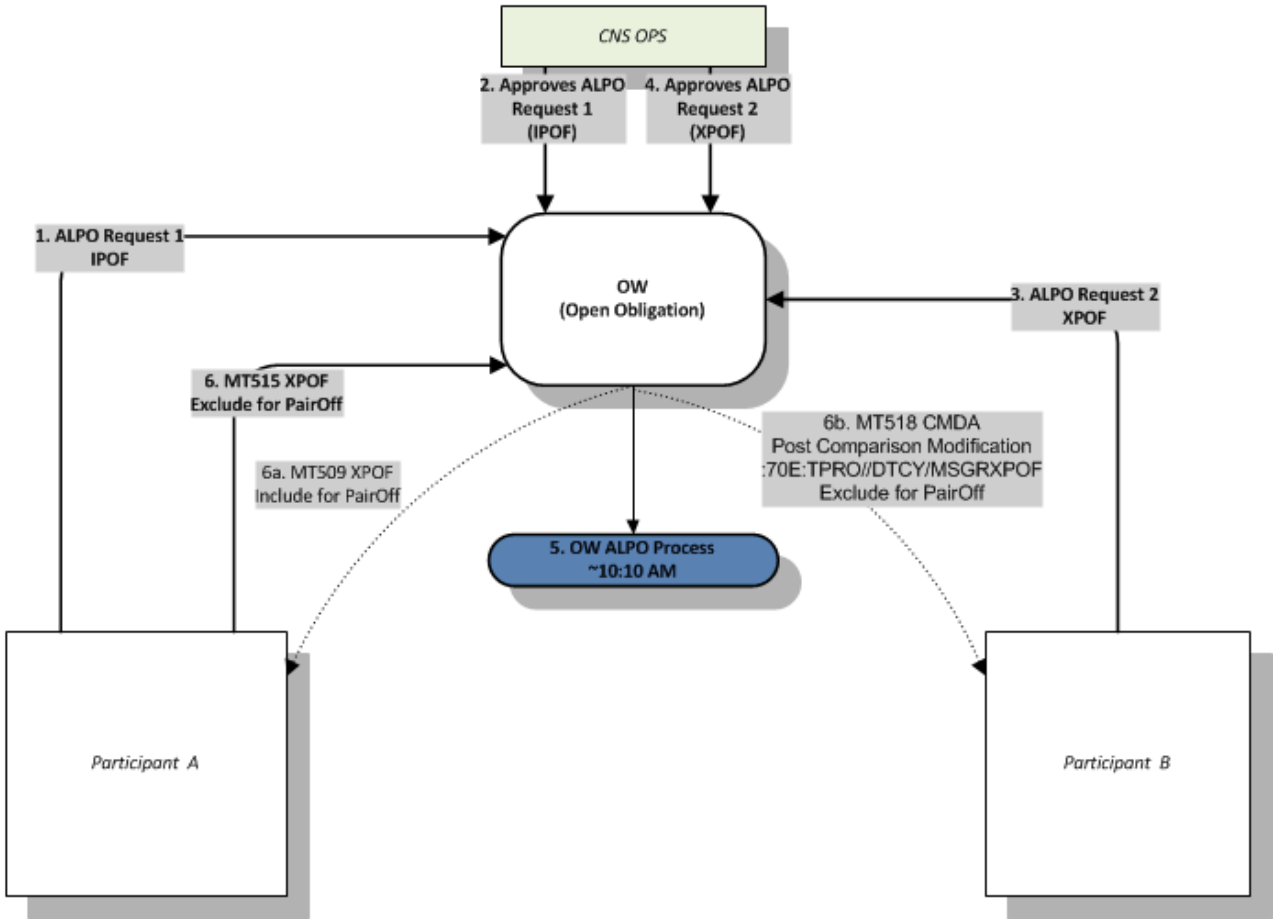

Figure 121: POFF-1 Pair Off Process Close Obligation.

Title: POFF-1
Description: Pair off process closes obligation
1. OW Pair off daily process occurs and closes an obligation
   a & b. OW sends both parties the close (MT518)
2. OW generates administrative notification of conclusion of Pair off process (MT 599)

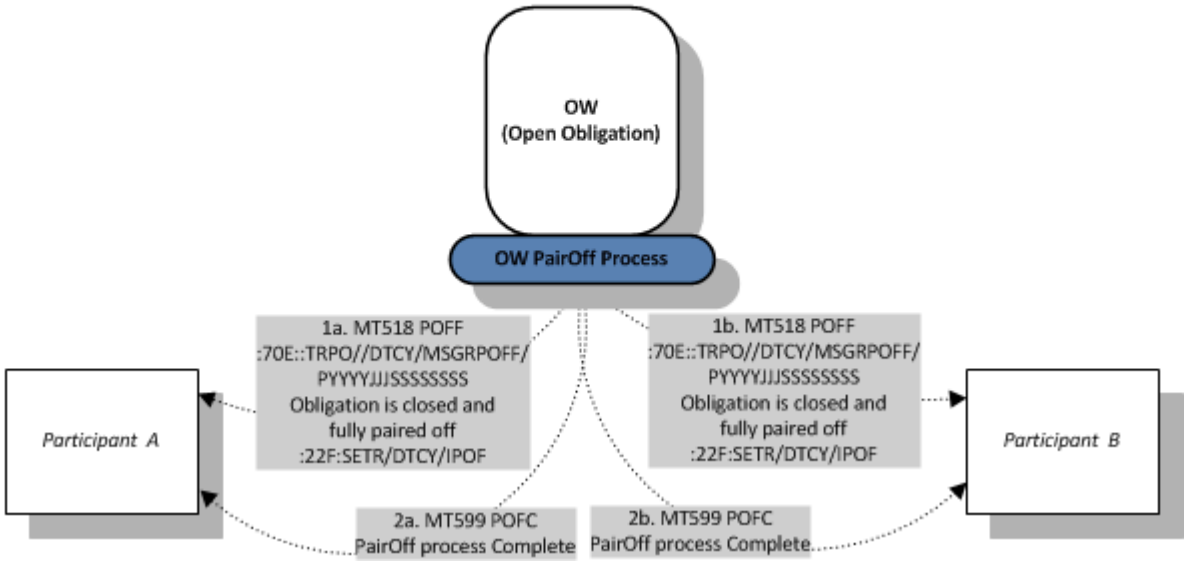

Figure 122: IMSC-1 OW Accepts IMS Permanent Cancel for Obligation Previously Sent By Auto DO, currently in OPEN Status

Title: IMSC-1
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in OPEN status.

1. Obligation was sent to IMS (SIMS) by OW, as defined by Auto DO profile of firm
   a & b Both parties notified of obligation sent to IMS for delivery (MT509)
2. OW accepts permanent cancel from IMS and applies
   a & b Both parties notified by OW that SIMS limitation lifted by permanent cancel in IMS (MT518)

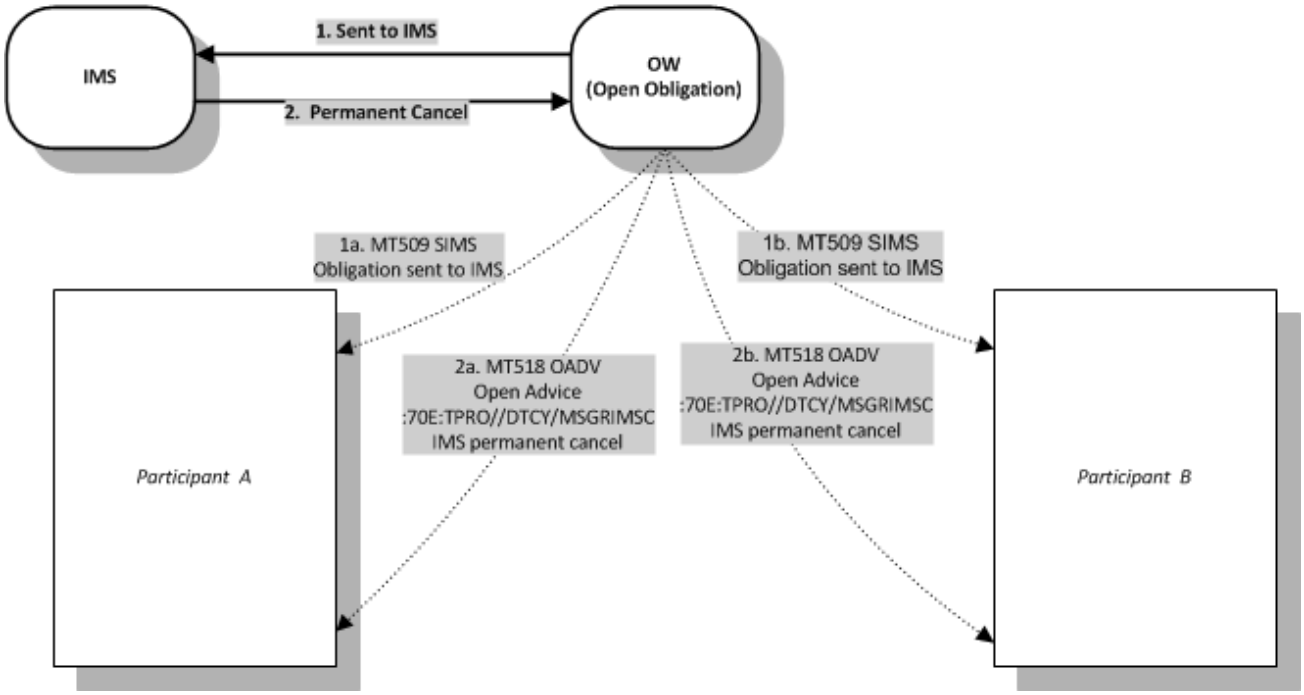

Figure 123: IMSC-2 OW Accepts IMS Permanent Cancel for Obligation Previously Sent By Auto DO, currently in Pending Cancel Status

Title: IMSC-2
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO , currently in Pending Cancel status.

1. Part A requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent cancel from IMS and lifts PCAN
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent cancel from IMS (MT518)
    b. Contra receives a cancel of cancel request ,moving obligation to Open status (MT518)

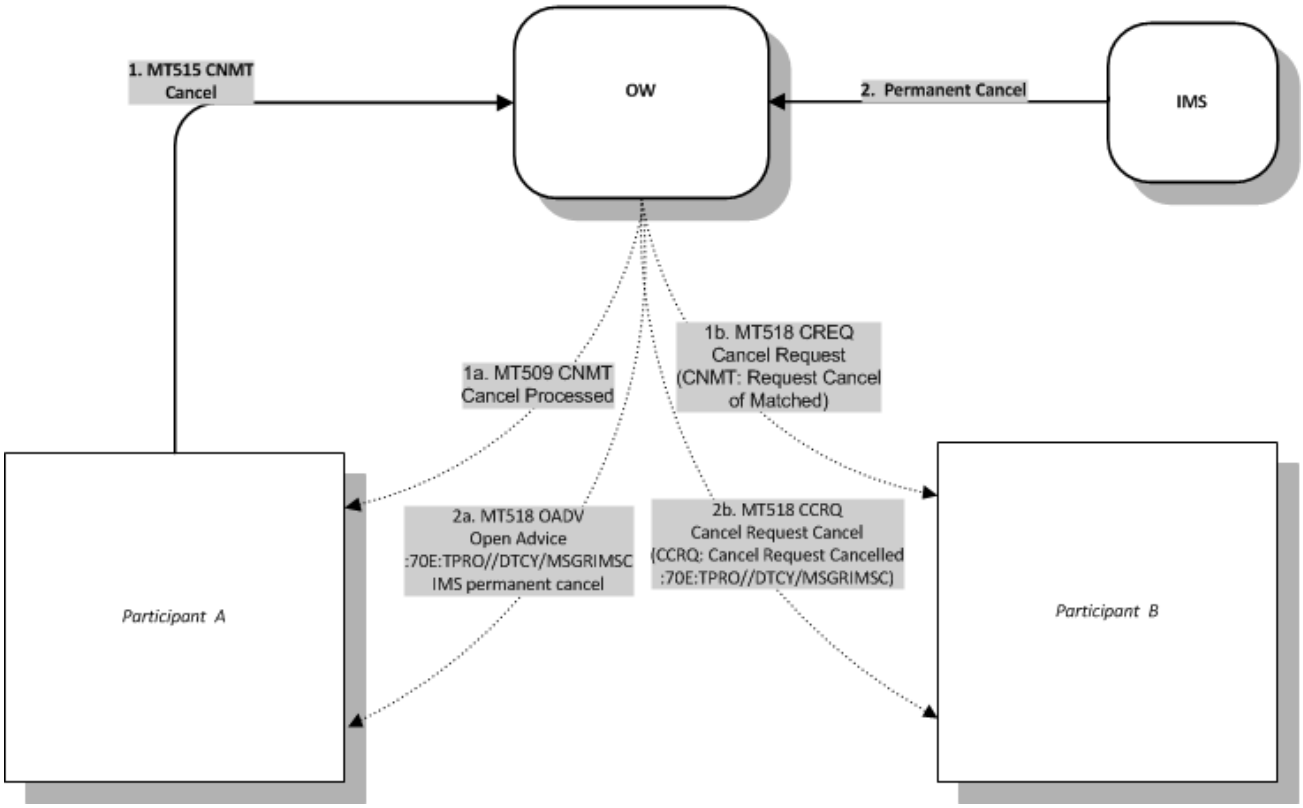

Figure 124: IMSC-3 OW Accepts IMS Permanent Cancel for Obligation Previously Sent By Auto DO, currently in Pending Delivery Status.

Title: IMSC-3
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in Pending Delivery status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent cancel from IMS and lifts OPPA status
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent cancel from IMS (MT518)
    b. Contra receives a cancel of delivery request ,moving obligation to Open status (MT518)

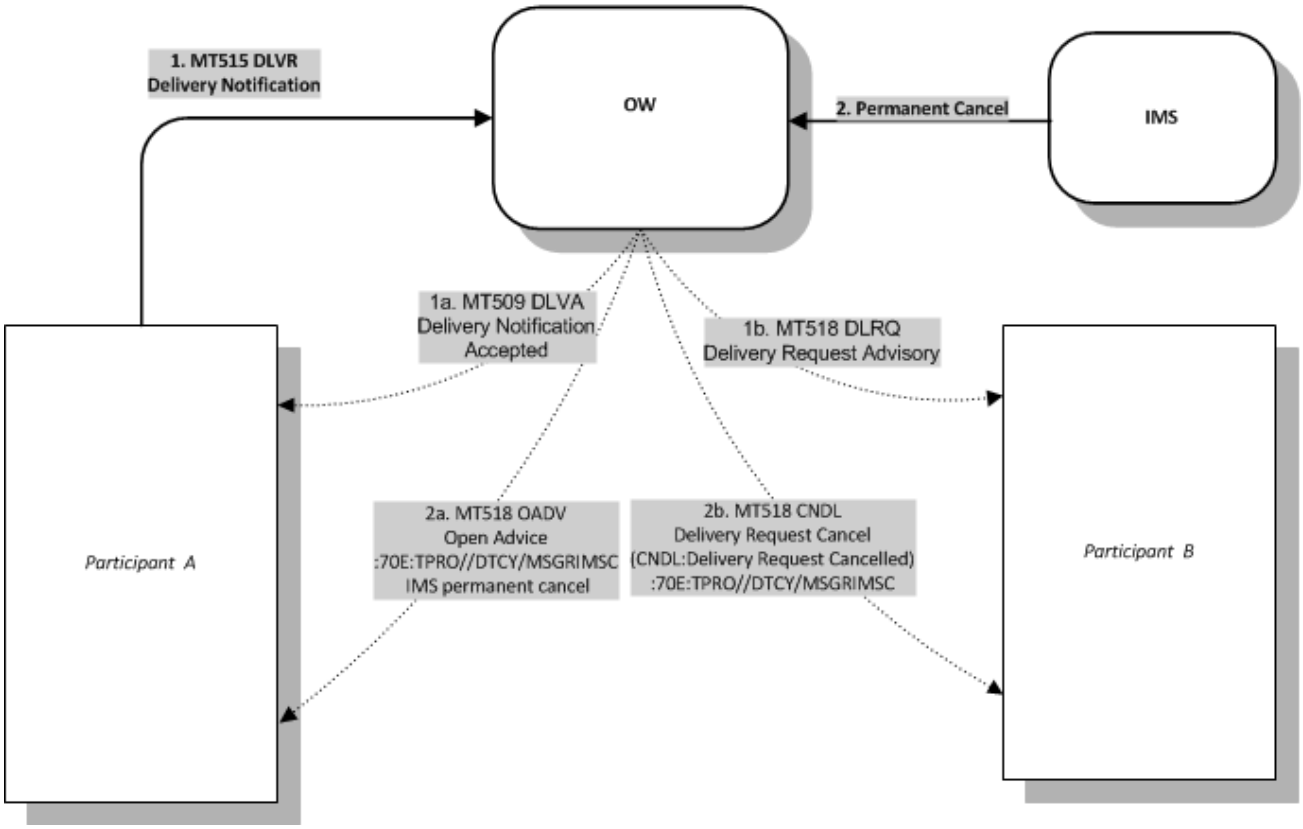

Figure 125: IMSC-4 OW Accepts IMS Permanent Cancel for Obligation Previously Sent By Auto DO, currently in Pending Cancel, Pending Delivery Acceptance Status

Title: IMSC-4
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part B requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent cancel from IMS and lifts PCPA
    a. Submitter of Delivery Request notified of Cancel request cancel, when OW accepts permanent cancel from IMS (MT518)
    b. Submitter of Cancel notified of cancel of the delivery request (MT518)
    c & d Both parties informed of Open Advice (MT518)

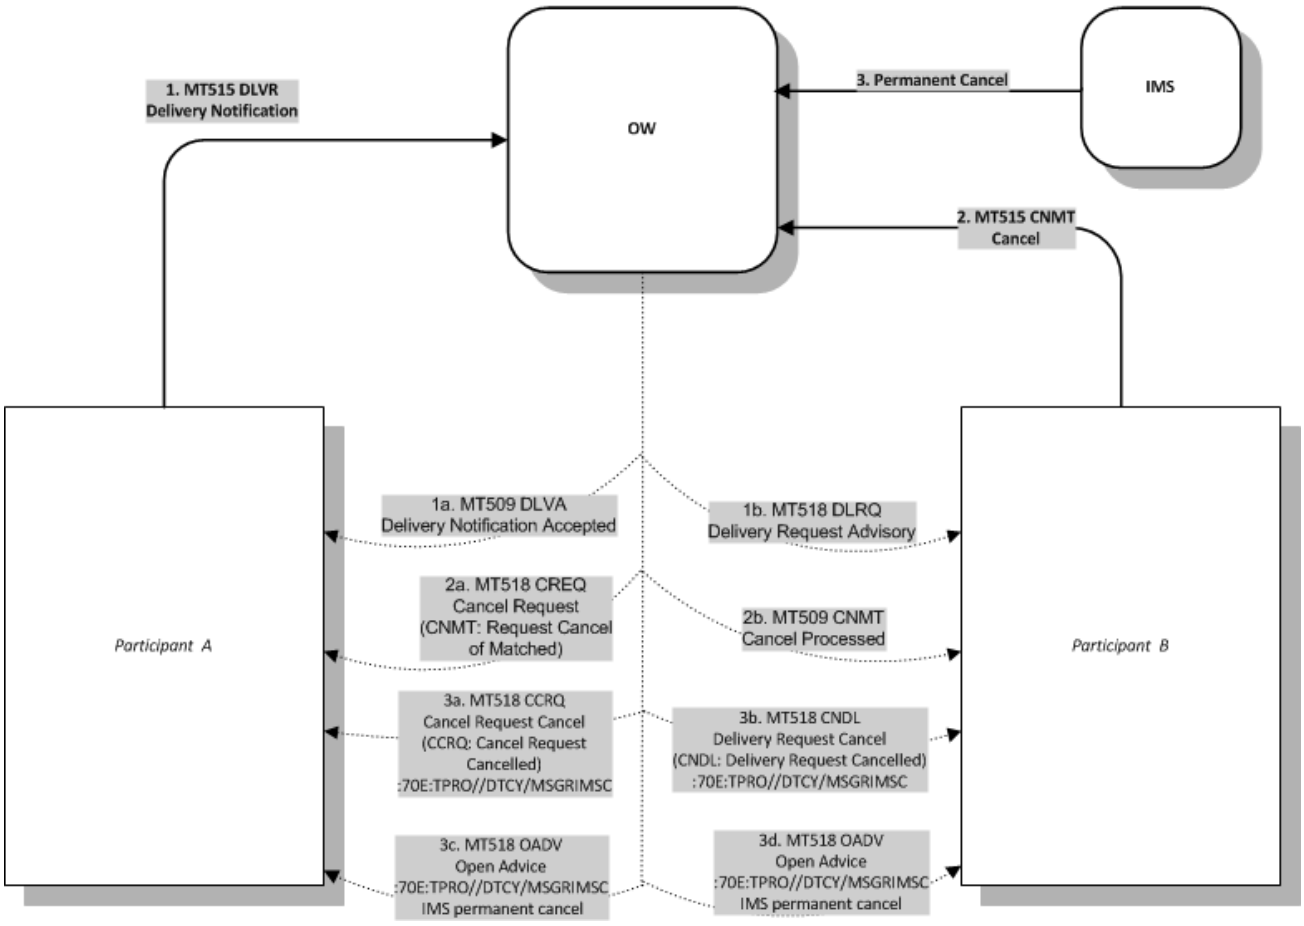

Figure 126: IMSC-5 OW Accepts IMS Permanent Cancel for Obligation Previously Sent By Auto DO, currently in Pending Cancel, Pending Delivery Acceptance Status

Title: IMSC-5
Description: OW accepts IMS permanent cancel for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part A requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent cancel from IMS and lifts PCPA
    a. Contra notified of Cancel request cancel, when OW accepts permanent cancel from IMS (MT518)
    b. Contra notified of cancel of the delivery request (MT518)
    c. Submitter of Delivery Request & Cancel Request receives Open Advice (MT518)

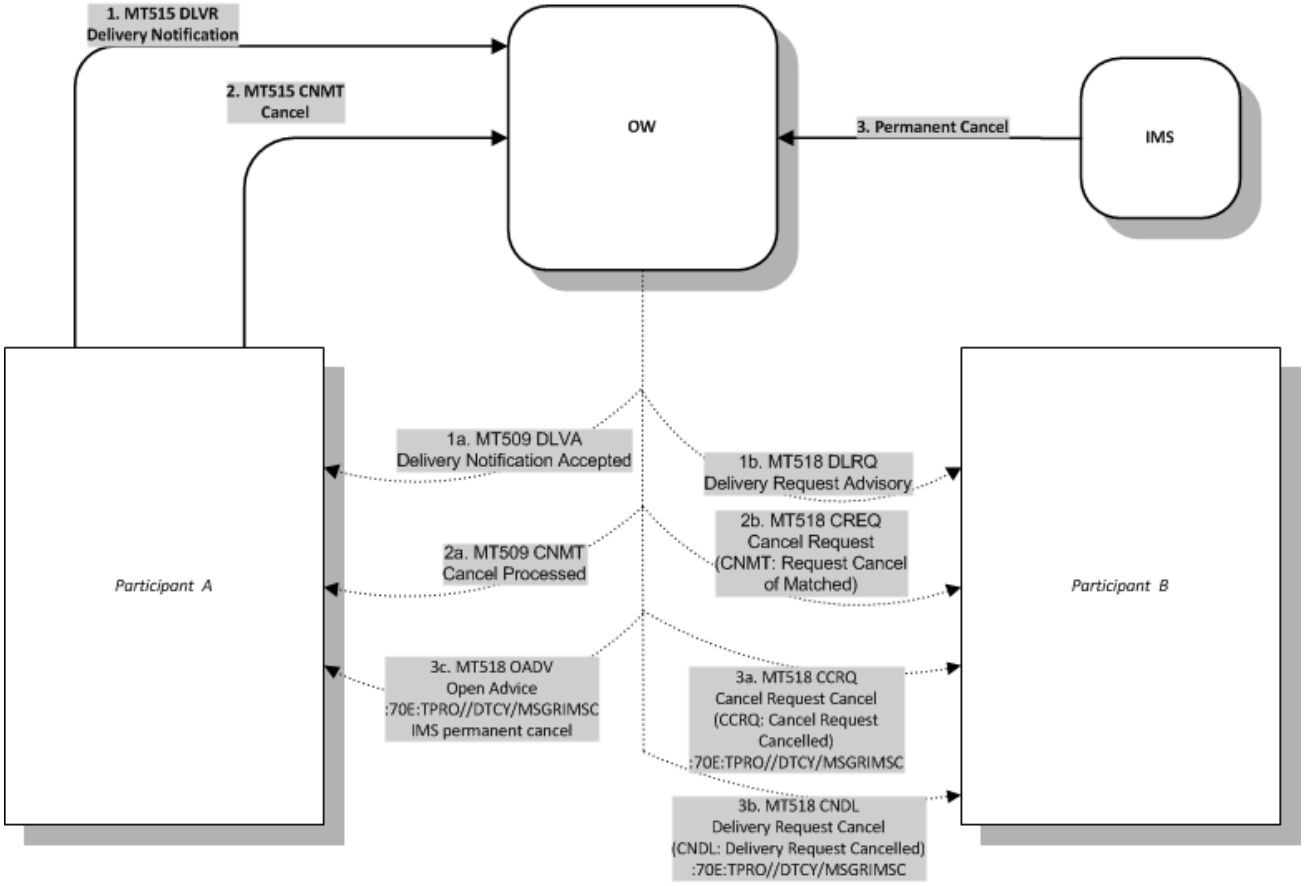

Figure 127: IMSD-1 OW Accepts IMS Permanent Drop for Obligation Previously sent by Auto DO, Currently in OPEN Status.

Title: IMSD-1
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in OPEN status.

1. Obligation was sent to IMS (SIMS) by OW, as defined by Auto DO profile of firm
   a & b Both parties notified of obligation sent to IMS for delivery (MT509)
2. OW accepts permanent drop from IMS and applies
   a & b Both parties notified by OW that SIMS limitation lifted by permanent drop in IMS (MT518)

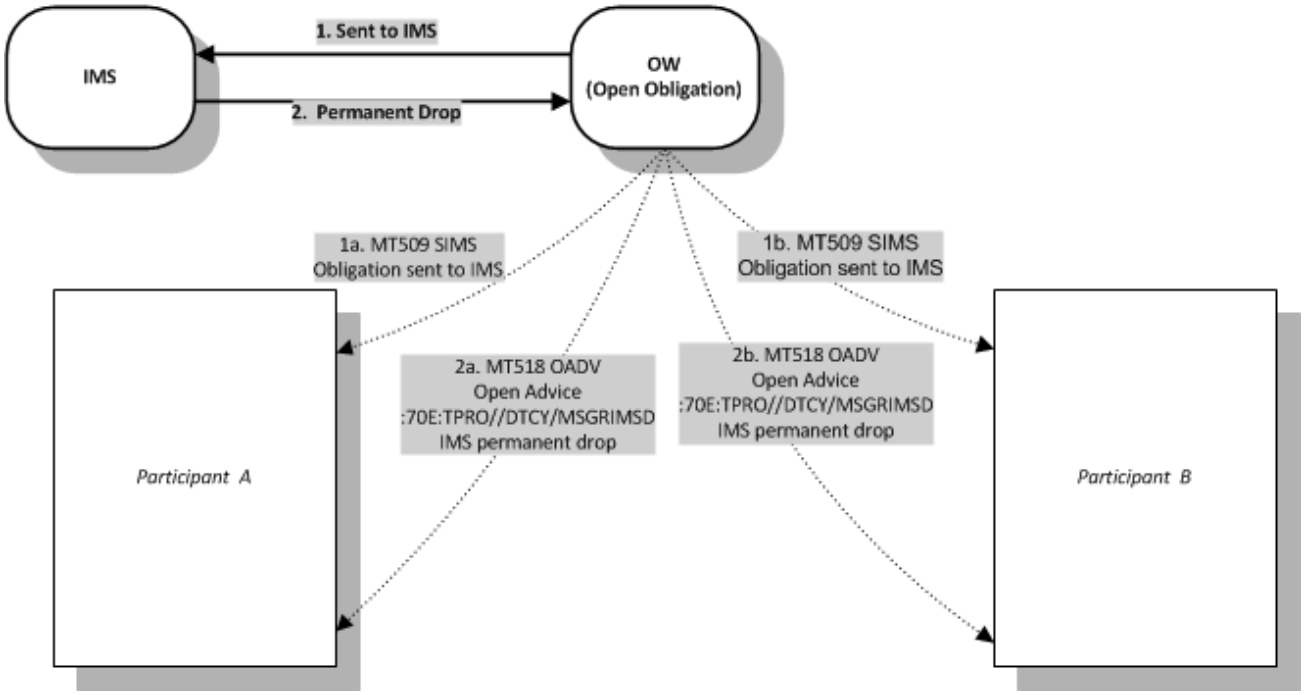

Figure 128: IMSD-2 OW Accepts IMS Permanent Drop for Obligation Previously sent by Auto DO, Currently in Pending Cancel Status.

Title: IMSD-2
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO , currently in Pending Cancel status.

1. Part A requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent drop from IMS and lifts PCAN
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent drop from IMS (MT518)
    b. Contra receives a cancel of cancel request , moving obligation to Open status (MT518)

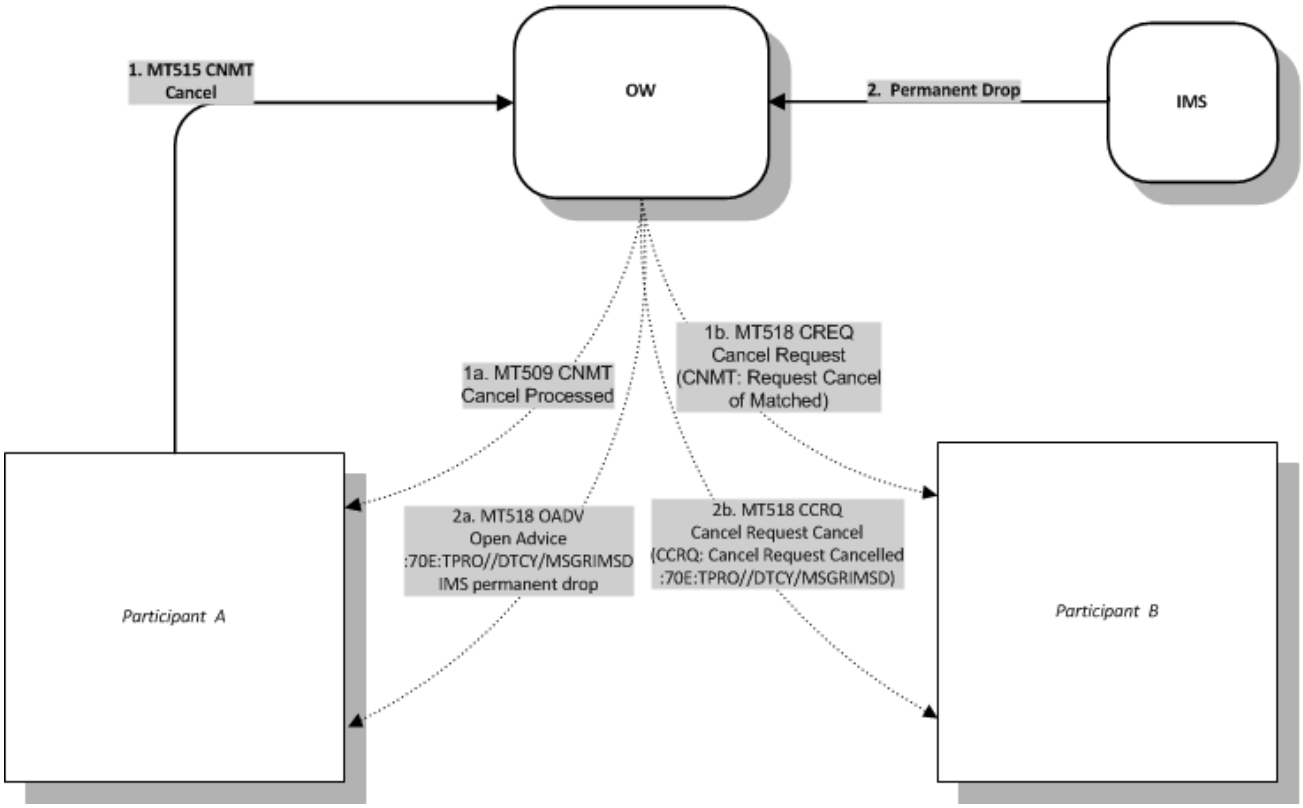

Figure 129: IMSD-3 OW Accepts IMS Permanent Drop for Obligation Previously sent by Auto DO, Currently in Pending Delivery Status.

Title: IMSD-3
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Delivery status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent drop from IMS and lifts OPPA status
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent drop from IMS (MT518)
    b. Contra receives a cancel of delivery request , moving obligation to Open status (MT518)

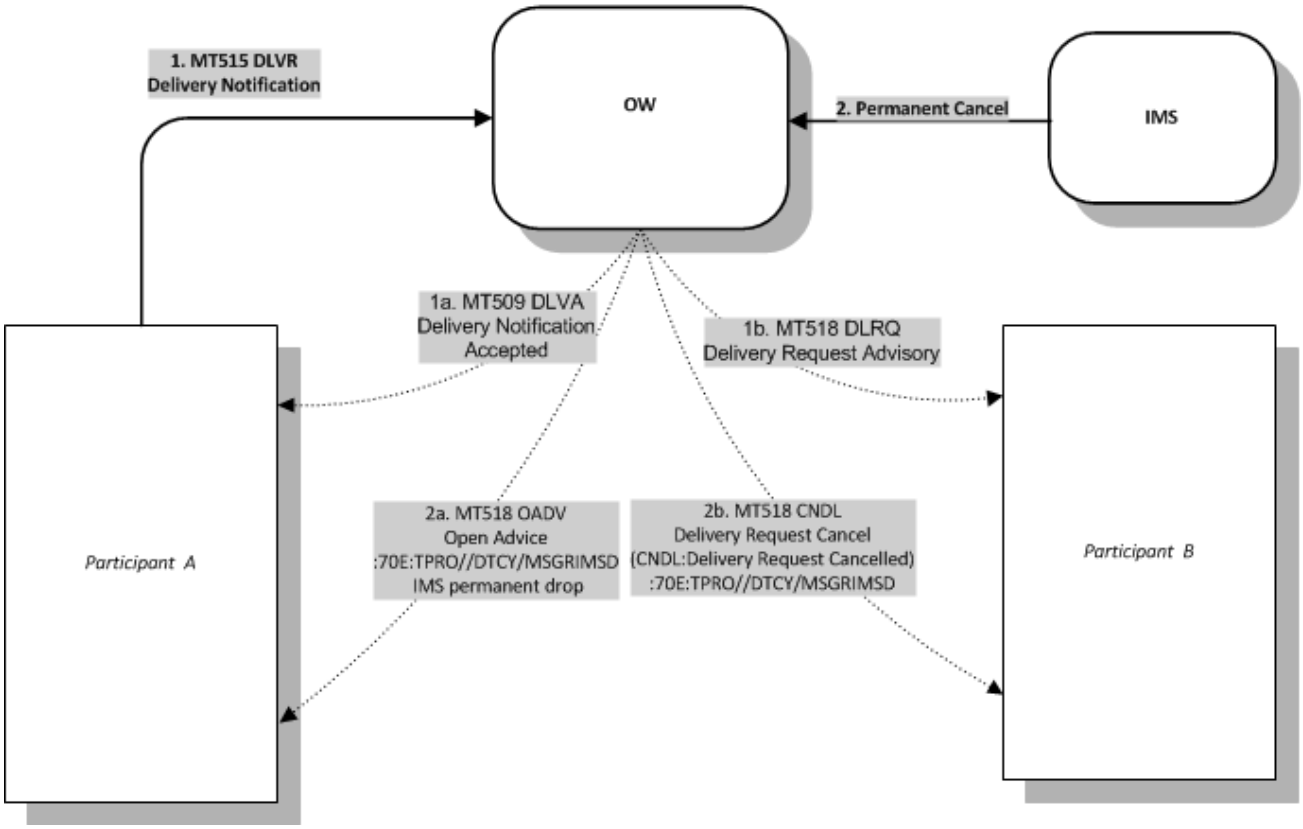

Figure 130: IMSD-4 OW Accepts IMS Permanent Drop for Obligation Previously sent by Auto DO, Currently in Pending Cancel, Pending Delivery Acceptance Status.

Title: IMSD-4
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part B requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent drop from IMS and lifts PCPA
    a. Submitter of Delivery Request notified of Cancel request cancel, when OW accepts permanent drop from IMS (MT518)
    b. Submitter of Cancel notified of cancel of the delivery request (MT518)
    c & d Both parties informed of Open Advice (MT518)

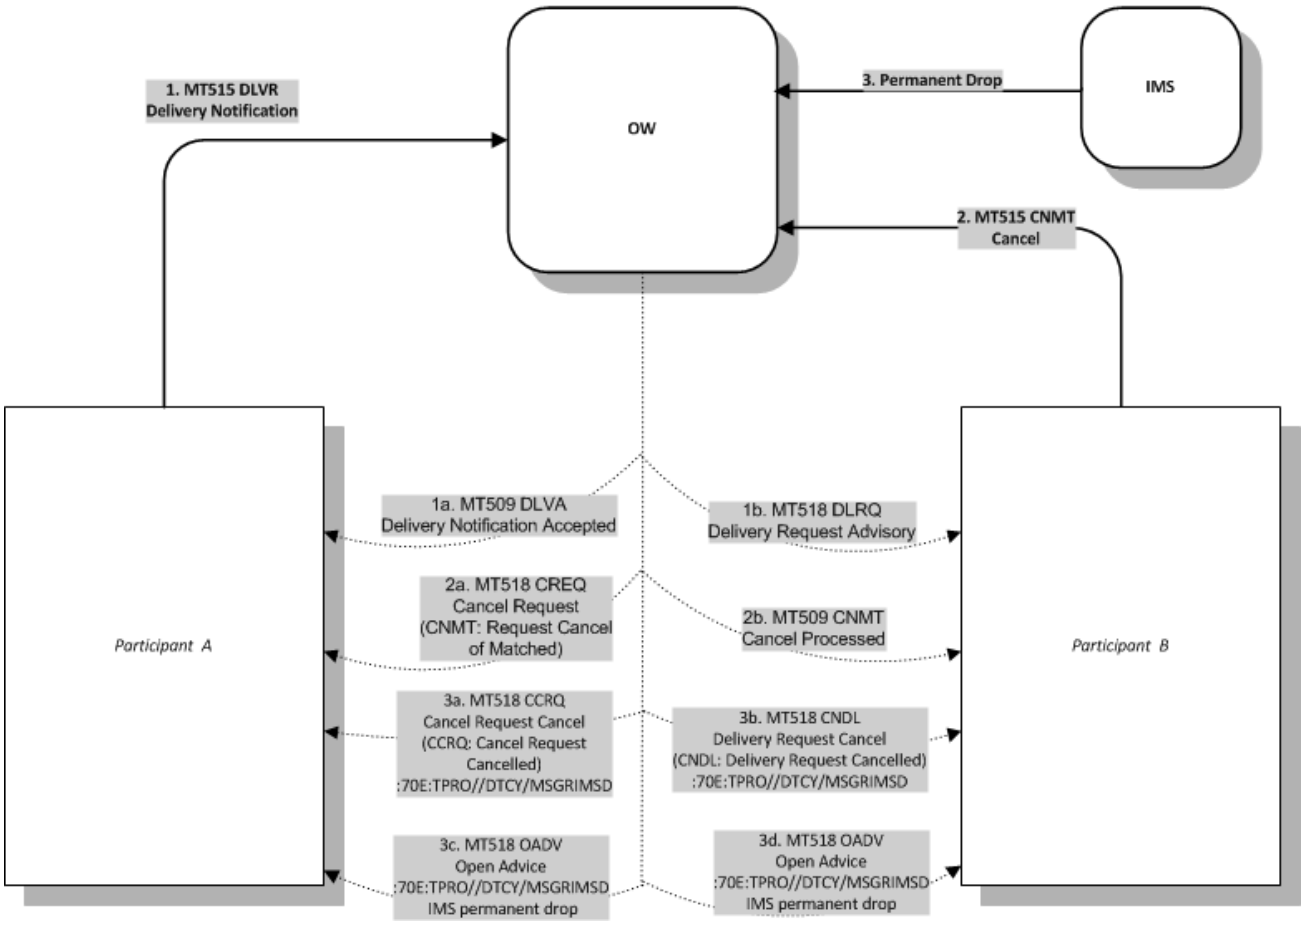

Figure 131: IMSD-5 OW Accepts IMS Permanent Drop for Obligation Previously sent by Auto DO, Currently in Pending Cancel, Pending Delivery Acceptance Status.

Title: IMSD-5
Description: OW accepts IMS permanent drop for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part A requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent drop from IMS and lifts PCPA
    a. Contra notified of Cancel request cancel, when OW accepts permanent drop from IMS (MT518)
    b. Contra notified of cancel of the delivery request (MT518)
    c. Submitter of Delivery Request & Cancel Request receives Open Advice (MT518)

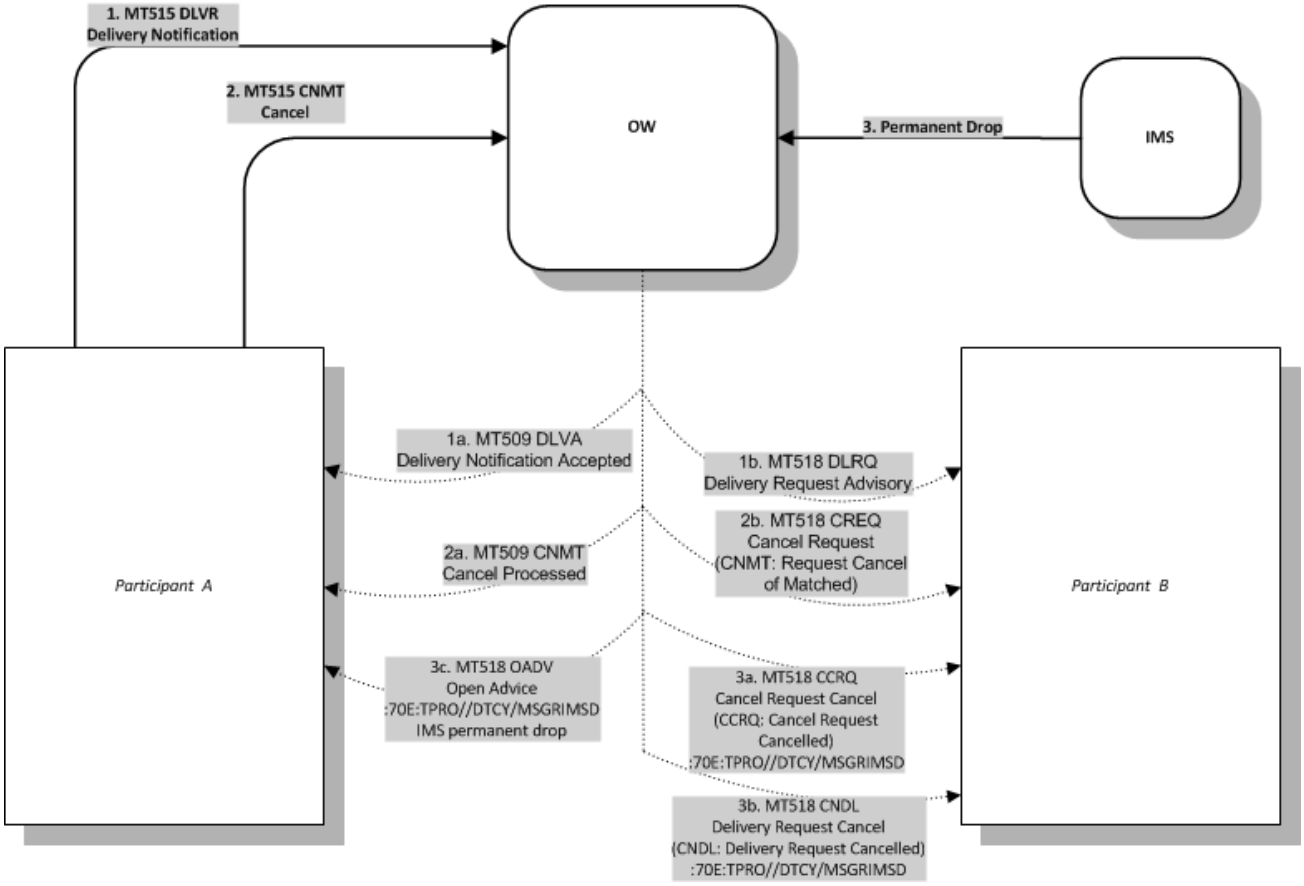

Figure 132: IMSR-1 OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in OPEN status.

Title: IMSR-1
Description: OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in OPEN status.

1. Obligation was sent to IMS (SIMS) by OW, as defined by Auto DO profile of firm
   a & b Both parties notified of obligation sent to IMS for delivery (MT509)
2. OW accepts permanent reject from IMS and applies
   a & b Both parties notified by OW that SIMS limitation lifted by permanent reject in IMS (MT518)

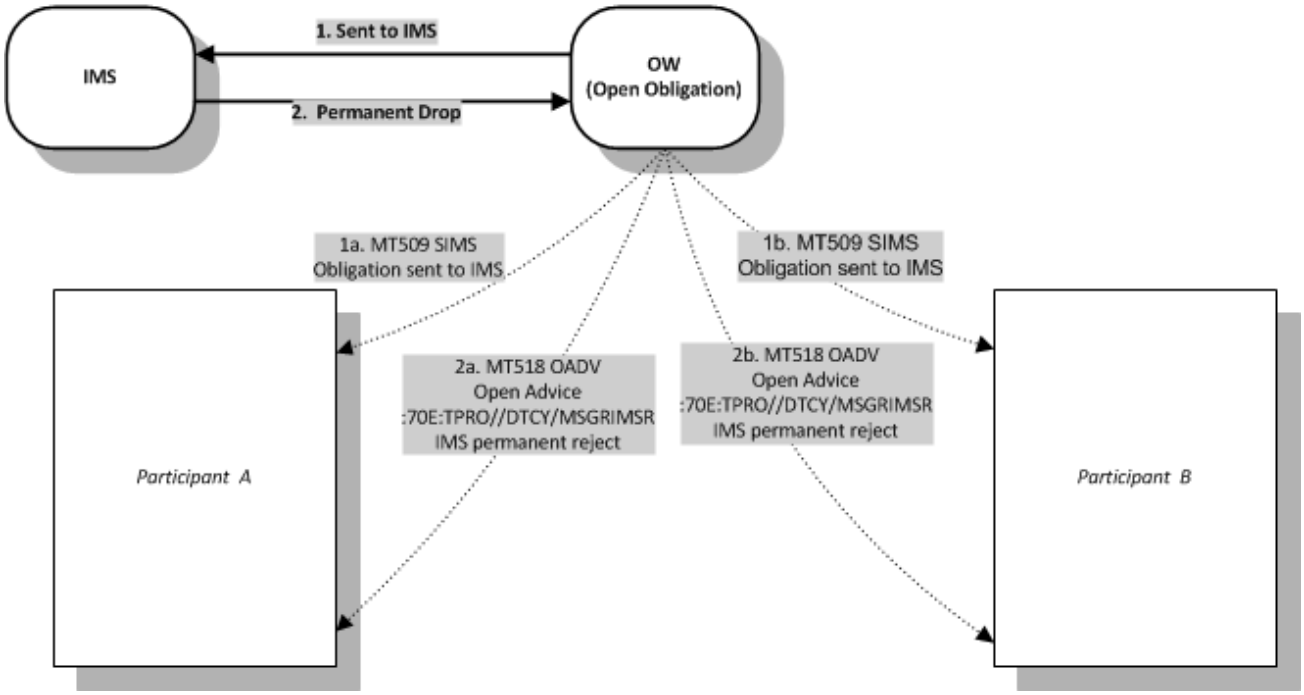

Figure 133: IMSR-2 OW Accepts IMS Permanent Reject for Obligation Previously sent by Auto DO, Currently in Pending Cancel Status.

Figure 134: IMSR-3 OW Accepts IMS Permanent Reject for Obligation Previously sent by Auto DO, Currently in Pending Delivery Status.

Title: IMSR-3
Description: OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in Pending Delivery status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. OW accepts permanent reject from IMS and lifts OPPA status
    a. Submitter of Cancel notified of Open Advice when OW accepts permanent reject from IMS (MT518)
    b. Contra receives a cancel of delivery request , moving obligation to Open status (MT518)

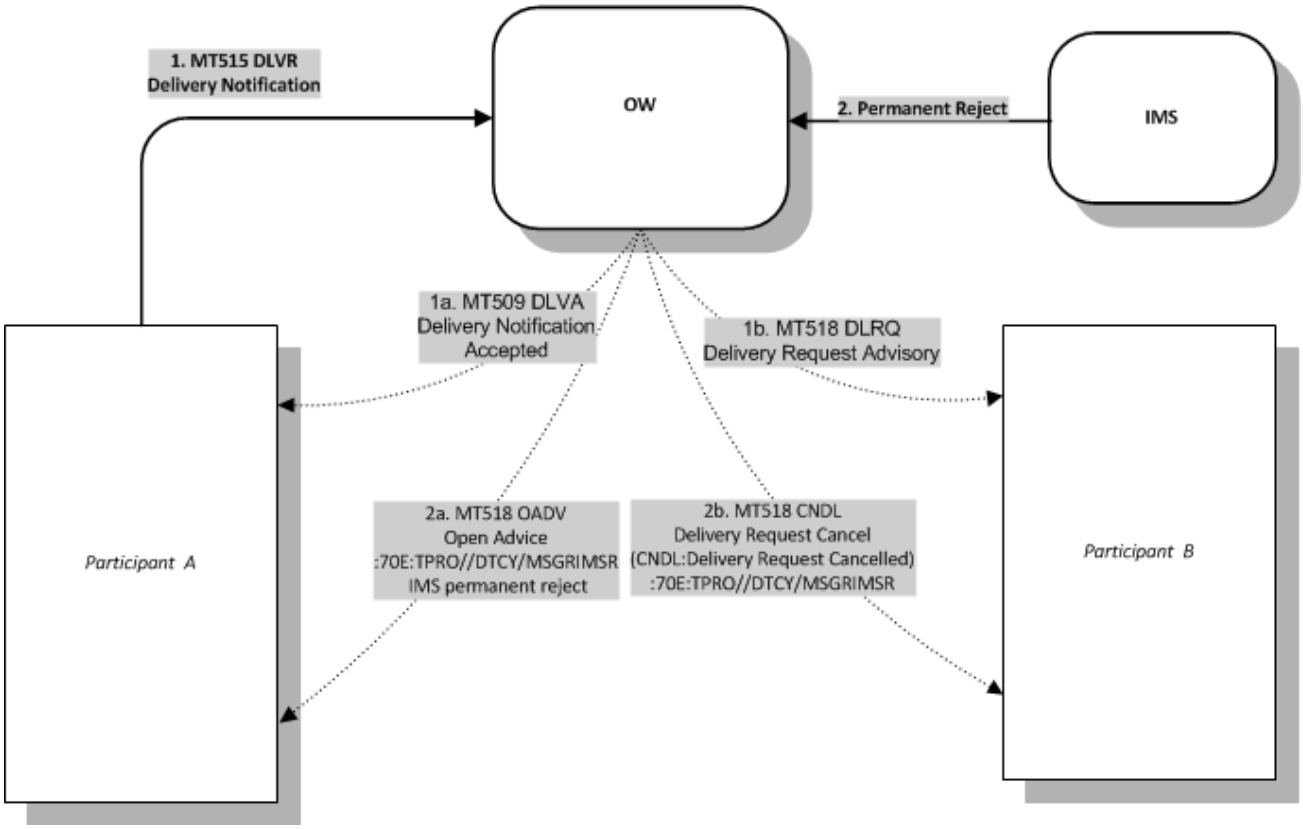

Figure 135: IMSR-4 OW Accepts IMS Permanent Reject for Obligation Previously sent by Auto DO, Currently in Pending Cancel, Pending Delivery Acceptance Status.

Title: IMSR-4
Description: OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
2. Part B requests Cancel of obligation
    a. OW response to submitter (MT509)
    b. OW send Advisory to contra (MT518)
3. OW accepts permanent reject from IMS and lifts PCPA
    a. Submitter of Delivery Request notified of Cancel request cancel, when OW accepts permanent reject from IMS (MT518)
    b. Submitter of Cancel notified of cancel of the delivery request (MT518)
    c & d Both parties informed of Open Advice (MT518)

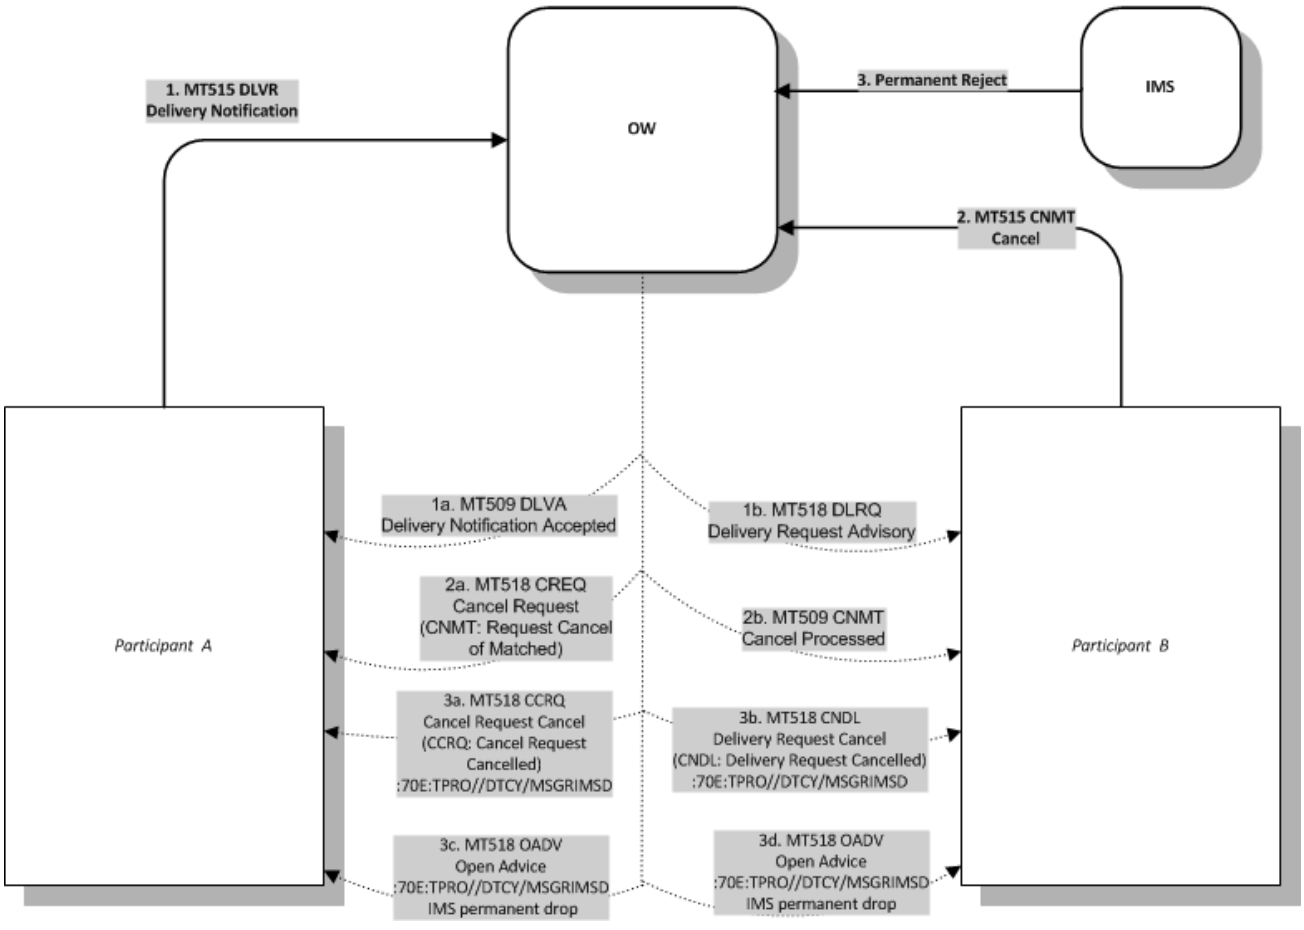

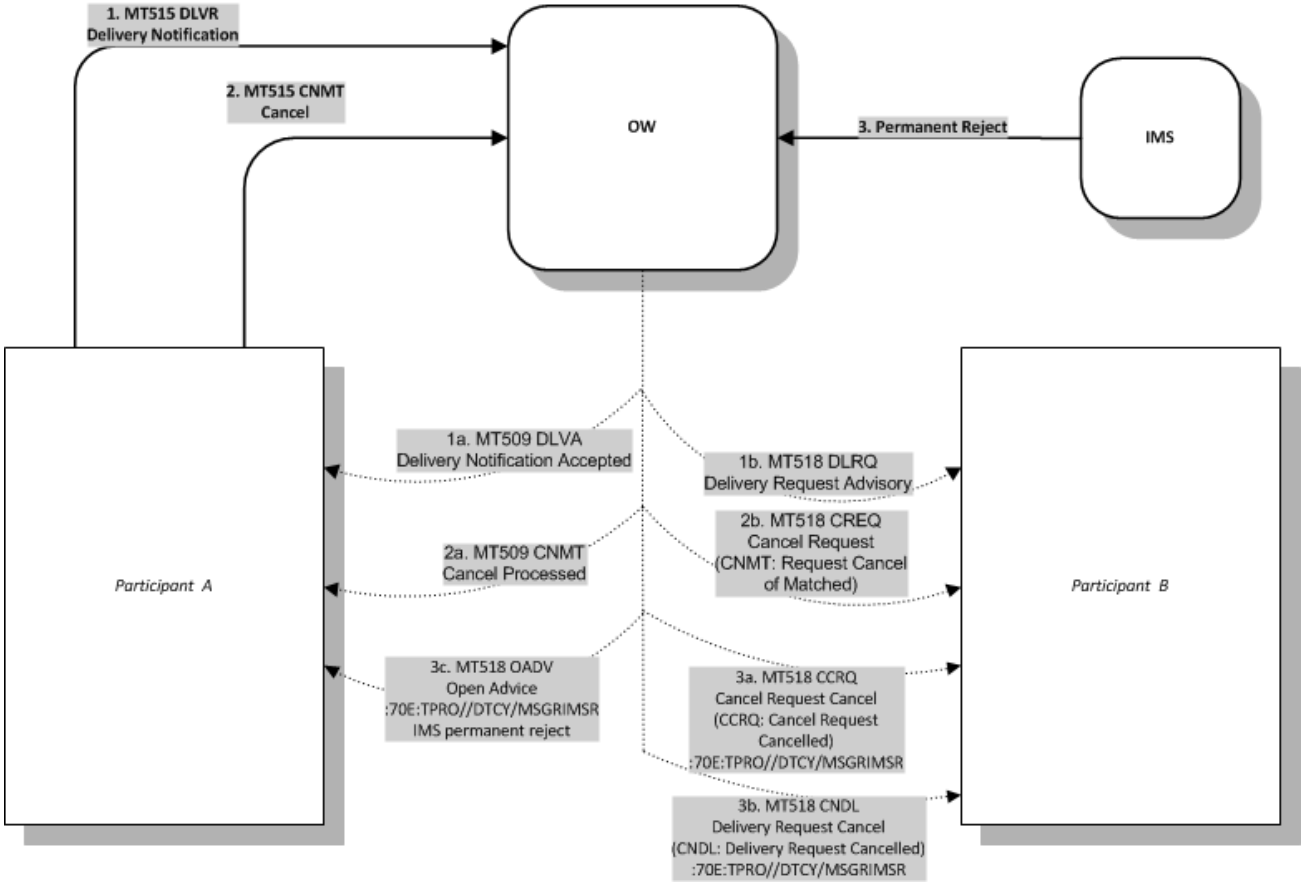

Figure 136: IMSR-5 OW Accepts IMS Permanent Reject for Obligation Previously sent by Auto DO, Currently in Pending Cancel, Pending Delivery Acceptance Status.

Title: IMSR-5

Description: OW accepts IMS permanent reject for obligation previously sent by Auto DO, currently in Pending Cancel , Pending Delivery Acceptance status.

1. Part A submits OW Delivery Request to contra for acceptance
   a. OW response to submitter (MT509)
   b. OW send Advisory to contra (MT518)
2. Part A requests Cancel of obligation
   a. OW response to submitter (MT509)
   b. OW send Advisory to contra (MT518)
3. OW accepts permanent reject from IMS and lifts PCPA
   a. Contra notified of Cancel request cancel, when OW accepts permanent reject from IMS (MT518)
   b. Contra notified of cancel of the delivery request (MT518)
   c. Submitter of Delivery Request & Cancel Request receives Open Advice (MT518)
